

Spring Tonic for Run Down People

Are you feeling tired, weary, miserable and run down? Is it hard for you to get up in the morning feeling rested and refreshed? The winter months have tried you sorely and robbed you of more vitality than your system has been able to replenish. Your blood is sluggish and must be purified and revived. You are in need of **PSYCHINE**, the Greatest of all Spring Tonics, and Blood Purifier. It clears the system of all traces of winter colds. Banishes that tired, weary feeling. Restores your appetite and brings youthfulness, vigor and health to you again. Take **PSYCHINE** to-day. For sale by all druggists and dealers. 50c. and \$1.

Dr. T. A. SLOCUM, Limited
TORONTO.

PSYCHINE GREATEST OF ALL TONICS

Ontario is certainly going to play very prominent part in the future of the Milling Industry in Canada. According to leading milling interests, it is only a matter of time when all the largest mills in the country will be situated at different points about the lakes that surround the Province, mainly because such sites seem to have some advantage over any others that may be selected in any other part of the country. It may be that for the small local market that surrounds a mill there may be other points just as attractive, but when it comes to building a great big mill that must look to the export as well as to the home market, in order to be able to dispose of its large output, officials of different companies are practically agreed that these Ontario points are the most advantageous of all.

And so it is that we find that the new big Ontario milling concern which will be known as the Maple Leaf Milling Co., Limited, and will absorb the Maple Leaf Flour Mills Co., Ltd. and with it the Hedley Shaw Milling Co., has already under way the construction of a 6,000-barrel mill, a million bushel elevator, and storage warehouses out on the new piers that have been constructed at Port Colborne. Naturally it takes a pile of money to carry through such big undertakings, and the men who are at the head of the new company, including Mr. C. A. Mulock of Toronto, Mr. H. H. Shaw, founder and head of the Hedley Shaw Milling Co., and Mr. D. C. Cameron, the Western lumberman who organized the Maple Leaf Flour Mills Co., Ltd., have supplied \$7,000,000 of additional cash capital, which besides permitting the completion of the new plant already under way at Port Colborne, and the construction of some 15 new elevators throughout the West, will provide the new company with further working capital to go right ahead and get its full share of the large business that is offering, not only throughout Canada, but more especially in Great Britain and various foreign markets.

Just what the elevator capacity of Canada is going to be a few years hence, it is almost impossible to say, but some idea of how it is going to increase may be gathered from the remark of Mr. Wm. White, the Vice-President of the Can. Pacific Ry., to the effect that while the western country was now producing at the rate of about 15,000,000 bushels of wheat, that by the end of 1915 it will have increased to over five hundred million bushels, and that it would not be very long after that before Canada is producing even more wheat than all of the United States. When it is remembered that last year our neighbors to the South produced somewhat over seven hundred million bushels, it will be seen that the mills of Canada will have all they can do to cope with the Western crop.

As Robert Meighen, of the Lake of the Woods, sometimes says, "Up to the present time the amount of the available lands under cultivation does not exceed the amount of land that has been used since the

Incidentally, Toronto will benefit by the organization of the new big Milling Company, as it will have its head office in that city, while all its mills, with one exception, are situated within the Province of Ontario, in addition to the Port Colborne mill, the locations being at St. Catharines, Thorold, Welland and Kenora. The only mill at present outside the province is the one at Brandon, Manitoba.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by R. L. Stephen.

Rellan Carmichael, Collingwood, a deckhand on the steamer Westmount, had his leg torn off at the knee by being caught in a cable on deck while docking at Port Arthur elevator.

The Wonderful Lower Canadian French Sire

French Negro

DESCRIPTION
French Negro is a handsome black horse, weighing 1500 lbs., ten years old, with strong bone and powerfully built with excellent style and action that is found in a lower Canadian French Horse, and will produce a class of horses that will bring the highest price on the market to-day. They have also the French blood which no horseman can contradict as the greatest constitutioned horses in the world. In 1907 French Negro's colts won 21 firsts at these places: Owen Sound, Chatsworth, Kilsyth, Desboro, one at Meaford, and one at Clarksburg. French Negro won 1st prize for stallion and live of his colts at Meaford.

TERMS
To insure a foal, \$10, payable 1st Jan., 1911. Season mares \$8; single leap, \$6.

ROUTE FOR 1910:
Monday will leave Peversham hotel and proceed north to the 12th line, then west by Cooper's corner to R. McMullen's for noon; then by way of 4th line to Eugema at 3 o'clock for one hour, then to Richard Hoy's for night.

Tuesday by Flesherton to Markdale for noon; then by Berkeley to Holland Centre for night and Wednesday forenoon.

Wednesday at 3 o'clock by 40th sideroad to 10th line, Holland, then south to Wm. Lyons' town line, for night.

Thursday—North on townline to Goring sideroad to Rocklyn for what than all of the United States. When it is remembered that last year our neighbors to the South produced somewhat over seven hundred million bushels, it will be seen that the mills of Canada will have all they can do to cope with the Western crop.

Friday by Heathcote through Clarksburg to Ginn's Hotel, Thornbury, for noon; then by 8th line to Sheldon Meyer's, Ravenna, for night. Saturday—East by Banks, then south to J. A. McLean's, Gibraltar; then south to Townline by Buckingham's sideroad to Peversham until Monday morning.

MANITOBA'S CLAIM

Demands For Control of Lands Up in Commons.

PROROGATION NEXT WEEK

Premier's Announcement Rather Upsets the Plans at Rideau Hall For State Ball—If Manitoba Got Her Request Confederation Terms Would Be Upset, Says Sir Wilfrid Laurier Yesterday.

Ottawa, April 28.—The Manitoba boundary question came up in the Commons yesterday, as an amendment to the motion to go into supply, moved by Alexander Haggart of Winnipeg. The amendment recited various correspondences and resolutions and concluded: "That this House affirms that the Province of Manitoba is entitled to equality of treatment with either the said Province of Alberta and Saskatchewan to the west, or with the said Provinces of Ontario and Quebec to the east, and regrets that the Government of the Dominion did not agree to give to Manitoba such equality of treatment."

Manitoba, he said, sent a deputation to Ottawa in 1905, but they were told to wait until the boundaries of Saskatchewan and Alberta had been arranged. In 1908 the Legislature passed a resolution setting forth a claim to all the land lying west of the northwest boundary of Ontario and northward to Hudson Bay. The Federal Government had to take some action and passed a resolution fixing the proposed new boundaries, giving a smaller area than had been asked for, and providing that financial terms should be the subject of negotiations. In February, 1909, Sir Wilfrid Laurier sent to the Premier of Manitoba a copy of the bill it was proposed to introduce, but making the financial terms the only change in the financial terms should be an additional grant of \$10,000 to cover the administration of justice in the new territory.

The attitude of Manitoba was: "Give us the same terms as Alberta and Saskatchewan. If you cannot do that, don't say you will give us nothing. State what you will give, but it is not right to say that you will make no counter proposition."

Sir Wilfrid Laurier said that in asking for equality of treatment with Ontario and Quebec, Manitoba was asking for control of the lands and yet, according to the terms of the memorial passed by the Manitoba Legislature, all that was asked for was that the new territory be added to the province. The resolution asked not only for an addition to their territory, but that the financial terms upon which Manitoba was organized in 1869 be revised and new terms be given.

Sir Wilfrid did not think that it was reasonable to suggest that the terms of Confederation, which have been in force for forty years, should be revised. It was absurd to suggest that, as a consequence of the extension of the territory of Manitoba, the land should be given to the province, not in the new territory of the province. If the Parliament of Canada was wrong in 1869 in retaining control of the lands for the Federal Government, that was another question.

There are strained relations between Rideau Hall and the Government. The state ball will likely be a fizzle, and Rideau Hall is sure.

The state ball and prorogation usually take place simultaneously, and the invitations for the former are not sent out until the Government announces the date of prorogation. In accordance with the usual custom of the Government, the state ball was set for May 10, and thousands of invitations sent out.

But the Premier announced yesterday morning that Parliament would prorogue next week, hence the strained relations, because the members and Senators will all have flown.

The Prime Minister is of opinion that the business now before the House can be disposed of in about a week.

This was the effect of his reply to George Taylor, chief Conservative whip, in the Commons yesterday morning when asked if prorogation could be reached next week. The Premier had moved that the House sit next Saturday.

At the opening of the House Mr. Blondin emphatically denied the report that at a meeting in Montreal he had advocated the formation of a separate French-Canadian party, on the lines of the Irish party in the United Kingdom.

TALKED ABOUT GUNS

In the Evening Session of the House of Commons.

ROSS RIFLE WAS DISCUSSED

Opposition Queries About Automatic Guns—Minister of Militia Thinks British Arm Is Not Better Than Our Own—Major Sharpe Would Save Old Fort Malden—Second Monument Talked Of.

Ottawa, May 2.—The Commons met on Saturday and put through a mass of Government business and estimates, the main militia and marine and fisheries items forming the bulk. The House was sparsely attended.

Hon. Mr. Templeman, on the vote of \$74,000 for the operating expenses of the experiments with peat as a fuel and its producer, said that from a thousand tons of peat had been prepared during this month at Alfred, Ont.

A sixty horse-power engine has been installed at Ottawa, and it is proposed to show the value of peat as a producer of power. The Department of Mines, through Dr. Hannel, is prepared to demonstrate that peat will make gas and produce power as cheaply as water-power. It is also stated that peat can be used for gas producer engines at less expense than coal. Records have been made of over a hundred peat bogs in Ontario and Quebec, and it is known that there are some valuable bogs in Manitoba.

Late in the evening, when militia estimates were under consideration, Sir Frederick Borden explained that in addition to the 700 old style Ross rifles which have been converted into the latest patterns, mark two, double star, at an extra cost of twelve dollars per rifle, one thousand new rifles of the latest design have been ordered. There was practically no difference in the rifles except that mark two double star had longer barrel and weighed about a pound more.

Sir Frederick said that the company claimed that the Government should pay a higher price for the long-barrelled arm, but this was disputed by the Department. He intimated that the matter would be arbitrated by a board of experts, provision for which is made under the terms of the contract.

Majors Currie and Sharpe wanted to know if it was the intention of the Department to look into the matter of automatic rifles for the militia. Major Currie pointed out that Germany and Japan were arming their forces with an automatic arm and Great Britain and France were conducting experiments. Canada, he said, should not lag behind.

Sir Frederick said that if it were shown at any time that Great Britain possessed an arm superior to the Ross rifle, the Government could call upon the company, under the terms of its contract, to manufacture that arm.

Several of the military members of the House urged a more generous scale of pay for volunteers in camp, and Major Sharpe suggested that the most of the keep of the headquarters staff might be cut down and the money given to the militia.

The Minister did not think the headquarters staff was over paid, providing the work was being well done. He said that with efficiency pay, the good men could easily make one dollar per day while in camp. An increase in pay could not be made without a change in the law, and it was too late to do anything this session.

Major Currie suggested that something should be done regarding old Fort Malden on the Detroit River, to preserve it for the country. It was, he said, now virtually in the hands of private parties and was being sold for timber. He could not understand how the land had been alienated from the crown.

G. A. Lancaster hoped the Government would not insist that the monument to Laura Secord should take the original form, if the people interested thought a bell would be better.

Link Montreal to N.T.R.

Montreal, May 2.—H. Gervais, M.P. for St. James, returned from Ottawa yesterday with the announcement that Montreal will be hitched by with the main line of the Grand Trunk Pacific within three years, and perhaps in less, that the subsidy bill for the Montreal, Kapatchewan and Rupert Bay Railway had received its third reading, and that active work would be begun between Montreal and the main line of the transcontinental during the present year.

Mayor Payette, Hon. T. Borthiaume and other Montreal gentlemen are behind the project and Mr. Gervais has been untiring in his efforts in securing the charter as well as aid from the Federal and Local Governments.

Royal Household Flour

The best for Bread and the best for Pastry.

"The Little Brother of The Rich"

Now, this is a ROYAL HOUSEHOLD flour. It isn't a contradiction between the rich and the some things are equally rich and no poor brother.

The poorest the land can give good bread as the children have just as delicious and cakes and the children's carriages.

All the most world cannot flour than HOUSEHOLD there isn't any her own baking just as good sent to the Royal hold of England is made from FLOUR sent from Canada.

And then, For sale by J. E. WALKER, Markdale.

Chopping

Every working day at Ford's Mill.

Mixed Chop per ton, \$22.00
Chopped Oats, \$23.00
Shorts, \$24.00

EXCHANGE TRADED AT FLOUR MILL AS USUAL.
