

I.O.F. RATIFY INCREASED RATES

Supreme Court Adopts Compromise Scale of Higher Payments for Older Members.—The New Rates.

I.O.F. SUPREME COURT.
Raises rates on older members
Chops off salaries: \$3,000 from
\$7,000 paid Supreme Treasurer;
\$2,000 from \$7,000 paid Supreme
Secretary; \$1,000 salary of S.C.
R. untouched.

Court sat five days.

Term cost about \$30,000.

Membership 265,000.

Members affected by rates increase, 110,000.

Court adopts compromise plan.

Rejects: Adoption of National Fraternal Congress table of rates.

Scheme of Supreme Chief Ranger in its entirety.

Modified increase, plan of J.G.H. Meyers, New York.

A dispatch from Toronto says:—The Supreme Court of the Independent Order of Foresters, in session in this city, after two days of strenuous discussion in the effort to adopt any one of three new re-rating schemes submitted by the rate committee, adopted a compromise scale which applies to those only who joined the order prior to 1899.

Under the new scale these older members do not get off as lightly as they would if the plan proposed by John G. H. Meyers, of Eastern New York, had carried, but they escape somewhat better than if the radical re-arrangement put forward as the means of financial salvation of the order by the Supreme Chief Ranger were adopted. The scale, adopted somewhat suddenly when it became apparent that twenty-nine speakers more wanted to be heard on the rates question, was the product of the suggestion of A. W. Fraser, K.C., of Ottawa, and it was finally ratified by a vote of 123 to 58.

CHOP THE SALARIES.

The Supreme Court also took up the question of salaries being paid Supreme officials, and they decided to chop off \$8,000 from the \$7,000 salary of Harry Collins, the Supreme Treasurer, and \$2,000 from the salary of Supreme Secretary R. Mathison.

The \$15,000 salary of the Supreme Chief Ranger remains untouched, as does that of the Supreme Physician, \$7,000, and the two auditors, \$2,000 each.

110,000 AFFECTED.

There are about 110,000 members out of the 265,000 whose monthly rates will be raised as the result of what the Supreme Court did at

A COUNTY WITHOUT DEBT

The Affairs of Dufferin Are Well Managed.

Orangeville, June 19.—The County Council of Dufferin, which has been in session here all week, concluded its business this afternoon. Dufferin County was formed in the year 1881, being parts of the older counties of Wellington, Simcoe and Grey, and so well have its affairs been managed in the succeeding years that the county, although possessing fine municipal buildings, has not one dollar of debenture debt, and adjoining townships are seeking admission within its boundaries.

The Crown Attorney addressed the Councillors at some length, advocating a salaried County constable to be appointed to assist in the securing of evidence under his direction, the existing fee system and the assistance furnished by the Provincial detective force not being adequate or satisfactory. No action was taken.

A grant of \$50 was made to defray the nursing expenses of the young Englishman, Frank Coultrip, who was struck by the C.P.R. yard engine near here on the 1st inst. The unfortunate man had his right leg amputated on Saturday last. He will likely recover.

DURHAM HOUSE ROBBED.

The house of Mr. and Mrs. Wm. Walls was broken into on Tuesday last and ransacked from top to bottom. Fortunately only \$2 was left in the house at the time, and whoever the parties may be, they were poorly paid for their trouble.

It seems that Mrs. Walls was out washing while her husband was attending to his duties elsewhere.

The children were at school, and the house was without any protection whatever.

To gain entrance, the burglar must have broken open the front door with a chisel or some such instrument, as marks on the door will not justify the suspicion that it was shoved in by main force.

When the family returned home and discovered the burglary, Chief Carson was at once notified, and suspicion pointed to two umbrella men who had been around for a day or two.

Their movements were, however,

accounted for on the day in question, and it looks at present as if there is absolutely no clue on which to work.

General appearances indicate, however, that the burglary was committed by some person who was well acquainted with the habits of the family, or he could never have so turned his movements as to strike the place at the right moment without fear of discovery.—Chronicle.

A Doctor's Statement
