### WEST BERKELEY

(Intended for last week.)

Miss Tena Heinbecher returned from Toronto recently.

Miss M. Logan, of Owen Sound, visited at the Heinbecker home last week.

Our esteemed teacher, Miss Small held an entertainment for the children. Quite a number of the parents attended. Miss Small deserves credit for the interest she took in the school and the progress of the children for the short time she was there.

It's a long way to Markdale around by Walters Falls, Mat.

Mr. and Mrs. Wm. Hampton attended the wedding of their nephew, W. Hampton.

Miss Minnie Gillen, of Dornoch, spent a few days with her uncle, Mr. Jas. Gillen.

An interesting event took place at Buffalo, N. Y., on Sept. 15th, when Miss Maggie Sowerby, formerly of this place, was united in marriage to Mr. James Flewelling, of Fergus, Ont. Congratulations.

Mr. Norman Dowling has erected a new silo.

One of the batchelors of our burg has decided the back line road the best for his.

## Which is Your Choice?

*Sloppy, leaky wooden troughs, or clean, durable Concrete?*

Wooden drinking troughs are about as reliable as the weather.

They are short-lived and require replacing every few years—not to mention continual patching to keep them in repair.

The best of wood cannot withstand, for long, constant dampness and soaking. Its tendency to rapid decay soon shows itself in leaks and stagnant pools of water around trough.

Contrast with this the durability, cleanliness and well-ordered appearance of Concrete.

*Which?*

The dampness which destroys lumber only intensifies the strength and hardness of Concrete.

You can impair a wooden trough with comparatively little use; but it takes a powerful explosive to put a Concrete water tank out of business.

*Which*

is your choice—expense-producing Wood, or money-saving Concrete?

We'd be glad to send a copy of our book, *"What the Farmer Can Do With Concrete,"*—Free—if you'll ask for it. It tells the many uses of Concrete in plain, simple language—tells how to make

## True Household Economy

MOTHERS, we owe it as a duty to our husbands and families to take good care of them. We all want, of course, to have our loved ones cheerful and comfortable.

Our dominant part is to give them the very best that we can make or bake. But sometimes we are tempted to save a few pennies in food and think that in so doing we are economising. But is it so? Is this the kind of economy that is wise and profitable? Is it doing our full duty to our loved ones?

## Royal Household Flour

We wouldn't think of buying the lowest priced eggs in the market just for the sake of economy. We would feel that because they were cheap they would be good eggs to avoid. The low price would give us a suspicion of their freshness and quality.

But when it comes to flour, for example, we may be tempted to buy the second best instead of the best because of the few pennies difference in price. We may think that economy in flour is different from economy in eggs. But it isn't. The principle is the same. The difference in cost between the best flour in the world and ordinary flour is so little that in justice to our responsibility as wives and mothers *we can not afford to take chances.*

From every point of view Royal Household Flour is more economical than any other. It produces more loaves to the barrel. It is richest in food value. It is more uniform. It is best for Pastry as well as Bread and yields more baked product in either bread or pastry than any other flour.

ROYAL HOUSEHOLD FLOUR furnishes more nourishment, more real food value per pound and per penny's worth than any other flour in the world.

## BLACK KNIGHT STOVE POLISH

is not a little, messy box of powder that has to be mixed with water, nor a hard cake that has to be scraped. It is a generous can of paste, easily applied and magical in its results. For stoves, pipes, grates and iron-work.

If your dealer does not carry "Black Knight" Stove Polish in stock, send us his name and we will send a full size tin by return mail.
