A WOMAN TELLS HOW TO RELIEVE RHEUMATIC PAINS

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years.

I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked - Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief which it affords is alone worth many times its cost. It makes rest and sleep possible. For

TEMPERANCE AND MORAL REFORM.

(Contributed.)

The following is a note from the annual meeting of the Presbyterian Synod of Hamilton and London held last week.

At the afternoon session Rev. Dr. Shearer, Secretary of Temperance and Moral Reform, gave an address and was followed by Dr. R. P. McKay, who has recently returned from a trip around the world, in which he visited the different mission fields of the Church.

The Synod was addressed on the moral reform movement by the Rev. Dr. Shearer, and afterwards passed by a unanimous vote a series of resolutions dealing with these questions, the purport of which was as follows:

An endorsement of the international movement in favor of moral reform, expressing pleasure that so many members of Parliament were in favor of legislation which would remove the evils of cigarette-smoking, from boys, favoring the proposed amendment of the criminal code, to prevent the negotiation of bets at races or elsewhere, and expressing horror at the apparent increase in the crime of destroying unborn human life, and earnestly calling on the high profession of medicine to use all its influence and the Crown all its power and influence to put an end to what appears to be a serious national peril.

Regarding temperance the Synod put itself on record as favoring the total prohibition of the liquor traffic, but recognizing that this can only be achieved by stages; and by thorough-going educational work, therefore declares its willingness to work with all other bodies along the following lines: (a) local vote, by which a majority of the duly-qualified electors of a locality may abolish all liquor licenses in their locality; (b) abolish the bars and the treating system, thus cutting off the worst features of the traffic; and prohibiting it except where the duly-qualified electors declare that they desire the traffic to continue, the liquor to be sold for consumption off the premises, in which case the liquor should be sold by some plan of management doing away with the trade profits so that there would be no inducement to press the sale.

The question of compensation was discussed at a later meeting as follows: The Synod held their final meeting this evening, the sessions having been most successful. At the afternoon sederunt a motion on the temperance question was introduced, recommending the establishment of Government dispensaries and the granting of limited compensation, extending over a term of three years, to those whose means of livelihood was affected in this change. Considerable discussion took place on this point, the motion being finally approved and sent on to the Assembly. Reports of the various committees were received, the Synod adjourning to meet next year in Hamilton.

ended the State Dispensary System which had become foul and corrupt to the last degree. The reason for the dismal failure of the dispensary system as a temperance measure, are stated to be as follows:

"In the first place, the influences surrounding retail distribution have become so low that the traffic corrupts wherever it touches. In the second place the alliances between bad politics and the sale is so old and close that the liquor interests laugh at all laws, made for their regulation. Instead of taking the liquor questions out of politics it tied it up tight to the political ring; and this new method of distribution became evil in itself and a cause of evil in the whole body politic."

The above articles serve to show that the great moral forces of Canada are awakening and are seeking a solution for the evils of the liquor traffic, and sooner or later these great moral forces will find a common ground of united action, and our generation is likely to witness some reforms of a very radical character.
