

# PANDORA

## What a "Pandora" Hot-Water Attachment Means to Me

"BELOW—You see how I just turn on the tap and instantly get hot water for my dishes, washing, scrubbing, preserving, etc.

"ABOVE—you see how the pipes are connected to the bath and basin—no waiting for a bath—no carrying hot water upstairs."

"Pandora" Ranges can be supplied with a hot-water attachment if you haven't already got one, and the attachment does not either take extra fuel or interfere with baking.

# McClary's

London, Toronto, Montreal, Winnipeg, Vancouver, St. John, N.B., Hamilton, Calgary.

JEFFREY ARTLEY, Local Agent.

## Makes Broiling Easy

It is much more convenient to do your broiling by lifting this Key Plate, than to lift the cover or use the broiler door. You have more room and get the meat directly over the coals.

Notice the Low Warming Closet, a special feature of this year's "Peerless Peninsular" Ranges. Daylight Oven, Adjustable Damper, Removable Grate Bars, Thermometer in oven—are only a few of the conveniences you should ask about.

F. T. HILL & CO. - MARKDALE

## GOOD COUGH MEDICINE FOR CHILDREN

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by R. L. Stephen.

## DISCOVERED.

Beggar—Sir, I am starving. Croesus—Here, take this farthing and tell me how you became so miserably poor. Beggar—Ah, sir, it was like you; I was too fond of giving away large sums of money to the poor.

IF YOU EVER FIGURE THE COST of a single day's baking—the material, fuel, time and labor—and consider that it is all wasted if the baking is a failure?

Is it economy, then, to use a flour of uncertain quality when a few cents more will buy

# Royal Household Flour

—a flour that you can depend upon to produce light, crisp and wholesome bread or pastry?

It is made from selected hard wheat, milled by a most modern process which guarantees absolute purity.

Royal Household Flour does not vary in quality—does not disappoint.

Royal Flour Mills Co., Limited, Montreal.

## ELOPERS WERE CAUGHT.

### ABOUT THE FARM.

Sixty-two degrees is the best temperature to which milk can be set, but the surroundings must be perfect.

Within a range equal to the height of trees, the growth of most crops will be lessened. Beyond this limit, and for a distance seven times as great as the height of the screen, there will be a decided benefit to most crops, and especially to those liable to be injured by high winds.

The reason so many farmers fail to lift the mortgage from the farm is for want of a definite plan of action. All farmers who have removed such encumbrances are those who have raised some special crop for live stock, with the express idea of thus reducing the indebtedness. The ordinary proceeds of the farm were devoted to the living of the family and the payment of interest.

The largest profits are realized from dairy butter by the men who supply their butter to families each week, and at a fixed price for the season. This method is certainly the most satisfactory to consumers as well as to the dairymen. The consumer can depend on a regular supply of good butter of uniform quality. If they run short and find it necessary to buy a little store butter, the comparison only leads them to a better appreciation of fresh dairy butter. The dairyman has regular sale for a given amount of butter, and can determine when to add new customers or dismiss some. He pays no grocer for handling his product, and can command a uniform price for a good article.

## OFFICIAL PROGRAMME.

Of Ontario Provincial Winter Fair, December 7 to 11, 1906.

Lectures are arranged for the patrons of the Winter Fair of 1906 to make a special feature of the cause, prevention and treatment of common ailments of horses, cattle, and sheep. It has been considered by the executive of the Winter Fair that a series of lectures on this subject would be of great interest to live stock raisers. For a number of years there have been addresses delivered at the Winter Fair dealing with the breeding of live stock, proper type, feeding for profit, markets and how to supply them, etc. This year it was decided that considerable time could profitably be spent in a discussion of the ailments which are most frequently the cause of loss to owners of live stock, taking up not only their treatment, but also preventive measures, and, so as to assist in a better understanding of the disease, the causes most likely to produce the disease, will be explained. The speakers will be veterinarians of prominence and other well known men who have had practical experience in raising the different kinds of live stock.

Another subject in which there is great interest at the present time is the pasteurization of whey. The discussion of its effect on the quality of the cheese will interest all cheese factory patrons. Associated with this subject and immediately following it will be given an address on the feeding value of pasteurized whey.

The lectures in the poultry department include an address illustrated with stereopticon views, and a demonstration showing proper trussing. In the Seed Department special attention is being given to Allala growing in Ontario which will be discussed from the standpoint of both the grower and the seedman. Afterwards an address on the identification of weeds, will be given with stereopticon views illustrating the weed plants and seeds in their natural colors.

In connection with the sheep subjects a very interesting and practical address is anticipated from Mr. T. D. Wardlaw, of Toronto, an expert on Wools.

Lectures will commence at 9.30 a.m. on Wednesday and will continue until Thursday night. Judging of live stock will commence at 2 p.m. on Tuesday and will continue until finished.

Round trip tickets will be sold to Guelph from December 5 to December 10 good to return up to December 15. Complete programs may be procured by application to the Secretary, A. P. Westervelt, Parliament Buildings, Toronto.

## ARE YOU A DYSPEPTIC?

Nine people out of ten suffer from dyspepsia and don't know it. Half the pale cheeks, poor appetite and sleepless nights are the direct result of dyspepsia. The cause lies in failure of the stomach and the kidneys are clogged, and unable to do their work. Nothing puts vigor into these organs so fast as Dr. Hamilton's Pills. They tone up the whole digestive system, regulate and strengthen the stomach, absolutely cure dyspepsia. Simple to take and sure to cure—better try Dr. Hamilton's Pills.

It requires a man of more than ordinary courage to elope with another man's wife, especially when the latter is accompanied by two children, one aged seven and the other four years. But the necessary man showed up in Owen Sound this week. His name is Thomas Radcliffe, an Englishman who has been in this country about a couple of years. Radcliffe had been a boarder in the house of Mr. Joseph Barlow on Hill street, and on Tuesday Radcliffe, Mrs. Barlow, who is a woman about 35 years of age, and the two children left this town with the intention of travelling all the way to England. They had purchased tickets for the ocean voyage, and had all gone well they would now have been on board the Empress of Ireland on their way to the Old Country. The tickets were taken out in the names of Harry Henshaw and Jennie Henshaw and were both for the same berth. The sum of \$86 was expended on the passage money. But as the sequel will show, things went far from well with the eloping expedition. They were lucky in not being stopped before they got the length of the station for they had the misfortune to meet Mr. Barlow on the way. That individual, however, never for a moment suspected the true state of affairs. He imagined that his wife was simply going to see Radcliffe off at the station, as Radcliffe had previously stated that it was his intention to leave the town. When Barlow reached his home some time later he quickly changed his views on the subject. He discovered that a couple of trunks and a number of his personal belongings had disappeared, and that there were no signs of his wife and family. He immediately went to the police station and informed Chief McAuley, who at once telephoned to have the train searched for the missing parties at Toronto. The result of this communication was that at Parkdale station Radcliffe and Mrs. Barlow and the children were detained by detectives. Constable Anthony Shute was sent down to bring the wanderers back, which he duly did and they appeared before Magistrate Croesus in the police court this morning. Radcliffe, who is anything but a beauty, was charged with abducting the children, while Mrs. Barlow was accused of having stolen some of her husband's personal belongings. Mr. A. G. MacKay acted on behalf of Mrs. Barlow and a strong effort was made by both he and the magistrate to entice Mrs. Barlow to go back and live with her husband. Mrs. Barlow replied that she would rather die than do that, and she withstood all endeavors to come to any amicable arrangement with Mr. Barlow. She stated that she could not live with him any longer as it was impossible for them to agree. Mrs. Barlow is a somewhat attractive looking woman and presented a very neat and respectable appearance. She was handed over to the care of Mrs. Francis, who looks after female prisoners, and will remain in Mrs. Francis' house till to-morrow when she will again appear in court. Radcliffe stated that he had not abducted the children nor had he eloped with Mrs. Barlow. He had simply acted in a friendly manner and was conveying her over to England because she had told him that she could live no longer with her husband. He had paid the passage money. Radcliffe was also remanded until to-morrow, and he offered \$200 bail but the prosecutor stated that he would not agree to allowing him out on bail. Mr. Barlow was in court and seemed very much affected. He kissed his two children, a boy and a girl, affectionately, and it was apparent from the manner in which they returned the caress that they loved him.—Times.

## W. J. Shortall's New Optical

Designed for the special purpose and fitted with every modern convenience for successful Eye Testing and Optical Fitting.

The experience of the past ten years has proved that the best in every thing is none too good for successful refractive work which I have now installed, I have converted a portion of my premises into a private consulting office where you can have your eyes tested for less money than elsewhere.

DURHAM (From The Chronicle.)

On the property of Mr. Henry Storey are a number of blueberry bushes now budding out for the second time this season. In the second time this season, I believe, we are told, are again in bloom in the country.

Mrs. Christopher Williams Glenelg, gave us a short call Monday, though getting quite old in years, she is still smart, physically and mentally, and might also add spiritually. She has been fifty-eight years in this locality.

Dr. F. W. Merchant, of Toronto, Chief Inspector of Schools for Ontario, was in town on Tuesday and gave The Chronicle a call.

Repeat it—"Shiloh's Cure will always cure my coughs and colds."

A MEMOIR. He—Do you remember the night I proposed to you? She—Yes, dear. He—We sat for one hour and you never opened your mouth. She—Yes, I remember, dear. He—Ah, that was the happiest hour of my life.

The old-fashioned way of dosing a weak stomach, or stimulating the heart or kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult, says Dr. Shoop, to strengthen a weak stomach, heart or kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these nerves fall, then these organs must surely falter. These vital truths are leading druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Test it a few days, and see! Improvement will promptly and surely follow. Sold by W. Turner & Co.
