**DRINK AND SUICIDE.**

Robert McCorkell, a married man, aged 34, who had been indulging freely in strong drink, hanged himself at Ottawa in a freight car in the railway yards on the night of Sunday, July 11.

(potato whiskey), some twenty-five barrels, passed through the village and was ambushed by the natives. They killed the officials and drivers, took the horses, burned up the cars, and then set to work drinking up the Imperial liquor, which is about the vilest concoction in the world.

As stated, 180 perished while drunk, in a snowstorm, but the rest of the villagers continued their carousal, all drinking to their full capacity day in and day out. As a consequence, the natives are either insane with drink or on the verge of delirium.

A failing tiny nerve—no larger than the finest silken thread—takes from the heart its impulse, its power, its regularity. The Stomach also has its hidden, or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing stomach, heart or kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments—these weak and faltering inside nerves. This, no doubt clearly explains why the Restorative has so late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonderful merit. Any way, don't drug the organ. Trusting the cause of sickness is the only sensible and successful way. Sold by W. Turner & Co.

**AWFUL RESULTS FROM THE DRINKING OF GOVERNMENT OWNERSHIP LIQUOR.**

All over the world where so-called Christian civilization prevails the liquor traffic gets in its deadly work. One of the latest sad reports is from Siberia, which is under Russian government, and all liquor selling is carried on by the government. An exchange gives us the following report of recent occurrences:

A dispatch from Irkutsk tells of the finding of 180 bodies of men, women and children in a Siberian village. The 180 people froze to death, while in a state of beastly intoxication during a blizzard two months ago, and communication with the village has only now been resumed.

The bodies were found in the streets, in ditches, in deserted homes, in barns, everywhere—the natives, about a thousand, either exhibiting the utmost indifference or defying the authorities. An investigation showed that most of the natives were suffering from delirium tremens, while the rest, men, women and children, are confirmed and habitual drunkards.

It appears that some two months ago a convoy of government vodka

The government investigators, in the course of their routine duties, say they encountered unheard-of conditions, even for Russia. Business was entirely at a standstill. There had been no spring plowing or seeding, the live stock roamed at large or had been eaten. Those natives that were not fighting were lying about in a stupor, boys and girls of the age of from five to six years drank vodka like water, and the smell of vodka was on the very breath of the babies.

The governor of the province sent physicians and nurses to the village, but they reported back that it was necessary to make the whole population prisoners and cart them off to hospitals for treatment. The St. Petersburg government has been asked to furnish the funds on the ground that the village, in former years, used to buy a hundred thousand roubles' worth of vodka per annum.

Some of the liquor taken from the convoy was ninety per cent alcohol. This was drunk up with the rest by the population. To make it more palatable, the Siberian peasants added some red pepper.

Miss Olive Cook had her Sunday School class of boys out to Durham some days ago and had their photo taken. Twelve boys were present with their bright teacher. May is about half a crop, but Mr. M. J. Davis isn't losing any by bad cutting, as he has purchased a new Deering mower.

Mrs. Grant, of Toronto, took advantage of the Grey Old Boys' excursion to visit the old Anderson home.

Miss Burgman returned to her home in Milverton on Friday, after spending a delightful week with Flo Hunt.

A white elder bush in full bloom is about as handsome a shrub as may be seen in all Canada. They were in loveliest dress all last week. The trustees of S. S. No. 5 are putting in upwards of sixty dollars worth of new single desks this vacation.

**DO YOU SLEEPLESS, NERVOUS?**

Two horrors, crowded into one—the product of poor digestion and a poisoned system. There is just one cure for this terrible condition—plenty of food, but mind on food properly digested; that's the difficulty, to improve the digestive power of the stomach. Get rich nutritious blood, strengthen the system and drive out poisons—then comes vitality, endurance, power. Ferruzone does all this and more, it makes sick people well, weak people strong, changes nerves and insomnia into robust health. Take Ferruzone and health is yours. Soc. at all dealers.
