## PRICEVILLE

Very hot weather during the last week of July. Farmers finishing haying and beginning harvesting operations suffered much from the heat.

The little scare over a supposed case of smallpox is now a thing of the past, in fact the majority of people will not believe it was the said disease at all. The gossip-mongers and cranks of the vicinity fabricated and distributed a few false statements during the six weeks of the quarantine, but are now lying low, as there is a possibility of their being called to account shortly.

The family who were shut in so long by quarantine regulations wish to thank the kind people near and far, who sent in sympathetic letters, cards and other messages, also choice flowers and early foreign and domestic fruits of various kinds. The kindness of these people will never be forgotten.

Miss M. Grant of Durham, has been engaged to teach in school No. 7 O.D.R. after holidays.

Miss Gertie McLeod goes to Edmonton, Alta., this week to take charge of a school.

Mr. and Mrs. Donald Stewart, North Line, will take the train on Thursday of this week to visit friends in Manitoba.

Miss Mary Conkey, who has been ailing with rheumatism for some months, starts on Monday of this week for the sulphur springs at Preston, we understand, and her many friends sincerely hope that she may be speedily restored to usual health and vigor.

Miss May Ferguson, who has been confined to the house since Easter with sciatica, has improved considerably during the last two weeks.

The regular passenger service on our new railway is a great convenience and the freight and express business is well patronized. Our station house is built on the new style and altogether different from the railway buildings of the past. The roof, with its numerous gables and angles painted a bright red, gives it an attractive appearance.

Monday was a busy day at the station; in addition to the four regular trains, a special excursion train came up from the West in the morning and returned at night with its long line of coaches brilliantly lighted. Crossing the Sauguen valley at an altitude of 30 feet, it made a pretty sight.

J. Brander and Aldcorn and son are shipping vast quantities of raspberries by express every morning, and the good berry crop is being turned into cash or household goods.

Every few days a car of freight is placed on the siding for Aldcorn & Son, also large quantities of freight and express for other business men. Verily, our village has risen from the dead and is rapidly becoming a busy market and great distributing centre.

The next thing you will need to keep your eye open for will probably be a great A.O.U.W. picnic. Don't miss particulars.
