Reaching the People

A prominent real estate dealer in Toronto says that he gets better and quicker results from the Classified Want Ads. than from any other kind of publicity. He states that the results are out of proportion to the small expense involved. There is a moral in that for you if you want to reach the people.

KIMBERLEY HAPPENINGS

The farmers are all busy seeding. The fall wheat crop is looking well. Talk about large goose eggs! Mrs. M. R. Hammond is the owner of a goose that recently laid an egg the dimensions of which were 9 1/3 inches in circumference the small way, and 1 1/2 the long way.

Mr. and Mrs. Geo. Stuart and family, of Elk Lake, visited friends here during the past week.

On Saturday last, April 9th, Mrs. J. R. Fawcett made a rhubarb pie out of rhubarb grown in their garden this spring. Remember this wasn't grown under glass. The football club have recently had their grounds fixed up and it is now in first class condition.

A movement is on foot to get a supply of good water into our village. A joint stock company will be formed to bring a supply from a never-failing spring situated some 200 rods immediately east of the village. The spring is some 300 feet higher than the village. The water is of excellent quality and the stream is not influenced by freshet or drought.

Mr. and Mrs. Wm. Sloan visited friends at Flesheron on Saturday and Sunday last.

Mr. Walter Elliott, of Markdale, was a visitor at Mr. Neil Boyle's on Sunday last.

While on her way to school on Monday morning of this week, little Miss Irene Walter, youngest daughter of Mr. and Mrs. William Walter, accidentally fell on an ink bottle which she was carrying, cutting a nasty gash across one of her wrists, severing some of the blood veins. We are pleased to report, however, that the injured member is now doing nicely.

Messrs. Hartley Fawcett and Roy Fawcett, of Heathcote, visited friends here on Monday night of this week.

We are pleased to report that Mr. Simon Fawcett, youngest son of Mr. and Mrs. J. R. Fawcett, who is now a resident of Collingwood, and employed with the Shipbuilding Co., of that town, has recently been promoted to a more responsible position. Simon is certainly climbing the ladder.

GORING

The farmers in this vicinity are busy seeding. Mr. Bruce Trickey, of Rocklyn, has been engaged with Mr. Will Muskow.

Mr. Ross Hawken is engaged with Mr. Jos. Manarey.

A large number attended the religious meetings held at the home of Mrs. Johnston last week.

Miss Mabel Coventry visited at the home of her aunt, Mrs. Angus McInnis, over Sunday.

We learn that Mr. Frank Kirkpatrick and Mr. Herb Patton have entered the ranks of the benedictines. We extend to them our congratulations.

RIVERDALE

Chilly winds. Miss A. Bosles, town, visited friends in this vicinity last week.

Assessor Oughton, of Rocklyn, made his annual visit to our burg on Tuesday.

Nurse Walker, of Edmonton, Alberta, is visiting the parental home this week.

Our genial Woodhouse corner, Mr. Alvin Fawcett, was a pleasant caller at Riverdale Centre last week.

Miss Euphemia Stephenson pleasantly entertained a number of the young people to a dainty little tiffin "at home" on Wednesday evening. It was the sweetest event of the season, and we feel assured everyone present enjoyed it immensely.

The cold snap last week gave some of our warm weather prophets quite a surprise. We hope that its severity has not injured germinating grain and fruit blossoms.

Is skunk raising a lucrative business? We are not in a position to express our sentiments on this question, but judging by the staggering odor in this vicinity occasionally, we feel assured some of our prominent citizens must be experimenting in that line.

A very pathetic little tragedy occurred in this vicinity recently. The fond fair hopes of a popular young man from the East being regretfully flighted by calling at the wrong house while endeavoring to locate the object of his affection. Cheer up Al, there's a good time coming.

Having recently installed several jewelry necessities we desire to inform the public that we are now in a position to execute first class watch cleaning, pluck and sewing machine repairing and cleaning at an exceptionally moderate figure.
