William Ferguson.

Reached Nearly the Century Mark.

William Ferguson, one of the oldest and most respected farmers of the township of Osprey, died at his home here Badjeros on Thursday, Nov. 28th last, and was interred in the Badjeros cemetery on Saturday, Nov. 30th. The Rev. Jas. Phimister, of Maxwell, a former pastor, assisted by Rev. Mr. Purchase, conducted the funeral services.

Mr. Ferguson was born in the County of Antrim, Ireland, in October, 1815, and was a little over 97 years of age. He came to Canada when a young man and settled in the township of Adajala, in the County of Simcoe, where he married Ann Creighton and soon after moved to the township of Osprey, to lots 55 and 57, conceiving I. E.D.R., which was then a wilderness. He had to follow a blazed trail from about Hornings Mills. His first home in the township of Osprey was a log shanty covered with bark and the chinks between the logs stuffed with moss.

However, Mr. Ferguson's thrift and industry and his strong determination which was characteristic of the pioneers of this country prevailed and he lived to see this "one-time wilderness" replaced by a rich and prosperous farming country and the log shanties replaced by comfortable farm buildings, in which Mr. Ferguson had the pleasure of living many years to enjoy the result of his early labors. His wife having died about 18 years ago he has lived upon the old farm with his son, John. He leaves a family of four sons and four daughters: Mrs. W. K. Taylor, of Maple Valley; Mrs. John Scott, of Weyburn, Sask.; Mrs. Jos. Carson, of Badjeros and Jamaica, of Collingwood; John and William, of Osprey; James, of Souris, Man., and George, of Vancouver, B.C.

Mr. Ferguson was an earnest church worker and had been a member of the Methodist church for over 60 years, in which church he held the position of class-leader and local preacher for many years.—Dundalk Herald.

A Fine Description.

A letter is just to hand in town from Mr. A. Irwin, B.A., the Markdale boy, who captured the University gold medal in Toronto last spring. It is a private communication, but we are taking the liberty of printing some extracts. Mr. Irwin has entered the work of the Methodist ministry, and is stationed at Shellbrook, Saskatchewan, from which place he writes as follows:

"In coming here I quite expected I was being sent into the back woods, and I've not been disappointed. This place is both 'back' and 'woods.' We are nearly three hundred miles from the American border and just about the 'ultima thule.' 'Tis true there is some little settlement north of us, and homesteads are being quickly taken up there, but the limit of arable land is reached some ten or fifteen miles away. I have talked with a number of men who have freighted up to the Hudson's Bay posts, and they all tell the same tale, that beyond the limit there is a great stretch of country made up of muskeg and lakes and low land, evidently worthless. Then as for the woods: We are not really in the bush, in fact this is quite a thriving agricultural community, yet it is quite a different region from the prairie. The country here, in a general prospect, appears quite as wooded as the district at home. Clumps of woodland occur everywhere, so that at first one gains the impression that there is really little land cultivated. The trees, though, are mostly poplar, and some of them mere scrub and of no value.

However, this but seems to remind us that we are just on the edge of the really timbered country. Big River, some distance north is the centre of a thriving lumber industry, where there are great forests of spruce and jack-pine. Last winter there were five thousand men in the usual western mushroom. Three years ago the present site of the village yielded a bountiful crop of wheat. Now there is a population of three or four thousand, and it is rapidly increasing. With the optimism characteristic of this country, the citizens already see reason to believe that the T.P. is coming through here, and, of course, things will boom. I am persuaded myself that this is to be a fairly prosperous place. Even now there is a big business done in it. It has every opportunity to grow: it is far enough from Prince Albert not to be obliged to compete with that vicinity; it has the start of the neater villages, most of which are mere sidings on our one-horse railway; and then it serves a tremendously big tract of country as distributing centre and market town."

Men Over 45 Not Wanted By Corporations

Man With a Good Head of Hair Has Best Chance in Life.

Men Over 45 Need Not Apply.

There's the sign that's getting to be a common thing in Canada. Corporations are retiring men at 50. They are not hiring any one over 40.

A baldheaded man often looks 10 years older than he is.

"A man with gray hair always does."

It is important nowadays that a man look as young as he is; it is a very important thing that a man having a family dependent upon him should take care of his hair, for if you have dandruff, get rid of it by killing the germs.

If your hair is falling out, stop it.

If your hair is fading, don't waste any time.

There is a remedy which will correct these conditions and aid you to retain your gray.
