**HOW HOLY CITY IS RUN.**

Governor of Province  
Mayor of Municipal  
City.

The Jerusalem municipality is composed of ten members, half of whom are chosen every two years from the town of office being for four years. From these ten, the Governor of the Province of Jerusalem chooses one to be president or mayor. This president is the only member receiving a salary, which is about \$84 a month. The members of the municipal Council are compensated by the municipality by the whole city, but are proportioned in accordance with their different vocations and religions. Their duties are largely advisory, but presidents exercising most of the power. All property subjects own who vote for the commissioners. The municipality does not consist itself with schools, courts, post offices, (these are provided by the government) or the provinces of Jerusalem; its principal functions being the care, repair, lighting and cleaning of the streets, sanitary and quarantine inspection and over-lighting, including the public cemetery house, the maintenance of the petroleum storage warehouses and a municipal hospital and other public institutions, market regulations, etc. As the total budget is under \$50,000 for a city of about 10,000, it will be seen that the provincial government handles most of the more important departments.

Entertainments of the Season.

We have got this story, sent by the English Telegraph, by its Paris correspondent, is fact or fiction? Orient, that every one considers it ought to be the Sultan of Turkey gave for the mobilization of his forces sent to the King of Bulgaria, a sack of miltlet with the following letter:

Beloved Friend! Mobilize if you like, but be assured that there are many soldiers in Turkey as good as any in the world. If you wish, declare war.

Edmund's reply was kind. He sent much smaller sack, filled with tiny grains of miltlet, to the Englishman, who said we use it as a powder to clean and polish our boots.

Beloved Sultan! The Bulgarians are so poor, it is time but he would not think you would use it to make us like so many miltlets. Try it out. Then will bring you some grain for the whole of Asia will be to save you.

It goes.

Now, I send you a few boxes of my new invention school chalk, which makes a white chalk.
