

Flesherton Happenings

SUCCESSFUL OPERATION. Mrs. (Dr.) Fred Murray, of Toronto, who underwent an operation in the hospital last week for removal of a cyst, is recovering satisfactorily. GIVEN A FAREWELL. Mr. John English, who has sold his farm near Rock Mills to his son Alex, had a successful sale last week of his stock and implements. Mr. and Mrs. English leave this week to reside near their daughter, in Idaho. Mrs. Silas Phillips will accompany them to spend the winter with her brothers in Idaho. Mrs. Phillips was given a farewell supper one evening last week at the home of her son, Wilfred. HUNTING PARTIES. Two hunting parties leave here this week to spend the deer hunting season near Parry Sound. Those who leave early in the week for a few days' fishing first are Messrs. Geo. Mitchell, John Wright, Mark Wilson, Sam Pedlar, John McKee and P. Munshaw. They will be joined by Joe Hudson, of Brooklyn, and W. Hill and F. Maher, of Markdale. The second party will be editor Thurston, Geo. Stuart, Geo. Cairns, R. Genoe and W. Hammond and Jasper and Charlie Stuart, of Kimberley. HURLED FROM TRAIN. Mr. Mark Wilson had a narrow escape from death on shipping day last week. While on his way to the city with stock leaving Orangeville he was standing on the platform and the train, reaching a good speed, gave a sudden jerk, which hurled him off. Falling, he grasped the railing but was unable to save himself and sustained severe bruises to one arm, side and foot. He continued his journey to Toronto, but was very sore for several days. It was a close call and Mr. Wilson is thankful for having escaped so well. A PRETTY WEDDING. Johnson-Card-A pretty wedding took place at the home of Mr. and Mrs. Frank Chard, east of the village, on Wednesday evening of last week, when their daughter, Nellie, became the bride of Mr. George Johnson, jr., Toronto line. About forty guests witnessed the ceremony, which was performed by Rev. G. C. Little, B.A., pastor of Chalmers Church, this place. Miss Annie Johnson, sister of the groom, played the wedding march. The bride, who was given away by her father, was prettily gowned in blue silk with over lace trimmings. She was attended by her cousin, Miss May Blackburn, who wore a dark cloth skirt and blue silk waist trimmed with over lace. The groom's brother, Mr. Will Johnson, was best man. After the marriage which took place at 5 o'clock, a dainty wedding supper was served and the evening was spent in a very enjoyable social manner. The young couple, who are very highly respected, went the following day to their new home near Rock Mills and we join their numerous friends in best wishes for prosperity and happiness. The bride was the recipient of a large number of beautiful wedding presents. The groom's gift to the bride was a gold locket and chain; to the bridesmaid a locket chain and to the groomsmen a tie pin. NOTES. Mrs. W. H. Thurston is visiting friends in Toronto. Mr. Claude Eakin is laid up with an acute attack of rheumatism. Mr. Will Orr, of Toronto, was the guest of Dr. Murray last week. Mrs. W. A. Armstrong spent part of last week with friends in the city. Born-On Tuesday, the 20th inst. to Mr. and Mrs. Lee, of this place a son. Mr. John Runstadler is having a new coal furnace installed in his residence. Mr. and Mrs. Brown are visiting their son, John J., on the old homestead. Miss Florence Richardson returned last week from visiting friends in Toronto. Messrs. Elmo Blakely and Leslie Norris returned last week from a few weeks' sojourn in Manitoba. Mr. W. Moore has had his residence and shop covered anew with paroid roofing laid by Norris Bros.

HANDY HOUSEHOLD HINTS TWENTY-FIVE YEARS AGO

Use gasoline for greasy wood-work. Table salt will remove egg stains from silver. Place small bags of sulphur in cupboards infested with ants. When making apple jelly, put in a drop of oil of cinnamon. For tired and aching feet, rub the soles well with kerosene oil. White rimmings of cloth can be cleaned with salt and flour. Undressed kid gloves can be cleaned by rubbing with fine cornmeal. Renovate a sour sponge with lemon juice, and rinse in warm water. The alarm clock may be set to remind one of the time when baking. To lighten clothes, put one teaspoonful of powdered borax in the last rinsing water. Threads of raffia of the same color will effectually mend matting, if woven into the worn place. To settle coffee, break an egg into a jelly glass, fill it with granulated sugar, mix, then cover closely. Use one-half teaspoonful to a pot of coffee. Children will take much better care of furniture specially provided for them than of battered pieces that have descended to them through various stages of wear. If you find it difficult to open your fruit jars, just turn the upper end into boiling water for a few minutes, and you will find that your jar will open easily. Take the oil cup out of an old lamp and get a pan to fit the bowl of the lamp stand, place a flower pot with a fern or vine in it, and this makes a fine jardiner stand. To clean silver, mix sweet oil and whiting to a creamy mass, rub on the silver with a soft cloth, then wash in hot soap suds and polish with chamois skin or a piece of soft old linen. To clean tufted couch. Turn the couch on side, take a round stick—a broom handle will do—press gently underneath on the little tin that holds the button. This will raise the button on top. Brush with a whisk broom. Perspiring hands are an evidence of nervousness. It is good to bathe them often with white wine vinegar, afterwards dusting them with powder of orris root. Persons suffering with such annoyance should dust their gloves with powdered chalk. Work Aprons. Take old dark calico wrappers or dress skirts, cut an apron out of the best part of the skirt, put on a band and you will have it done in no time. They are fine for all kinds of work about the house, and come clean much easier than gingham aprons. To renovate your feather pillows fill a boiler half full of water, bring to a boil, place a leather pillow on as a cover, turning occasionally and steaming thoroughly. Hang in the wind to dry, beating and shaking as they dry. Your pillows will come out light and fluffy. To remove the disfiguring sediment which hard water is apt to leave upon china and earthenware pitchers, and other vessels in daily use, put into the vessel a good sized lump of salt and a cup of vinegar and let stand for half a day. Wash well with warm water and good soap. To keep rubber bottles clean, rinse thoroughly in cold water immediately after using, and drop in a covered glass containing a solution of boric acid. At least once a day turn wrong side out and wash with brush and soap, and occasionally drop in a kettle of boiling water and boil five minutes. To make honey jelly, take the parings of one-half peck of apples, wash well, and set to boil in four quarts of water and let boil two hours. Then strain through a cloth, after which you add a cup of sugar to each cup of juice. Boil one and a half hours. This makes the finest kind of jelly. A cure for cold feet. If you are suffering with cold feet take the leather insole out of your shoe and paste it on a piece of heavy elderdown. Cut the elderdown the same size as the insole, and paste back in the shoe, so that the woolly side is next to the foot, and you will have no more cold feet.

Hardware and Furniture

RANGES AND STOVES—We have a very large assortment to choose from, made by the best stove builders. A large stock of Coal and Wood heaters. Examine them when you are ready to buy. MAKING SURE OF HAPPINESS

Happiness depends, not on what we have, but on our attitude toward what we have. The people who are unhappy to-day are those who are not likely to be any happier to-morrow, after they have gotten what they wanted. It has been well said that "you will never have what you like until you learn to like what you have." Contentment and happiness do not matter of material possessions. All that is like the problem of living within an income which has not learned to live with in their present small income who think that an increase of income is all that is needed to keep out of debt, find that larger income means only larger opportunity for debt—and larger debt. So greater possessions of the discontented man, usually only greater discontentment. When we have resolved to transfer ourselves to like what we have, by dwelling on its bright side and rejoicing in it instead of thinking seriously about what we have, we can be content with our lot. We are in, instead of discontented, trying to break out into another state that would not be good for us, we shall begin to find a joy that will last. The watchword of the one who urged us all to "be content with what we have" is: "Be content with what we have." SHE WEARS LARGE BOOTS. Has to be accounted of corners that they can be cured in twenty-four hours with Putnam's Painless Corn Extractor. Use no other but Putnam's.

ITEMS OF GENERAL INTEREST TAKEN FROM THE STANDARD OF NOV. 1, 1883.

Mr. and Mrs. R. H. Byers left this week for Rochester. Born-Mabee, in Markdale, on the 19th ult., the wife of E. S. Mabee, of a son. Mr. W. P. Rundle and Miss Harris have been re-engaged as teachers of Dundalk school. At a meeting of the trustees last night, Mr. Norris was engaged as head teacher of Markdale school at a salary of \$350. John McDuffie returned last Tuesday from the Ontario and Quebec railway, where he was overseer of a gang during the past summer. Mr. O. W. Smith, we are informed, has purchased eight hundred acres of pine and cedar lands on the Indian Peninsula, where he intends to commence operations in a few days. At a meeting held in Horning's Mills it was decided to form a company to build a line of railway from Hornings Mills to connect with the Toronto, Grey and Bruce Railway at Melancthon or Shelburne. On Saturday last, Mr. James Anderson, of Glenelg, while working his team, one of them fell over and died instantly. This is a serious loss to Mr. Anderson, as he bought the horse about a year ago for \$70. Markdale Markets—Fall wheat, 70c; to \$1.95; spring, 70c; to \$1.95; Barley, 40c; to 60c.; Peas, 53c.; Oats, 30c.; Butter, 17c.; Eggs, 22c.; Potatoes, 40c.; Hay, \$7.00; Pork, \$5.00 to \$5.50; Flour, \$4.75 to \$5.00; Wool, 17c; to 20c. The addition to the Markdale House is about completed and will add to the convenience of the place. The lower portion will be used as kitchen and woodshed, while the upper storey is intended for bedrooms. Mr. J. Stinson, of the vicinity of Markdale, had a narrow escape when removing the scaffolding at McCullough's new hotel at Chatsworth. He fell from a considerable height, but did not receive any serious injury. FEEBLE OLD LADY. Has Strength Restored by Vinol. Mrs. Michael Bloom, of Lewis-town, Pa., who is 80 years of age, says: "For a long time I had been so feeble that I had to be wheeled around in an invalid's chair. I had no strength and took cold at slightest provocation, which invariably settled on my lungs and a cough would result. My son learned of the cod-liver preparation called Vinol, and procured a bottle for me. It built up my strength rapidly, and after taking three bottles I am able to do most of my work, and I can walk a quarter of a mile easily. Every aged or weak person who requires strength should try Vinol. I am delighted with what it has done for me." As a body builder and strength creator for old, people, delicate children, weak run-down persons, and after sickness, Vinol is unequalled. If it fails to give satisfaction we will return your money. W. Turner & Co., Markdale. Advertise in The Standard. WHY COLDS ARE DANGEROUS. Because you have contracted ordinary colds and recovered from them without treatment, of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh, have their origin in a common cold. Consumption is not caused by a cold, but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles, and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by R. L. Stephen.

WHAT CAUSES "NERVES"?

Most people say worry—they are wrong. The cause is in the blood, which is thin, and lacks nutriment. To cure "Nerves," more blood, sinew and flesh are required. You get these quickly by taking Ferrozone. No health bringer is so certain, no nerve strengthener so potent, no system-tonic so well adapted to the wants of the run-down, nervous or sleepless. Let Ferrozone build you up, let it fill you with vim, energy and surplus vigor. It has done this for thousands.

Fire broke out in the Richards soap works at Woodstock, but was promptly extinguished. W. J. Leamington, a C. P. R. strike breaker, at Winnipeg, was stabbed while returning from work. Nitro-glycerine was used to blow the sale of G. A. Rosser's store at Appin, and \$40 in cash was taken.
