

### The Most Popular Paper In Ontario The Toronto Daily Star

The best proof that people like a newspaper is their willingness to pay good money for it. More people buy the "Toronto Daily Star" than any other Daily, Weekly or Monthly published in the Province of Ontario.

Moreover, the circulation of the "Toronto Daily Star" is increasing more rapidly than that of any other newspaper in Canada.

These things do not just happen. There must be a reason.

In this case there are several reasons. The "Toronto Daily Star" publishes Market Reports 12 to 18 hours earlier than the morning papers. It is a newspaper—not an "Organ"—political or any other kind.

Not only the Woman's Page, but the whole paper, is attractive to women. It reports athletic events more fully than any other Canadian Daily.

Its special features, such as the "Chronicles of the Khan", are most entertaining.

Consequently people like the "Toronto Daily Star" better than any other newspaper.

### How to Tell Fortunes By Tea-Leaves.

The person who can tell fortunes by cards, palmistry or tea leaves is sure to be a popular individual, proving as they do an endless source of entertainment. For though we put not an atom of confidence in what we are told, yet there is a certain fascination about the subject in which we must all acknowledge an interest.

First, the one whose fortune is to be told should drink a little of the tea while it is hot, and then turn out the rest, being careful not to turn out the grounds in doing so, and also not to look at them, as it is bad luck.

Then she must turn the cup over, that no water remains, for drops of water in the tea grounds signify tears.

Next, she must turn the cup around, slowly, towards her, three times, wishing as she turns it.

After this she must rest it a minute against the edge of a saucer—to count luck.

Then the fortune-teller takes it and reads the fortune. Three small dots in a row stand for the wish. If near the top it will soon be realized, if at the bottom, some time will elapse.

If the grounds are bunched together it signifies that all will be well with the fortune-seeker, but if they are scattered it means much the reverse.

A small speck near the top means a letter. A large speck a photograph or present of some kind, what it is, depending on the shape of the speck.

The sticks are people—light or dark, short or tall, according to their color and length. A small one means a child. A thick one a woman.

If they lie crosswise they are enemies. If straight up, intimate friends, or pleasant acquaintances to be made.

If a large speck is near them, it means they are coming for a visit, bringing a valise or trunk.

If there is a bottle shape near a stick it means a physician. If a book shape, a minister or lawyer. If many fine specks, a married man.

The stick with a bunch of grounds on their backs are bearers of bad news, or they will "say things" about you.

A long line of grounds with no opening between foretells a journey by water. If openings, by rail.

A large ring, closed, means an offer of marriage to an unmarried woman. To a married one, it means a fortunate undertaking. To a man, a success in business.

A small ring is an invitation. Dust-like grounds bunched together at the bottom or side is a sum of money.

A triangle signifies good luck, so does an anchor or horseshoe.

A half-moon or star to a married people, means a paying investment. To unmarried, a new admirer or sweetheart.

A pyramid is extremely lucky. A square or oblong, new lands.

Flowers, a present, what it is, depends on the shape, or the present may be flowers.

Leaves, sickness and death. Fruit of any kind, health.

William Sutherland of near Woodstock took his life by cutting his throat with a razor.

Edward Parker, a G.T.R. brakeman, was killed while shunting cars at Guelph.

### SHOOTING PAINS IN SIDE, ARMS AND BACK

Proves the Presence of Rheumatic Virus, Which is Cured Quickest by Nerviline—Rub It In.

Pains in the muscles, in the sides, the back, the neck or the chest—they always carry with them great discomfort. If the inflammation is severe the pain will be intense. If allowed to continue they are dangerous. Nothing so quickly cures local inflammation and drives away pain as Nerviline. Nerviline does this because it penetrates so deeply. Nerviline is not only powerful, but soothing. By relieving congestion it cures pain. It does this always. It cannot fail because it is a true antidote for pain. You can scarcely find anybody that will not tell you wonderful things about the pain-curing power of Nerviline. Remember, that there is not an ache or pain that Nerviline will not cure immediately. Nerviline is an anchor of health in every household.

Refuse anything that may be offered you instead of Nerviline, which is guaranteed for rheumatism, neuralgia, sciatica, lumbago, and all muscular aches and pains. Large 25c. bottles or five for \$1 at all dealers, or the Cattarhazone Company, Kingston, Ont.

### KIMBERLEY HAPPENINGS

The corn harvest is now on. Typical autumn weather these days.

Mr. John Braniff is finishing up the grain threshing this week. McMaster Bros. did some clever threshing here during the past week.

Mr. J. J. Martin had some 75 bushels of Mammoth clover off 12 acres. Who can beat this?

Miss Wreta Knott, of Thornbury, visited friends here during the past week and was the guest of her sister, Mrs. R. J. Stuart.

Mr. Thos. Camack has purchased for his daughters, the Misses Camack, a handsome New Williams piano.

Mr. Chas. E. Stuart has gone to Hamilton, where he will attend Normal school.

A Government engineer will be here this week to make estimates as regards the probable cost of straightening and lowering the Beaver river for drainage purposes between here and Heathcote.

Miss Mamie Fawcett, of Parry Sound, visited friends here this week.

Mr. George Hutchinson and daughter, Miss Rachael, visited Dundalk friends on Saturday and Sunday last.

The pulpit in the Methodist church on Sunday night last was ably filled by the Rev. Mr. Lawrence, of Heathcote, who delivered an excellent sermon, taking for his text the 33rd verse of the 6th chap. of Matthew.

### Turpentine Distillery.

A turpentine distillery is in full operation in Collingwood and there is scarcely a word for or against it. Considering that the proprietor saw a waste going on in burning the pine stumps in eastern Nottawasaga, from which could be extracted tons of the pure stuff, he is certainly to be commended. Although his buildings are small compared with the other factories of the town, his output is twenty-five gallons per day and the profits are \$1.00 per gallon. At any rate, thousands have gone to waste in old Nottawasaga—Meaford Mirror.

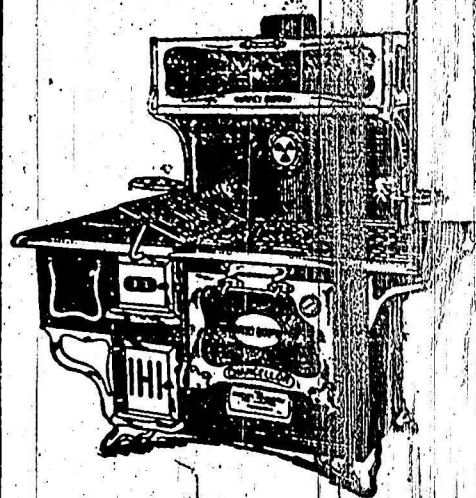

The average person does not know that each week the editor gets more material through the mail from different sources than could possibly be inserted in the paper even if local news was entirely left out. These epistles, some long and some short, come from magazines and other periodicals wanting reviews, from government departments, from societies of various kinds, departmental stores, railways running Old Boys' and other excursions, circuses, politicians, and a variety of other sources. Very few of these ever see daylight, and the reason is not hard to find. The space in the newspaper is the same to the publisher as the goods on the shelves is to the merchant, and it costs something to produce every inch of it. A person has as much right to expect advertising matter inserted free as to take something off the shelves of a store and say nothing about it. In this respect the average newspaper is the biggest dispenser of charity in any community; but the average person never sees it.
