

If your baking goes wrong, investigate - find the cause. Look to your stove, your yeast, your baking methods.

If you succeed in pinning the trouble down to the flour - then take up the flour question in dead earnest.

Consider that flour, to be successful from a baking standpoint, must be fine to produce light bread or pastry, pure to make that bread or pastry wholesome, and rich in nutriment to make it nourishing.

Ogilvie's Royal Household

has these three qualities in the greatest degree:

Ogilvie's Royal Household is milled by the most modern methods, and made only from Manitoba Hard Wheat which contains the highest percentage of nutriment.

Royal Household Flour never disappoints.

Ogilvie Flour Mills Co., Limited, Montreal.

Makes Broiling Easy

It is much more convenient to do your broiling by lifting this Key Plate, than to lift the cover or use the broiler door.

You have more room and get the meat directly over the coals.

Notice the Low Warming Closet, a special feature of this year's "Peerless Peninsular" Ranges.

Daylight Oven, Adjustable Damper, Removable Grate Bars, Thermometer in oven - are only a few of the conveniences you should ask about.

Step in at any time and go over the "Peerless Peninsular" Ranges. Glad to explain their improvements to you.

W. C. T. U. COLUMN.

A SCHOLARLY BEGGAR. A few months ago (writes a temperance advocate) the headmaster of one of the largest schools in London asked me about a case in which he was deeply interested.

A certain boy had been brought up in his school. He had been head boy, the most brilliant scholar of his time, and had carried off every prize and distinction within his reach.
