IS YOUR CHEST "WHEEZY?" Tightness and wheezing means your trouble is deep-seated. To delay is dangerous. Inflammation must be drawn out at once. Rub the throat and chest with Nerviline, and put on a Nerviline Porous Plaster. Relief comes in an hour. The counter-irritant effect of the plaster relieves the tightness and strain, draws out the soreness, eases the pain. The penetrating qualities of Nerviline enable it to soak to the very core of the trouble, and you experience a feeling of warmth and relief that proves the danger is past. For weak chest, sore throat and tendency to colds, the Nerviline treatment beats all others, try it.

The Highest Type of Citizen.

Following is the "Definition of High Type of Citizen," which was awarded first place in the competition at Markdale Fall Exhibition for the Standard's special prize, written by Miss Annie E. Shaw, of Euphrasia:

"Citizenship demands the upbuilding of the community in which one lives as effects the whole country at large, a law-abiding and law-upholding citizen, a genial, self-sacrificing spirit towards our fellow-men, a well governed household, a refined and educated family and last but greatest (for in this last all depends) a pure, many Christian character. In short, citizenship means absolute unselfishness."

"The Highest Type of Citizen must therefore be unselfish—one who feels in the very vitals of his being a power uniting him to every portion of the earth. He must realize that his duty is the shaping of the destiny of a universe."

If you have difficulty in removing a cake or loaf of bread from the pan in which it is baked, place the pan in an inch or two of cold water a few minutes after taking from the oven. The steam loosens the loaf and it may be removed without breaking.
