Presbyterians and World Peace

The Presbytery of Vancouver has taken the first step toward enlisting the active support of the Presbyterian Church in Canada for the cause of world peace. On the motion of Rev. John Mackay, D.D., Principal of Westminster Hall, the Presbytery adopted unanimously the following resolution and caused copies to be transmitted to Premier Borden and Sir Wilfrid Laurier and also to the other Presbyterians of the church throughout Canada—

PEACE MANIFESTO.

Whereas the Parliament of Canada is soon to decide its attitude to martial armaments; and

Whereas there is a growing opinion among thinking men that war between civilized peoples is a relic of barbarism, it is absurdly out of place in the twentieth century; and

Whereas the loss of life and physical suffering entailed by war falls largely upon the producing classes, and the resulting sorrow and bitter struggle for existence upon their wives and helpless children; and

Whereas the immediate duty of civilized nations is to right the wrongs of the vast numbers who are handicapped by poverty and harsh economic conditions; and

Whereas the immense sums now being spent on armaments would vastly lessen the poverty of the civilized world; and

Whereas the development of the United States has made possible by drawing upon the populations of all sections of Europe, and the development of Canada dependent upon her ability to draw largely upon the same sources; and

Whereas because of the complete interdependence of the world's financial and commercial centres, a great European war would produce partial industrial paralysis in the United States and Canada, with attendant frightful loss and suffering;

Therefore, we believe that the time has come in the history of Christian civilization when a serious inquiry should be made by the nations of the world as to the necessity of war. In order to secure this inquiry we suggest the following resolution to be carried by the Parliament of Canada now in session—

(1) That both parties write in a declaration which will make it quite clear to all the world that while Great Britain should exhaust every possibility in order to avoid the awful catastrophe of a European war, yet should such a war result, Canada is ready to stand or fall with the Empire.

(2) That the Parliament of Canada should approach the President and Congress of the United States, looking toward joint action in making overtures to the European nations, to call at once a Council of their representatives to consider seriously their international relations. This council should proceed with an exhaustive investigation of the causes of the present situation, and should honestly and earnestly seek to find some method of adjusting international differences more in harmony with the spirit of modern civilization and recognizing the fact that the ties that bind all peoples into a world family are now so many and so intricate that no nation can even prepare for the possibility of seriously affecting others. The refusal of any European nation to enter such a conference, being an unfriendly act, may be followed by economic penalties, such as the surtax on its commerce with the United States and Canada.

(3) That it be arranged by the United States and Canada that as soon as an understanding has been arrived at between European powers, they will call a Council representing the world's powers to establish a permanent court for the settlement of international disputes by reason and righteousness, and not by blind passion and brute force.

NOTICE.
Having disposed of my business I hereby ask all who are indebted to me to call at the store and pay same at once, as I leave here the 7th March when uncollected accounts will be placed with McCullough & Young for collection.
