Interesting Happenings of the Week in Surrounding Towns and Villages as Depicted by Our Exchanges

DUNDALK

A number of lady friends took possession of the new home of Mrs. R. Russell one night last week and surprised her with a kitchen shower of useful articles. A very happy evening was spent in mirthful chat and story.

Harry Johnson, of the Gravel Road, has some smart pullets. They were hatched on May 27th and are now laying eggs, having started on Oct. 5th—at a trifle over four months of age.

Miss Carlotta Rowe has started taking vocal lessons from Prof. Barnaby Nelson, Toronto. She goes to the city at the end of every week, and having been engaged to sing in the Northern Congregational church choir, of which Prof. Nelson is leader, she had to give up for a time her position of organist in the Methodist church, her place being taken by Miss Marjory McWilliam, who presided last Sunday.—Herald.

THORNBURY

Mr. F. W. O'Brien has in his orchard 96 plum trees and they occupy less than one acre of ground, 108 being number to acre. From these 97 trees he marketed 881 baskets besides what he used otherwise. This is certainly a good record.

The contractors, Hy. Pedwell & Sons have completed their contract on the new agricultural hall. This is one of the best structures of its kind in this part of the country. The building is 90x200 feet long and is modern in every particular. The frame work consists of eleven arches with a span of 68 feet and 55 feet to apex of arches from the ground. The work has been well done and no part slighted either in material or workmanship. The centre is free from all posts or other obstructions, thus giving the regulation size for all hockey matches and skating races. There will also be ample room in the centre for curling.

The building is provided with a gallery, two dressing rooms, two offices and two closets, and has seats all around the edge. The waiting rooms will be heated and every convenience for those attending.—Herald.

OWEN SOUND

Not satisfied with winning the C. L. A. Junior Championship for two years in succession, the Alexandras made a trip to Orangeville Wednesday, and returned with the Intermediate Championship. It is no small feat to win a championship twice in succeeding years; but to carry off two in one year is an achievement that, so far as we know, is unprecedented in lacrosse annals. And the honor is all the greater when we know that the boys did the trick with all "home brews," most of them having been born as well as reared in Owen Sound.

Mr. E. E. Newman was the guest

of honor at a farewell banquet held Wednesday night at the Sydenham Club, on the eve of his departure for Ottawa, where he takes the position of manager of the Traders Bank. During his stay of two years and a half in Owen Sound as manager of the local branch of the Traders Bank, Mr. Newman has made many friends, and in the speeches made after the banquet general regret was expressed at his departure. Mr. Newman leaves to-day to take up his new duties.—Sun.

The lady cook of the barge Abyssinia had a unique experience on Saturday evening last when in company with two young admirers she went out for a drive about the country and on her return fell into the pond dam by the dam near Wright's mill and met with a cool reception from the nymphs who inhabit the waters in that vicinity. The entire party received a severe ducking as in crossing the narrow bridge, the wheel of the buggy slewed to one side and dragged the out fit into the pond. A hasty return was made to Long's livery where the lady changed certain portions of her apparel and waded her way back to the boat, soaked to the skin and mad, but otherwise none the worse for her immersion.—Herald.

Henry Hill the C. P. R. employe, who was injured by falling into the hold of the Manitoba on Wednesday afternoon last week, succumbed to his injuries on Thursday evening. Though it was known that Hill had been very badly injured by his fall, and that his shoulder was broken, besides being internally injured, it was hoped by his friends that he might rally. The nature of his hurts was so serious, however, that he never regained consciousness and expired without speaking.

Stole the Whiskey.—On Saturday night Owen Sound police force was fairly busy and they rounded half-a-dozen sloppy ones, chucking the inebriates into the town's noble calabozo. Here they remained, some inert, sleeping the sleep of the doped, others pacing about wearing off the effects of an over-load of tangle-foot. At seven o'clock on Sunday morning when P. C. Waterton went into the cells to feed the bunch he found them fairly well sobered up. When Chief of police visited the pen an hour or two later he found several of the men in an unlovely state of souification. Being curious he investigated and found that License Inspector M. C. Beckett's seized stuff had been broken into, and that several gallons of whiskey had been duly disposed of by the asophagus route. The heavy padlock on the door of the cell where the contraband was kept separated from the rest of the station, had been broken, the door opened and the wozy, wet stuff appropriated by the inmates of the bast. Consequently the inspector laid a charge of theft against W. McGirr, A. Powey, W. Foulger, T. Wilson, Ad. McMullen, F. Cox and A. Darroch, the men with access to the stuff when the door

SUFFERERS FROM PILES!

ZAM-BUK HAS CURED THESE!

Friction on the hemorrhoid veins that are swollen, inflamed and gorged with blood, is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others?

Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it, and after using three or four boxes I am pleased to say it has effected a complete cure."

Mr. G. A. Dufresne, 183-185 St. Joseph Street, St. Roch, Quebec, P.Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles."

Magistrate Sanford, of Weston, King's Co., N.S., says: "I suffered long from itching piles, but Zam-Buk has now cured me."

Mr. William Kenty, of Upper Nine Mile River, Hants Co., N.S., says: "I suffered terribly from piles, the pain at times being almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. After a very short time Zam-Buk effected a complete cure."

Zam-Buk is also a sure cure for skin injuries and diseases, eczema, ulcers, yartese veins, cuts, rashes, bruises, chaps, cold sores, etc. 50c. box all druggists and stores, or please free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations. Try Zam-Buk Soap, 25c. tablet.

was forced. All admitted having had some of the booze, but all stoutly and virtuously denied having any part in stealing it. After all evidence had been taken it was found that Foulger was the man who turned the trick of getting into the prize package. He got twenty-one days, and the others were allowed to go on the theft charge, though they were soaked for drunkenness. The magistrate also thought that the council should provide some other place to store the inspector's contraband booze.—Times.

Ne Temere Decree.

Hon. S. H. Blaké Advises Church of Rome to Adopt Spirit of Toleration.

Toronto, Oct. 14.—Not all the protests which have been hurled against the Ne Temere decree can outweigh in force and effectiveness the argument and denunciation which the Hon. S. H. Blaké, K.C., used recently before the Wycliffe Association to condemn the position of the Roman Catholic Church on the sacredness of marriage. It was a subject on which the learned counsel was easily at his best, and in a masterly review of the facts relating to law and tradition, he established a splendid foundation on which to carry the campaign of dissent.

Mr. Blaké was especially severe on the effect of the decree, if allowed to stand on public morality. He advised the Church of Rome to adopt a spirit of toleration to others: she must be "Catholic" not only in the name but in reality. He scored the doctrine which denied the right of spiritual freedom to an infant baptized by a priest of Rome.

"This state of bondage should not be permitted in a free land," he declared. "Such children were not illegitimate when the marriage was effected according to the relations set forth in the legal enactments of the land, or that the parties to such a marriage were ever living in concubinage. No torture of the Inquisition could more keenly affect a chaste woman than such unwarranted and damnable charge." (Applause.)

Summing up the situation as it concerns Canada, Mr. Blaké said: "Recent events so well known to all that it is unnecessary to go into them in detail, make it imperative that the present doubts and uncertainties introduced into the question of marriage and the wrongs thereby caused by the Church of Rome should be set at rest and ended. The actual position of citizens of our Dominion should be clearly defined and declared by the legislature, and so far as possible one uniform marriage law for the whole Dominion should be passed." (Hear, hear!) that by such enactment every care should be taken to prevent illicit, secret, clandestine or improper marriages; that legislation be passed to empower the Exchequer Court of Canada to deal with all questions throughout the Dominion relating to the validity of marriage.

Sent to Prison for Life

Barrie, Oct. 13.—Pleading guilty to manslaughter in having fatally stabbed Ross Ford during a fight one night last August, Arthur Sheridan, aged 23, was last evening sentenced to life imprisonment by Chancellor Boyd.

The jury after being out over three hours, was unable to agree on a verdict on the original charge of murder, and after another hour reported as dividing one for manslaughter and the rest for murder. Counsel for the accused then agreed to plead guilty to the lesser charge. Sheridan heard the sentence with composure but his brother seemed greatly disappointed. His parents are dead.

PLEA BY COUNSEL. T. C. Robinette, K.C., counsel for defence, urged that his client was quiet and inoffensive, and Ford pugnacious and boasting. Apparently Ford sought the quarrel, and his client tried to avoid it. There was no motive apparent for such a crime, admittedly no jealousy between the men who were courting sisters. It was the murdered man who called Sheridan out from the dance. Sheridan made no effort to conceal the knife, which was the one he used in ordinary ways and there was no evidence of premeditation to murder anyone.

The Crown Counsel and the Judge however, disbelieved Sheridan's version of the affair.

A school not twenty miles from Meaford is presided over by a cross-eyed teacher. A few days ago he called out "that the boy that I am looking at will please step out on the floor." Immediately twenty-seven lads walked out in front of the astonished pedagogue.—Meaford Mirror.

Pleasure on the Farm.

S. H. Colbeck, of Monticello, is a real evidence of the progress of the farmer, who believes that things of yesterday will not do for the present. The tallow candle has been succeeded by the use of coal oil, now this is giving way to electric light. Time is not so very remote that a bubbling spring on a farm, if even enclosed by a few logs, was a prize, and when the owner got a wooden pump, the shallow well it was an evidence of real progress. This, too, he gave way to the deep drilled operated by windmills, which forced the water to the house. But this is essentially a thing of progress and Mr. Colbeck decided to have some of the advantages of the farm. He is installing air-pressure water service in his premises; the power being driven by a gasoline engine, which drives a dynamo, the electricity being stored in batteries, and to light the house and barns. The plant is not too large, too expensive, nor too complicated for the ordinary farmer to have. The pump on a drilled well is operated by the engine, forcing the water into a steel tank holding 500 gallons. When the air is stopped and the water runs any tap in the same way as where they have a waterworks system. The plant gives plenty of water at all times for every need on the farm, reduces the fire danger in the buildings, provides for wash-tory and bathroom purposes, and saves endless steps for the housewife. Sure the world is moving, when the farmer 12 miles town reads by electric light, and modern conveniences in his home that go so far to make life worth living.—Grand Valley Star.

"Dr. Miles' Nerve Completely Cured Our Little Boy's Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy. Many a father or mother would give their all to restore such a child to health.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for four years. I tried three doctors and one specialist but all of them said he could not be cured but Dr. Miles' Restorative Nerve and Dr. Miles' Nerve and Liver Pills made a complete cure. He is now hale, hearty and gay. It has been three years since he had the last spell. I shall give Dr. Miles' medicine praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply." F. M. BOGUE, Windsor, Ind.
