ON THE WING.

(Continued from last week.) Kansas City is on the boundary between Kansas state and Missouri, chiefly on the Missouri side of the Missouri river. It is one of the chief railway centres in America, and has a population of 300,000. The union station here is large and a very live spot and will comfortably accommodate a couple of thousand persons. Passenger trains are coming in and going out every hour day and night, all apparently heavily laden with precious freight.

The Presidential campaign is of course quite a familiar subject of conversation here, and some Republicans would not, they say, be surprised should Bryan gain the election. At 4.10 we leave by a Union Pacific accommodation train, which passes through a good tract of farming country with extensive fields of corn, mostly yet uncut, passing the city of Topeka, the capital of Kansas state, which has a population of 40,000, arriving at Manhattan at 8.15. Here we meet our friends, who of course gave us a royal welcome. This is a small but rapidly growing place. The State Agricultural College is located here which utilizes 580 acres, has 19 buildings where the Arts and sciences as well as all branches of agriculture are taught. 2,500 students are in attendance.

On Saturday we boarded a Rock Island train for Wichita, a distance of 143 miles. Here we met relatives whom we had not seen for over 30 years, being the widow, two sons and a daughter of William Rutledge, who died 34 years ago in Alpena, Mich. This meeting was certainly worth the whole trip. Wichita is a growing and prosperous town of 50,000 inhabitants and well equipped with churches, colleges, hospitals, schools, and civic public buildings, which speak volumes for the intelligence and good morals of its citizens as well as for their enterprise and public spirit. We spent Sunday and Monday, October 11 and 12, returning to Manhattan Monday p.m. Here a quiet day was spent and Wednesday the return trip was begun and practically the same ground covered as that going except that from Palmerston we took the Durham branch and from there came by the new C.P.R. line by Priceville and Sauguen Junction arriving home Friday evening, having spent the last day between Stratford and Markdale. This nine days' outing was one of the most enjoyable ever spent.

C. W. RUTLEDGE.

NEW REGISTRATION LAW.

Municipal clerks have received from the registrar-general of Ontario sets of blank forms prepared under the new law for registration of births, marriages and deaths and will supply the same to clergymen, physicians and others whose duty it is under the statute to make returns to the clerk. All the old forms remaining in the hands of professional men should be returned to the clerk for cancellation, as returns may only be made upon the new ones. The clerk's instructions on the latter point are mandatory and therefore inconvenience will be avoided if the new forms are at once secured. The intention is by provisions of the new act to secure fuller and more reliable information.

LOCAL OPTION.

Owen Sounders are making active preparations for the vote on the repeal of the Local Option by-law to be taken in January. The impression seems to prevail that as the law requires a three-fifths vote to repeal local option, the requirement is the same in the case of Owen Sound. This, however, is a mistake. It is only in municipalities where a three-fifths vote was necessary at the time the by-law was carried that the clause is applicable. As the Owen Sound by-law was carried by a majority vote, only a majority vote is required to repeal it.

A Harvest Home tea-meeting was given by the members of Temple Hill Presbyterian church on Wednesday of last week. Tea was served in the basement from tables daintily arranged and well laden with every good thing from 6 to 8, after which all enjoyed an excellent program in the body of the church. The Meaford Presbyterian choir rendered some fine selections while Mr. Clark, of Meaford, delighted the audience with a couple of humorous readings. Revs. Mr. Eastman of Meaford, Mr. Lemon, Walters Falls, and Mr. Wilkinson, of Rockyln, delivered short addresses and were listened to with much pleasure. Indeed the festival was a decided success marked only by a few young men in the back row who either cannot or will not appreciate the program so generously prepared by the church committee and are unkind enough to mar the pleasure of those who wish to do so. We are sorry to give strangers from our neighboring towns and
