### Free to Stock and Poultry Raisers We will send, absolutely free, for the asking, postpaid, one of our large thirty-two-page booklets on the common diseases of stock and poultry. Tells you how to feed all kinds of heavy and light horses, colts and mares, milch cows, calves and fattening steers, also how to keep and feed poultry

so that they will lay just as well in winter as in summer. No farmer should be without it.

At a cost of only two-thirds of a cent a day per Animal, Royal Purple Stock Specific makes each Animal worth 25 per

You never heard of any other Specific, or "Stock Food," doing likewise. Royal Purple will permanently cure the Bots, Colic, Worms, Skin Diseases and Debility, and restore run - down Animals to plumpness and vigor.

It will increase the milk-yield three to five pounds per cow a day inside of from two to three weeks. It makes the milk richer than ever before.

MR. ANDREW WEGRICH, of Wainflett. Ont., says: "This is to certify that I have tried your Royal Purple - Stock Specific for two weeks, on one cow. On the 16th I weighed her milk as 17 pounds. I noticed a change after 5 or 6 days, as there was an extra weight of milk. On the 29th, I carefully weighed the milk, and she gave 22 pounds. am giving an order for 5 boxes, as I consider it the best I have ever used."

"Stock Food" will not do this. Because-"Stock Food" is nothing more or less than a mixture of the very things which you, yourself, grow on your own farm. It is not more food your Animals need. They must have something to help their

bodies get all the nourishment from the food they are getting. So that they will fatten, and stay fat, all'the year 'round. They need something to prevent disease. to cure disease, and to keep them in the best of health, all the time.

#### Not a Stock Food

Royal Purple is not a "Stock Food," nor a "medicine." It is a Conditioner.

It does not contain Grain, nor farm products. Nor does it contain "Dope," or any other injurious ingredient. Royal Purple does not merely temporarily bloat or inspire the Animal. It fattens and strengthens it, permanently.

No other Specific known adds flesh so quickly as Royal Purple. It makes 6-weeks-old Calves as large as ordi-

nary-fed Calves are Royal Purple makes naturally-

And it builds up the health and restores the former plumpness and vigor of run-down stock, in little or no time. The very best time to use this Con-

ditioner is NOW. . It digests the hard food properly and prevents the animals getting indigestion or losing flesh.

50 per cent. Cheaper One 50-cent Package of Royal Purple

will last one Animal 70 days. figures a little over two-thirds of a cent

Most "Stock Foods" in 50-cent Packages last but 50 days, and are given three times. a day.

But Royal Purple Specific is given only once a day, and lasts 50 per cent, longer. (A \$1.50 Pail, containing four times the amount of the 50-cent Package, lasts

So, you see, it is only necessary to give Royal Purple Specific once each day. Just think of making each Animal worth 25 per cent. over its cost! What will that mean to you Mr. Stock Owner !

Royal Purple creates an appetite for

STOCK AND POULTRY SPECIFICS

Poultry Specific is guaranteed.

Centralia, Ont., Feb. 7, '10. The W. A. Jenkins Mfg. Co., London, Ont.: Gentlemen,-We have been using Royal Purple Poultry and Stock Specific for the last three weeks, and must say that results are remarkable. Am feeding the Stock Specific to two milking cows, and they have increased 30 per cent. in their milk. The Poultry results are even more marked than this. We have about 60 hens, laying age. When we commenced feeding, we were getting five and six eggs a day, and in the last five days the same flock of hens laid 150 eggs, almost an average of 31 each day, and those five days have been the coldest this winter. You can see results plainly in two or three days after the use of "Royal Pur-

ple," and the poultry have the same hustle and appearance now as in the summer time. With cows and poultry, am using exactly the same feed and care as before starting to feed "Royal Purple." When farmers and stockmen get acquainted with Royal Purple, it will have a greater demand than all other tonics and stock foods on the market combined. ANDREW HICKS. Yours truly,

Aug. 28, 1910. W. A. Jenkins Mig. Co., London, Ont.: Gentlemen.-Last Fall we had in our stables a young mare belonging to Miss Clouston, of Montreal. We could not feed her any bran on account of causing violent scouring, consequently causing her to become weak and thin. We commenced using your Royal Purple Stock Specific, and the results were wonderful. After using it three weeks, we found we could feed the animal bran or any other soft feed without scouring her, and she actually took on in this time twenty-five pounds of flesh, we working her 'at the same time through the hunt. I can heartfly recommend your Stock Specific.

TOM SMITH. Trainer for the Hon. Adam Beck.

We also manufacture: Royal Purple Sweat Liniment ..... 50c. Royal Purple Cough Cure...... 50c. Our Cough Cure will cure any ordinary cough in four days, and will break up and cure distemper in ten to twelve days. If your dealer cannot supply you with our Royal Purple Brands, we will supply

you upon receipt of \$1.50 a pail, prepaid, for either poultry, or stock, or if you want any Liniment, Gall Cure or Cough Powder, we will send it by mail,
