P. J. THOMPSON,

The Clothing and Tailoring House of Markdale.

Executors' Notice to Creditors.

In the Matter of the Estate of John Murray, Deceased.

Notice is hereby given pursuant to R. S. O. 1897 chapter 129, section 38, that all creditors and other persons having claims against the estate of John Murray, late of the village of Walters Falls, in the County of Grey, farmer, deceased, who died on or about the first day of April, 1908, are required to send by post prepaid or to deliver to the undersigned solicitor for Henry Bonnell, merchant of Walters Falls, and William Dixon, of Holland township, the executors of the last will and testament of said deceased, on or before the 30th day of October, 1908, full particulars of their claims and of the securities (if any) held by them, duly verified by affidavit, and that after the said 30th day of October, 1908, the said executors will proceed to distribute the assets of the said estate, having regard only to the claims of which they shall then have notice.

P. McCULLOUGH,
Markdale, Ont.
Solicitor for said Executor.
Dated this 28th day of Sept., 1908.

Last week the National Portland Cement Company at Durham broke all their former records for any one month's run, when they burned over a total of 36,500 barrels. As September is only a thirty-day month, this will mean a considerable increase on the average daily output, as all records have hitherto fallen on months containing the full complement of days. Besides, the company is now operating with from 25 to 30 hands less than formerly.

WEAKNESS IN YOUR BACK?

Sometimes you experience pain and weakness without much suffering. Later on the pain will surely come. The trouble can be stopped now by rubbing on Nerviline Plaster. In these remedies you will find wonderful and quick relief. They will spare you from an attack of Lumbago, which is the outcome of neglected pain in the back or side. For all muscular pains, strains and weakness, Polson's Nerviline and Nerviline Plasters have no equal. Refuse substitutes.

NOTES BY THE WAY FROM MARKDALE TO MANHATTAN, KANSAS.

Leaving Markdale Wednesday evening, Oct. 7th, en route for Manhattan, Kansas, I took 8.40 p.m. train north. In fifty minutes was comfortably quartered in the Sheldon House, Owen Sound. Next morning boarded the G. T. train at 5.30. Rain had fallen and the weather was warm. Some twenty passengers took this early train. Passing Shallow Lake, the home of the Owen Sound Portland Cement works, which is the principal industry of the place, we reached Park Head at six o'clock. Here the Warton train connects, causing a fifteen-minute halt. The country improves as a farming district as we proceed, and at Allenford, Tara, etc., a beautiful and prosperous agricultural country is traversed. An occasional field or patch of corn in shock is seen, and but very little fall plowing is as yet done. Fall wheat is very little in evidence here, and what little there is appears late and weakly, nothing like as vigorous or forward as that about Markdale. At Chesley there are decided indications of growth and development, in numerous new factories nearing completion. From Chesley to Harrison the country is more rolling, fall wheat and roots look better and fall plowing more advanced. The old-fashioned rail fence which cuts up farms into small fields is an eyesore and should be replaced by the clean wire fence, thus eradicating the nursery of noxious weeds that too often originate and thrive in the crooked rail fence corner. Palmerston is reached at 8.10. This is an important G.T.R. junction, trains going out in six different directions so that a wait of half an hour is required so as to make complete connections. From here the country becomes more level to flat and is a fine farming district with stretches of marshy lands. Listowel and Milverton, prosperous looking towns, are touched, and at 9.35 we reach Stratford, connecting with the G.T.R. main line, or train from Montreal to Chicago. This is also an important Grand Trunk centre, where six lines converge.

Left Stratford at 10 via St. Mary's, London, Lucan crossing. This is a superior agricultural country, as is very well known. Changed cars at London for through Chicago train. Leaving London at 11.20, we proceed via Strathroy, Wyoming, etc., to Sarnia and through the tunnel under Lake St. Clair to Port Huron at noon. Here the time changes backward an hour, allowing the custom officials ample time to ransack baggage and personal effects. Leaving Port Huron at 12.15 we make the run to Flint, 64 miles, in one and a half hours. This is a good farming district, with an increasing acreage of corn. The barns are not as large as they are on the Canadian side, as a rule, but all outhouses are brightened up and greatly improved in appearance by the use of paint. Thus, Mercer, our famous stock importer, has evidently caught the spirit, as his splendid barns are conspicuous in this regard. After passing Flint the country is even better, and corn fields are larger and more numerous. The Grand Trunk being double-tracked from Montreal to Chicago, a distance of 840 miles, through trains make good schedule time. Towards Chicago the land is not so good for agricultural purposes. Our train pulls into the Windy City on time, 8.45 p.m. Night coming on our view is obscured. Distance from Stratford 110 miles. At ten o'clock we leave here, Dearborn Station, Chicago, per Acheson, Topeka and Santa Fe railway for Kansas City, a distance of 458 miles, reaching the latter at 11.30 the following morning, Friday, October 9.

We pass from Illinois state through Iowa, Missouri and into Kansas. The first half is made while we rest comfortably in refreshing slumber, nothing occurring to mar our repose excepting the clang of cowbells and tin pans at one station. Evidently a chaurivari party. The morning opened clear and frosty with no material change in the appearance of the landscape except that the corn fields were larger and more in evidence, the bulk of it yet uncut. The accommodation in both the Grand Trunk and Santa Fe is first class. The country generally had the appearance of having had little or no rain for a long time, which we found was correct.

C. W. RUTLEDGE.

WODEHOUSE

The weather still continues to keep dry. The ground is hard and not much fall plowing has yet been done. Mr. and Mrs. B. Carruthers, of New Liskeard, are renewing acquaintances around here. The Misses Wiley, of Maxwell, are visiting with friends here. Miss B. Wiley, of Meaford, spent

Sunday at home. Messrs. Joseph Abercrombie and James Morwood, two of our young stalwarts, took in the harvest home at Temple Hill on Wednesday evening.

Mr. Hutchinson, Supt. of Kimberley Sunday School, attended the Rally at N.E. on Sunday last.

Several of our young people attended the harvest home at Epping and report a good time.

Mrs. Thos. Brown, of Markdale, spent Sunday and Monday with Mrs. Geo. Hicks.

Mr. and Mrs. Frank Cullis have returned to the West, after spending a few weeks with eastern friends.

Our annual anniversary services were held Sunday. The Rev. J. S. Wilson, of Markdale, occupied the pulpit at the three services.

The afternoon address to the Sunday School was particularly interesting and very much enjoyed by both old and young. Monday evening a good tea was served in the basement of the church, which all seemed loathe to leave for the better things awaiting them upstairs. The chair was occupied by Rev. Mr. Wilson, who with his ready wit kept the audience in good humor. Miss Lillian Sproule, of Markdale, gave some good readings, which the delighted audience loudly enjoyed. Two vocal solos given by Mr. Gladwyn Haskett, of Markdale, were much appreciated. This was Mr. Haskett's first appearance before a N. E. audience but all hope it will not be the last. The instrumental selections given by Mr. and Mrs. C. Keintner, Mr. Albert Erskine and Miss Mildred Erskine, were received with such applause an encore had to be given. An excellent address, given by Rev. Lawrence Heathcote, was listened to with good attention. The proceeds of the evening amounted to almost \$60.00.

Report for S. S. No. 2, Holland and Euphrasia, for Sept.

Pr. 2.—G. Wice, L. Wice, D. Robinson.
Sr. Pt. 1.—S. Acheson, C. Bradley, W. Fawcett, A. Burrell.
Pr. Pt. 1.—G. Wice, B. Bradley. Those present every day: N. Richardson; M. Bradley; Ina Acheson, R. Acheson, S. Acheson, M. E. Hunt, Teacher.

Stomach troubles would more quickly disappear if the idea of treating the cause, rather than the effect, would come into practice. A tiny, inside, hidden nerve, gives strength to the stomach. A branch also goes to the heart, and one to the kidneys. When these "inside" nerves fail, then the organs must falter. Dr. Shoop's Restorative is directed specially to these failing nerves. Within 48 hours after starting the Restorative treatment patients say they realize a gain. Sold by W. Turner & Co.

MEAFORD

\$104.25 was collected as wharfage fees during September by Mr. McLean.

The new Methodist church will be opened on Nov. 8. Rev. Dr. Briggs, of Toronto, and Rev. Dr. Williamson, of Hamilton, will be the preachers for the occasion.

The Canning Co. is rushing into print this week to defend themselves for the awful stench which has polluted the south side of the town for weeks past. Whether they can help it or not the stench remains just the same and is a menace to the health of the town, and the local paper deserves credit for bringing it to public notice. The man that can call "An Imaginary Grievance" must have an imaginary nostril. No one wishes to injure the factory and we are only too glad to know that it is prosperous.

A new steel smoke stack, 50 feet high, has been put on the Furniture factory brick chimney.

Miss Hazel Loucks has been granted her appeal by the Education department. Through the fault of hers, the notice came less than a week after Normal opened, but yet she was refused admission. Miss Loucks has secured a school on a permit, near the Soo, for the coming year, and left by the German last Saturday.

Never before in the history of the High School here have so many of its graduates entered the various colleges as this fall. Alex. Wilson, Vincent Price, Miss Mable Thaker, Robt. Segsworth and James Strachan are in McMaster; Harry Dinsmore, Chas. Owens, Frank Hall are in Queens; Roy Loucks, Lawrence Mitchell, Roy Paul are at the School of Science; Fred Gower, Fred Loucks at the School of Dentistry; Erle Stephen, Roy Douglas, Allan Eagles, Norman Culbertson at Medical; Cyrus Allen at Victoria; Thirby Lowe, Fred Alcock, Miss Irene Currie, Robt. Cleland, Fred Anderson at Toronto University; Miss Carrie Hartman, Miss Granger, Miss Mabel Brown at Faculty of Education.

Quite a tempest in a teapot occurred at the last Public School Board meeting. It seems Principal Clark and his staff wished to attend the Convention sure, stops running of the eyes at Flesherton, and asked for the privilege of spending one day there. As some members were so opposed the motion was withdrawn, much to the chagrin of the whole staff. The Convention of South Grey is always a most excellent one, and any teacher attending is bound to reap the highest good and stimulus. It is Mr. Campbell's inspectorate and as he is the Meaford P. S. Inspector, and most highly thought of here, it was but natural they would like to attend. The teachers here work hard and often overtime, and this little outing would have redounded in very much good to the school. We make bold to say that there is no more efficient and painstaking Public School principal in this province than Mr. Clark; and Meaford so appreciates him.

By the way, when you write to Inspector Campbell now, you must make it read, N. W. Campbell; B. A. for help is open to receive congratulations on obtaining his bachelor's degree lately from Queen's. And yet his isn't satisfied.

ROCKLYN.

Our fair is over for 1908 and will be long remembered as the most successful in the history of the village. The day was perfect and the exhibits fine. Through the fault of hers, the notice came less than a week after Normal opened, but yet she was refused admission. Miss Loucks has secured a school on a permit, near the Soo, for the coming year, and left by the German last Saturday.

The statement of the penditures of the ball Club for the year has been prepared by R. J. Gilroy, wishing to see that do so by calling on in the Merchants Bank.

The corporation of paratus—ladders and have been stored in Co's stairway for months, were removed and may now be used specially built for behind Mr. Artley's Main street.

Our postal copies of the Standard subscribers in has proven very and numerous enquiries recently came to hand reasons. We have decided to return to mailing direct to the post office to the cost be what it is the paper may promote intended destination.

An item in last week's copy of the Standard, McIntyre, now living in Strathcona, Alberta, was misleading. The item mentioned Dr. McIntyre, a former resident of the while in reality his home—Reddickville, ten miles from burne. Mr. J. G. Anderson, Independent candidate, is posing Dr. McIntyre's name in the election, is on Valley boy, having been on the farm now owned by James Montgomery. Another example of the County boys are forming, becoming leading factors in of our great Canadian. Taking it for granted the County boys always have a streak, we consider fortunate that these two men are opponents in the contest, for as both camps one must be defeated, when they run in separate contests the chances for both to be exalted to the degree of would have been almost. Here's hoping, however, the best man will carry the day.
