RID YOUR FEET OF SORE CORNS

Quite easy now to extract any kind of corn. Just apply Putnam's Corn Extractor, it works wonders, stops the pain quickly, the tiny particle is softened, and healing goes right to the heart of the corn. In a few hours the hard core is loosened and separated from the toe. Out comes the corn. Toe is left smooth—not a mark left. Only Putnam's Painless Corn Extractor recommended by druggists and sold at 25c. bottles.

THOUSAND SMALLPOX CASES.

A dispatch from Montreal says: During the last six months of 1912 there were 1,005 cases of smallpox reported to the Provincial Board of Health from various municipalities in the Province. It is remarkable that not more than half of these were reported. Deaths numbered less than one per cent., a fact that the disease was of a mild type.

The Tally-Stick.

Bessie and Ruth were breaking wood and tossing them into the fire.

"They blaze up and make things look shiny," exclaimed Ruth to her mother.

"I love the bright blaze, too," said grandfather, "and while watching it I often sticks I have thought of the time when I was a little boy and used to try and try to make the sticks break in exactly the same way."

"And could you never do it?" Benny asked.

Grandfather answered: "In the long-ago days, sticks that were called 'tallies' were used for keeping accounts.

"The tally was a plain stick, in which notches or other marks were made to show the quantity of goods sold or the amount of money owed. The tally-stick was used in many business transactions. When the marks on the tally were satisfactory to both the buyer and the seller, then the stick was split down the middle, and the seller took one piece and the buyer the other.

"By and by, when the time for payment came, whoever had the piece of stick that fitted perfectly the piece held by the debtor, was the one who could claim the money.

"It is said that there was never any dispute about a man's claim, because two sticks never broke in exactly the same shape. If the two pieces of the broken tally-stick tallied, no further proof was asked."

"What queer bookkeeping," Benny said.

"It was a good way," said grandfather.—Youth's Companion.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anaemia, is common in young folks as well as old. Especially is it the case with those who work in ill-ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anaemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S

GOLDEN MEDICAL DISCOVERY

is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in $1 or 50c size. Adress R. V. Pierce, M. USE FOR LIVE WHALES.

Monsters Helping Fishermen Off Coast of Prince Rupert.

From Prince Rupert comes the report that two huge whales have been engaged to herd the shoals of herring into that port for the benefit of the fishermen, and the plan has met with such success that whales are to be used hereafter as the "sheep-dogs" of the sea at the northern terminal.

The two whales display a lordly indifference to everything except herring, with the result that big catches are being made. Messrs. E. Mortimer, McDonald and Robinson are said to have first observed the efforts of the leviathans to corner the herring market in a rocky cove near Prince Rupert.

The whales drove the herring close to shore and after opening their mouths to a wide angle they went through the shoal of fish at high speed, with the result that many of the herring were missing from the shoal. The gulls flying over the whales locate the leviathans and the fishermen instead of making long trips for their catch, are now following the gulls, with the result that big hauls are the rule.

Synopsis of Canadian North-West Land Regulations

Any person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price $3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

THE SUNDAY SCHOOL LESSON

INTERNATIONAL LESSON, FEBRUARY 2.

Lesson V.—The flood, Gen. 6, 9-22; 7, 11-24. Golden text, Rom. 6, 23.

6, 9-12.

The story of the flood begins with Gen. 6, 5 and extends through 9, 18. In the form of the narrative as it has come down to us there are a number of repetitions, together with several striking differences that seem to indicate two earlier narratives which have been preserved to us in the account as it was finally incorporated in our canonical book of Genesis. The student interested in tracing the parallel accounts, each of which is measurably complete in itself, can do so by reading in order first one and then the other of the following groups of passages: A. Gen. 6, 5-8; 7, 1-5, 10, 12, 17, 22, 23; 8, 6-12, 13 (beginning with the words, "Noah removed the covering of the ark"), 20-22; 9, 18. B. 6, 9-22; 7, 6-9, 11, 13-16 (omitting the words, "And Jesus shut him in"), 18-21, 24; 8, 1-5, 13 (first half), 14-19; 9, 1-17.

Verse 9. Righteous . . . perfect . . . walked with God—A threefold description of Noah's goodness. The word "righteous" emphasizes his moral integrity; the word "perfect" his blamelessness in conduct; while the third characteristic sets forth his life of common with Jehovah.

12. All flesh—Here denoting mankind alone, though sometimes (as in 6, 17; 7, 21; and 9, 11), including both men and animals, or even animals alone, as in 6, 19; 7, 15, 16; 8, 17.

7, 11-24.

11. The second month—According to the Jewish calendar this would correspond to our month of May.

Fountains of the great deep—Springs and other channels through which the floods from the great subterranean waters broke forth and covered the surface of the earth.

Windows of heaven—Openings in the firmament.

12. The rain—Literally, the heavy rain.

Forty days—The parallel account mentions a hundred and fifty days (verse 24.)

14. Every bird of every sort—Every winged creature, including insects. Birds are mentioned separately in the preceding phrase.

13. The selfsame day—The day specially mentioned in verse 11.

15. Two and two—According to the parallel account (verses 2 and 3) there were seven pair of each of those animals regarded as clean, and also seven pair of every kind of bird.

18. The ark—For a description of the ark, including the manner of its construction, compare Gen. 6, 14-16.

The face of the waters—The upper surface.

19. The waters prevailed exceedingly—This and the following verses (19-24) gives a more detailed description of the great depth and universal prevalence of the flood.

20. Fifteen cubits upward—That much above the tops of the highest mountains. The exact length of the cubit varied greatly at different periods. The cubit referred to here was probably a little less than two feet, being determined by the length of the forearm from the elbow to the point of the middle finger.

21. Creeping thing that creepeth—Or, swarming thing that swarmeth.

22. Of all that was on the dry land—Not, therefore, including fishes and other aquatic animals, which were thus exempt from the general destruction caused by the flood.

23. Destroyed—Heb., blotted out.

24. A hundred and fifty days—In verse 12, above, forty days are mentioned as the time duration of the flood. The divergence is best explained on the theory of two separate original accounts as suggested in the first paragraph.

How Japan Greets New Year.

In Japan the New Year is welcomed with far more energy than in this country. Let a man's energy be ever so defective, he is expected to rise at 4 a.m. and don new clothes to meet the auspicious morning. Then, with his gala garments in due order, he worships the gods, performs obeisance to the spirits of his ancestors, and pays homage to all relations older than himself. No ordinary viands are consumed at breakfast. The tea must be made from water drawn from the well as the first rays of the New Year's sun strikes it. On every table figures a red lacquer tray, covered with evergreen leaves, and supporting a rice dumpling, a lobster, oranges, persimmons, chestnuts, dried sardines and herring roe; all these dishes possessing an allegorical signification. This meal is the start of the festivities, which are continued for sixteen days, business being almost entirely suspended for the first week of the year.

KITCHENER'S WAY.

How He Prevented the Bedouins From Helping Turkey.

Lord Kitchener, it is said, does not always use the mailed fist in ruling the Oriental, and that he has learned some of the native craft was shown by the way in which he prevented the Egyptian Bedouins from joining their brethren in Tripoli.

The Egyptian Bedouin is not compelled to pay taxes or to render the ordinary obligations of citizenship, which in Egypt includes military service. Soon after the outbreak of the war between Turkey and Italy a delegation of Bedouins approached Lord Kitchener and told him that they wanted to go across the border to the assistance of their hard-pressed fellows in Tripoli.

The English general admitted with unexpected readiness that their request was reasonable, but he reminded them that by granting it he would be creating a precedent which would make them liable for military service with the Egyptian army. The delegation withdrew, and Lord Kitchener was not troubled any more with requests for leave to cross the border.

Special Notice.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 84 Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Strange Butterflies.

The entomological explorer, Mock, who serves the Hon. Walter Rothschild in providing specimens for his private museum, recently arrived in London, bringing with him a jet-black butterfly, valued at five thousand dollars. It is almost as large as a robin, its wings measuring eleven and one-half inches from tip to tip. It is almost furry, so thick is its covering, a necessary protection from the intense cold of its habitat, the Snow Mountains in New Guinea. Aside from the furry butterfly, the discoverer found several new varieties of huge butterflies. "The natives shoot them with the four-pronged arrows which they use in killing birds," he says. "The female giant butterflies are black or brown or white, but the males are splendidly marked in green and gold."

FOR BURNS—ZAM BUK

Stops Pain at Once

This is the verdict of all who have tried Zam-Buk. The woman in the home knows best its value. A burn from the stove, from a flat-iron, or a hot pan, is instantly soothed by Zam-Buk. When the little ones fall and cut or scratch themselves, Zam-Buk stops the pain and, incidentally, their crying. The best proof of this is the fact that children who have once had Zam-Buk applied come for it again.

For more serious burns, too, it is unequalled. Mr. John Johnston, of 734 South Marks Street, Fort William, a moulder in Copp's Foundry, says: "Some time ago I burned the top of my foot severely by dropping some molten iron from a ladle I was carrying. A large hole was burned through my shoe and into the top of my foot. I was taken home, and Zam-Buk was applied to the burn directly. It was surprising what relief this balm afforded. The burn was so deep and so serious that it required careful attention, but Zam-Buk prevented other complications arising, and as it was daily applied, soothed the pains and allayed the inflammation. In the course of two weeks the hole burned in my foot had been quite healed."

Mr. W. B. Gibson, of Belleville, writes: "We have tried Zam-Buk often on cuts and sores, and I think there is nothing that can equal it."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, blood-poison, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, and skin injuries generally. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., Toronto, for price.

JAPANESE EMBALMING.

Bodies Well Preserved after Years of Burial.

In the olden days in Japan master embalmers were successful in securing to posterity a perfect extraordinary amount of preservation in the bodies on which they operated. The Japan Chronicle draws attention to a case of this nature which has recently come to light in Kobe during the excavations for laying out a public park at Nojiyama, around the statue of the late Prince Ito.

The operations, which are being conducted by the municipality, included the removal of some graves of the Aoyama family, situated in the rear of the Anyoji temple. The work was being done by some Japanese in the presence of a representative of Viscount Aoyama, both of Tokyo, and under the direction of officers of the Aioibashi police. The graves were opened, belonging to old daimyo who were buried about two hundred years ago. The graves were of very elaborate construction, consisting of stone vaults with large coffins of Kusunoki wood, containing inner coffins of earthenware.

On the spaces between the walls and the wooden coffins, opened those present were surprised to see that the bodies were in a state of perfect preservation, having all the appearance of wax figures. The old Japanese lords lay in almost life-like attitudes, dressed in the picturesque costume of an earlier day. Several valuable personal belongings were also found in the graves, including two long swords, women's head ornaments, boxes for pocket stones, gold family seals, writing brushes, etc. The bodies were subsequently interred in temporary graves in the temple grounds during the completion of permanent graves, which are under construction close by. The Aoyama family have consented to the remains being kept as curiosities in the temple.

First Lightning Rod.

Nearly everybody believes that Benjamin Franklin was the inventor and constructor of the first lightning rod. In this particular they are mistaken, as the first lightning catcher was invented by a poor monk of Bohemia, who put up the first lightning rod on the palace of the curator of Prederic, May 4, June 15, 1754. The apparatus was composed of a pole surmounted by an iron rod supporting 12 curved branches and terminating in as many metallic boxes filled with iron ore. The entire system of wires was united to the earth by a chain. The enemies of the inventor, jealous of his success, excited the peasants of the locality against him and under the pretext that his lightning rod was the cause of the excessive dry weather had it taken down and the inventor imprisoned.

"IMPOSSIBLE TO HELP MY KIDNEYS"

Until I Used "Fruit-a-tives" Worlds Greatest Kidney Cure

Practically everybody in Toronto knows Professor J. F. Davis. For years, the elite of that city has taken lessons from Prof. Davis in the art of Dancing and Deportment.

His constant activity gradually weakened his Kidneys, which calamity threatened to make him an invalid.

But read Prof. Davis' letter—

563 CHURCH ST., TORONTO, ONT. DECEMBER 29th, 1911

"I want to say that "Fruit-a-tives" is my only medicine, and has been for the past five years. Previous to that, I had been troubled with Rheumatism and Kidney Disease, and had taken many remedies without satisfactory results. Noticing the advertisements of "Fruit-a-tives", I adopted this treatment altogether, and as everyone knows, I am now—and have been since taking "Fruit-a-tives"—enjoying the best of health".

J. F. DAVIS.

If Rheumatism or Kidney Trouble is making you miserable, take "Fruit-a-tives" and get well.

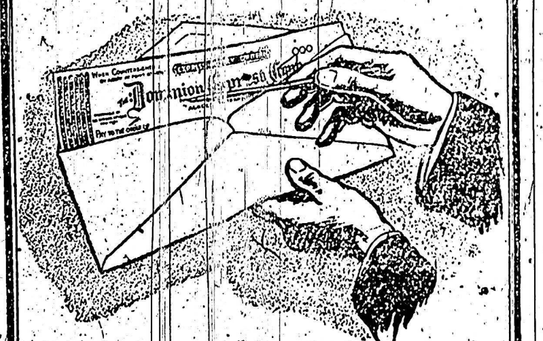
Somebody Had to Say It.

"The Pullman Company announces that it made $10,000,000 last year," said the Old Fogy.

"If that's the case the Pullman porters must have made $10,000,000," commented the Grouch.

A married man is never at a loss to know what to do with his money. Uncle John—Sammy, if you could have your way, who would you rather be than anybody else? Sammy—Just me—as I could always have my way.



Ask Any Express Agent—

You'll be met with a prompt and courteous explanation of why an Express Order is the safe and simple way to send money by mail. The sands of dollars go astray annually by carelessness in remitting money. When a few cents for an Express Order will safeguard and ensure the safe delivery of your remittance, isn't it, to put implicit but poor judgment not to use them?

Your local agent will show you how easy it is to obtain an Express Order. The security of your money is absolutely guaranteed when you remit by
