> Medicine Co., Brockville, Ont. TIGERS SKILFUL STALKERS. English Resident of India Tells of

Animals' Methods. Most wild animals may, in a sense, be termed "specialists", with reference to the manner in which they approach their prey. The tiger is great as a stalker. His feet may be said to be "shod with silence." As illustrating the proficiency of the tiger in this respect there may be cited the experience of an English resident of India.

He had been much annoyed by tigers and at last tied a bullock in a tion in a tree to wait until the big cat should come after the bait. The ground was covered with dried leaves, which, in hot weather, are so brittle that even the walking of

heard for some distance. In a short time a large tiger slipwas fascinated to a degree.

So carefully did the big beast put down each paw, and so gradually did he crush the dry leaves under it. that not a sound was to be heard.
