

## SEVERE NEURALGIA

Cured Through the Use of Dr. Williams' Pink Pills

In England, France and Germany tea is made in much the same plebian way, but in other countries the method of enjoying the cup which cheers is a more picturesque ceremony.

This group also includes St. Vitus dance, partial paralysis and the common state of extreme nervousness and excitability. Each of these complaints exists because there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints.

The reason why Dr. Williams' Pink Pills cure nervous disorders is that they restore weak, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. The highest medical authorities have noted that nervous troubles generally attack people who are bloodless and that the nerves are renewed.

It is thus seen that Dr. Williams' Pink Pills cure nervous disorders by curing the cause of the trouble.

The following is an instance. Miss Annie Jones, London, Ont., says: "For over a year I was an intense sufferer from neuralgia which located in my face and head. The pain at times was so intense that I could scarcely keep from screaming, and nothing I was doing for the trouble seemed to help me. At time went on my whole nervous system was affected. At last when I felt that my case was almost hopeless I was advised to try Dr. Williams' Pink Pills. The result of this treatment was that I am now enjoying such comfort as I had not known for years; and only those who have suffered from neuralgic pains can realize what a blessing the Pills have been to me."

If you are suffering from any kind of nervous disorder begin to cure yourself today with Dr. Williams' Pink Pills, which you can get from any medicine dealer or by mail at \$2.50 a box or six boxes for \$25.00 from the Dr. Williams' Medicine Co., Brockville, Ont.

**MENACE BY INSECTS.**

Pest Threatens to Ruin Great Britain's Fruit Crop.

The hot summer of last year and the present dry spring have produced a crop of insect pests which threaten to overwhelm the usual fruit and vegetable output of the season in Great Britain.

The great sheep fields of Kent are infested with a blight which only can be checked by spraying.

There are hives to carry the pollen from the flowers to the stems.

These will bloom without fruit, and it is estimated that with the assistance of a relatively small number of other insects, practically all the work is done by the ordinary bees here.

Moreover, a plague has attacked the hives of the kingdom, and there are grave fears that a lack of pollination may cause the complete failure of the fruit crop.

United States experts are sent to the author to the stems.

These will bloom without fruit,

and it is estimated that with the assistance of a relatively small number of other insects, practically all the work is done by the ordinary bees here.

A plague known as the Isle of Wight disease has wrought such havoc among the bees that the bee-grover has been forced to take over the task himself and many of them are busy with rabbit foot and come hair brushes collecting pollen from one flower and painting it into another.

To add to their troubles the fruit-growers are facing an invasion of wasps.

The orchardists are, therefore, looking for two specifics, one to save the bee and another to kill the wasp.

"Did you know that they can make shoes out of all kinds of skins?" "How about banana skins?" They make slippers out of them."

## HOW THEY MAKE TEA.

Scarcely Two Nations Prepare It In the Same Way.

In England, France and Germany tea is made in much the same plebian way, but in other countries the method of enjoying the cup which cheers is a more picturesque ceremony.

This group also includes St. Vitus dance, partial paralysis and the common state of extreme nervousness and excitability. Each of these complaints exists because there is something the matter with the nervous system. If the nerves have tone and are strong and healthy you will not have any of these complaints.

The reason why Dr. Williams' Pink Pills cure nervous disorders is that they restore weak, run down nerves to their proper state of tone. They act both directly upon the blood supply and the nerves. **GERMAN AIRSHIP'S FEAT.**

Zeppelein III. Shows What Can Be Done in War.

The magnificent flight of the Zeppelein III. at midnight on Friday from Friederichshaven to Hamburg, a distance of 425 miles, has been hailed with pride by the German press.

As was the case in England when the navy aeroplanes and hydro-aeroplanes achieved such fine results at the King's review of the fleet, so in Germany the Zeppelein's success has turned public and expert attention to the possibilities of aircraft in future warfare. The Tagliche Rundschau goes straight to the point in saying:

"What this signifies is at once clear when one realizes that the distance from Heligoland to Rosyth Bay—the English North Sea naval base—is also 425 miles.

In this future naval base on the Birth of Firth of Forth will be stationed sixteen English first-class battleships and ten armored cruisers, which would be of the utmost importance in deciding a naval engagement.

From here also a blockade of the North Sea from Scotland to Norway would be initiated.

From the aeroplane dock at Hamburg, if necessary, with a halt at Heligoland, a Zeppelein airship can now fly with absolute safety to Rosyth, and could reconnoitre the movements of dreadnoughts, and when its task was done either return or, if necessary, remain for days on the horizon, sending by wireless everything that had been discovered.

"A still simpler task would be that of reconnoitring Harwich, with its active destroyer flotilla. This harbor is only 285 miles from Heligoland and the distance would be half a day's play to our large airships.

Dover, with its six battleships and four cruisers, and Sheerness, with its reserves, lie only a mere trip away and could be patrolled at the same time.

"As soon as the German Admiralty has four airships with a capacity of 500,000 cubic feet they will be able to reconnoitre the whole English coast in the event of mobilization."

Half the world don't know how they live themselves.

Minard's Liniment used by Physicians.

NOTHING BETWEEN THEM.

I hear you had words with Caso?"

"We had no words."

"Thin nothin'" passed between ye?"

"Nothin' but one brick."

They Cleanse While They Cure.

The vegetable compounds of which Parmentier's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action.

Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.
