

SUNLIGHT SOAP

The finest fabric is not too delicate to be safely washed with Sunlight Soap.

When all else failed, the Doctors said, "try Fruit-a-tives"

THE LAST RESORT

When all else failed, the Doctors said, "try Fruit-a-tives"

"Fruit-a-tives" cured Mrs. Cadieux

PLANTAGENET, ONT., JANUARY 31st, 1910.

March 1st 1910, I was taken deathly sick with Stomach Trouble, I failed from 125 pounds down to 89 pounds, and was unable to eat or keep anything on my stomach for weeks, I expected to die, and took many remedies from physicians. The doctors said they could do nothing, one of the doctors told me "to try Fruit-a-tives—if nothing would."

My husband bought "Fruit-a-tives" from Mr. Arthur Kolan, merchant of Plantagenet, and I started taking them at once, and inside of ten days, I was able to leave my bed. My stomach got strong and I could eat and retain my food. I gained rapidly, and soon had my usual good health back again, and today I weigh as much as ever, 125 pounds.

MDE. LAURENT CADIEUX.

Even the doctors are recommending "Fruit-a-tives". They realize now that these wonderful fruit juice tablets will positively cure all Stomach Troubles, Indigestion and Dyspepsia—and they are using "Fruit-a-tives" in their practice.

Many people realize the vital importance of keeping their blood pure. Impure blood is the chief cause of Stomach Trouble, because it is from the stomach that the fluid which digests food, when the blood is impure, the dissolving fluid (or Gastric Juice) will be impure. Impurities may come from a congested liver, from Constipation, from weak or inactive skin, or from all four. Naturally, the ordinary purgatives and "stomach tablets" will not cure the trouble, because they do not touch the cause of the trouble. "Fruit-a-tives" is the greatest remedy ever discovered for all forms of Stomach Trouble, Indigestion, and Dyspepsia, because "Fruit-a-tives" acts directly on the liver, regulates the kidneys, stimulates the skin, and thus rids the whole system of all impurities. "Fruit-a-tives" will positively cure you of any kind of Stomach Trouble. "Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50 or more. If you are unable to obtain "Fruit-a-tives" conveniently do not hesitate to write to Wm. G. Baker, Ltd., Toronto, Ontario, and the regular packages will be mailed you, postpaid, on receipt of price.

Mrs. LAURENT CADIEUX.

PARISIAN SAGE

For thinning hair, the remedy known to mankind is Parisan Sage. It is compounded of scientific principles and furnishes the hair root a nourishment which acts quickly and promptly causes the hair to grow.

But remember this: It kills the dandruff germ, the pest that appropriates all the natural nourishment that should go to the root.

Parisan Sage is sold by Wm. G. Baker & Co. under a positive guarantee to banish dandruff, stop hair loss and itching, scalp disease, and gives to women's hair a luster and radiance that is most fascinating and causes it to grow abundantly.

Father! Mother!

A business education is the greatest gift you can leave your children.

WEINS CURED

WITHOUT WRITTEN CONSENT.

Home for Weeks.

Straining and evil habits in youth brought on a weak and feeble mind, the action would become a habit for a week at a time. My situation was truly horrible. I decided to try these pills, and when I had taken them I was able to look upon all doctors as little better than impostors. I was of work to such an extent that I was unable to do any work. I decided to consult Mrs. Kennedy. My treatment from them helped and did not disappoint. I wrote them and got The New Method. My progress was somewhat slow and dull, but I was somewhat discouraged. However, for three months longer and was remarkably cured. I could only earn \$12 a week in a machine. Now I am earning \$24 and never lose a day of your valuable treatment.

HENRY C. LOCUST.

Y & KENNEDY

71 Griswold St., Detroit, Mich.

Letters from Canada must be addressed to our Canadian Correspondence Department in Windsor, Ont. If you desire to see us in person, please write to the Institute in Detroit as we see and treat only those who are for correspondence and only. Address all letters as follows: Y & KENNEDY, Windsor, Ont.

OF INTEREST TO FARMERS

INCREASING THE CLOVER CROP.

Every farmer knows that if he plows up a clover meadow he increases the fertility of that field. One of the reasons for this is that the clover contains a large store of the valuable fertilizing element, nitrogen, and as the clover plants decay in the soil this nitrogen becomes available for the use of the succeeding crop. The question naturally arises, why is it that the clovers add more nitrogen to the soil than other crops. The farmer may have noticed as he turned especially on the finer rootlets, little whitish nodules or bunches. If he had cut one of these little nodules in two with a sharp knife he would have seen that the inside was pinkish white, and if he had a powerful microscope at hand he would find on examining this pinkish white substance that it was largely a mass of very tiny rods, some straight, some curved, and some T or Y shaped. These rods are bacteria. These bacteria get into the fine roots when the seed germinates, grow and multiply there—the clover plants grow, and as they grow they draw upon the nitrogen of the air in the soil and store this nitrogen up in the clover plant. Hence the clover plant by the aid of these bacteria is able to grow, and to stir up more nitrogen than it needs and which it can supply to succeeding crops. Without the bacteria, the clover plant must get all its nitrogen from the soil instead of getting much of it from the air, and hence when the clover is plowed under there is no actual increase in the fertility of the soil. In fact, clovers make the best growth when there are plenty of bacteria present in the soil, as shown by the presence of lots of nodules on the plant roots. This is explained briefly in Hullebens Nos. 164 and 159 of the Ontario Department of Agriculture, Toronto, which may be obtained by addressing that department.

the coming spring for the inoculation of the following seeds: Alfalfa, red or mammoth clover, alsike clover, white clover, crimson clover, vetches, peas, beans, sweet peas. Each kind of seed requires a different culture. The cultures are sent by mail with full instructions for their use. There is only one size package prepared, that being sufficient to inoculate sixty pounds of seed. There is a nominal charge of 75 cents for each package of culture to cover cost of preparation and postage. Farmers intending to secure these bacterial cultures would do well to send in their application early so that they may be sure of getting the culture in ample time for seeding. Applications should state the kind and amount of seed to be treated, and should be addressed with enclosed postal note, stamps, or money order to Professor S. F. Edwards, Ontario Agricultural College, Guelph, Canada.

BREACH OF PROMISE CASE

The Gentleman Sues the Lady in This Instance.

A writ has been issued at the instance of Frank C. Ellis, of Toronto, against Agnes G. Bayne, now said to be in Winnipeg, claiming \$2,000 damages for alleged breach of promise of marriage. Mr. Ellis says that up till a month ago he expected to become the husband of the lady, and that she was writing him affectionate letters expressing her indifference to wealth, and her happy-looking forward to union with him. Then he learned that she had become the wife of someone else. He claims to have spent considerable money in preparation for the wedding.

HARKAWAY

(Last week.)

Mr. and Mrs. G. E. Kinney visited with friends at Victoria recently.

We regret to have to report the death of Mr. and Mrs. C. Wise's child from scarlet fever. The remains were laid away in the family plot here on Saturday. The family have the sympathy of the community in their affliction.

Messrs. Johnston and Murray are purchasing a car of horses for the West. They purpose shipping about 10th March.

Messrs. R. and W. Turner, of Sydney, were the guests of their uncle, Mr. J. A. Halbert, over Sunday.

Miss Bessie Carlert, of Toronto, is spending a brief holiday at the parental home here.

In the absence of the pastor, Mr. P. Lyons ably officiated at this appointment on Sunday.

A number from this locality attended the sales of Messrs. Lemon, Carney and Clarke last week. There were not many bargains to be had.

An event of more than usual interest was consummated at the home of Mr. and Mrs. R. Lyons on Wednesday evening, when Mr. Lyons' two sisters, Misses Marguerite Alvina and Edith May, were united in matrimony to Messrs. Sanford and Charles Thompson, sons of Mrs. J. Thompson, of Euphrasia. Promptly at the hour of six o'clock,

while the strains of the wedding flowers, Dr. and Mrs. S. Thompson, played by Miss Ellie Steer, son lead for Strongly, d. Sask. loaded sweetly through the room, about 10th March, when they will the young couples took their places, make their fifth home. Mr. and under an arch of evergreens, when Mrs. C. Thompson will reside in the Rev. Mr. Walker, pastor of the near vicinity.

brides, tied the mystic knot which made each happy couple one. The young brides looked handsome, dressed in white silk. After congratulations the guests, to the number of eighty, repaired to the dining room, where a dainty repast was partaken of the dining room aids have in restoring the system being prettily decorated with streamers, wedding bells and R. L. Stephen.

Presentation.

A number of the friends, and neighbors spent a very enjoyable evening at the home of Mr. Spurling, Wauchly, last Thursday, March 4th.

Mr. Spurling leaves shortly for his home in the west, and his many friends bade him farewell with deep regret. A short impromptu programme was given; followed by the reading of the presentation, when Mr. Spurling was presented with a purse. The address read as follows: "Dear Friends—We, your friends and neighbors, hearing that you are soon to depart from our midst; have met here this evening to express our appreciation of the many benefits derived from your sojourn with us during the past years. As a neighbor you have been all that could be desired. Your ready willingness to help and oblige, have won for you the esteem and goodwill of those with whom you came in contact. Your removal from the neighborhood will be sincerely regretted, and on this occasion the old adage is very true, 'What is our loss, will be another's gain.' As a member of the Church, you have always been earnest and zealous, taking an active part in the church and Sunday School. We feel sure that your example and moral influence will bear fruit in the years to come. In the new and growing west, where your home for the future will be, there will be ample opportunity for work of this nature, and we believe that you and your family will prove a help and blessing to the community in which you settle. As a slight symbol of the esteem in which you and your family are held, we ask you to accept this purse. We wish to recognize in some material way the many services you have rendered us. And now, as you go to your new home, the kindly regard and best wishes of your many friends will follow you, and that every success may attend you is the united wish of all.

Signed—

Wm. G. Baker
John Ellison, jr.
