

The Blue Serge Suit

There is no line of garments in the clothing trade which receives the same attention—both from customer and dealer—as the Indigo Blue Serge Suit. It is always in demand.

Most men realize that they look their best in blue, and if it is a well tailored garment the dealer knows that he has made a satisfied customer.

To make a long story short, it gives absolute satisfaction to all concerned. For this season I am offering three lines of exceptional value in Indigo Blue Serge Suits at \$12, \$15, \$18. Come in and see them.

Hearing the new Edison

Blue Amberol Records

is more convincing than hearing about them

In tone production lies the real test of any record. The Blue Amberol is the clearest, sweetest, most lifelike record that has yet been made.

But it is more. It is practically unbreakable. A fall from the table won't smash it. And it is so sturdy that the results of the thousandth time you play it are as perfect as the first.

Ask your dealer to let you hear them.

DURHAM

The By-Law authorizing the town to purchase the McTechnie planing mill property was voted on Monday last. Out of 170 votes cast, there were 161 for, and only 9 against the By-Law. The vote was small, but the opposition was even smaller than most people expected.—Chronicle.

Will Have A Company.—No. 4 Co. of the 31st Regt. will still be stationed in Durham, despite the reports a few weeks ago that it was to be transferred to Hanover, providing that at least a dozen volunteers can be recruited here. Hanover is to get one of the Owen Sound Companies. Mr. John McGinn has been appointed captain of the local Co. and will endeavor to enlist a good showing. We learn Messrs. Wm. McGowan and Jas. McLaughlin will likely go as lieutenants.—Review.

THORNBURY

Last year's freshet washed away the land at the North side of the spillway of the foundry dam, leaving the Planing Mill without power. The raceway from the flour mills empties into the river at this point and by a heat piece of work with little expense, Mr. Agnew has caught the water and turned it in the cellar at J. E. Richards' store causing considerable smoke and excitement but little damage was done. How the fire originated is not known.

Miss Mattie McCauley, to whom we referred last week as having been seriously injured by an auto in Toronto, died in the General Hospital there on Friday last. An inquest was held on Saturday and the driver of the automobile was exonerated from all blame. The remains were brought here on the noon train Monday and were then taken to the home of her sister, Mrs. Gilbert Gillies of Gidale. The funeral was held Tuesday afternoon to Salem church cemetery. The deceased, who was 29 years of age, was a daughter of Mr. Thomas McCauley of Walpole, Saks.

A quiet wedding took place on Wednesday, April 30th, at 4:30 p.m. at the home of Mr. Samuel Sheardown, east back line, Artiemesia, when his eldest daughter, Annie E., was united in the holy bonds of matrimony to Mr. John W. Haney. The marriage ceremony, performed under a canopy of evergreens, was conducted by Rev. Herbert Lee, of Dandalk. The wedding march was played by Miss Lydia L. Sheardown, sister of the bride. The bride, who was unattended, was given away by her father. She wore a becoming gown of white voile and lace trimmed with white satin, also the conventional veil and orange blossoms. After the ceremony a sumptuous repast was served. They will take up their residence on the groom's farm near Portlaw.—Herald.

SHELDBURNE

Three Ribs Broken.—Henry Matthews, youngest son of Mr. and Mrs. J. A. Matthews, north of town, had three ribs broken on Sunday last, by being squeezed against the wall by one of the cattle he was tending in the stall. Dr. H. D. Thompson attended to his injuries.

S. T. Fennell, of Shelburne, is about to leave town. He has sold out his barbershop to John Stoddart, who took possession on Tuesday morning. Mr. Fennell has also sold his brick residence, on Elizabeth street, to R. B. Smith, butcher, who will get possession when Mr. Fennell leaves town. The price paid for the house, we understand, was in the neighborhood of \$2500. Mr. and Mrs. Fennell have resided here over 17 years and were good citizens.

Gypsies.—Eight wagon loads of Bulgarian gypsies passed through Shelburne on Friday afternoon. They remained in town for two hours, while the eight women and about twenty children visited the different business places. The women were anxious to tell fortunes, steal, it did not matter which. The children were begging and would also swipe anything they could get their hands on if not carefully watched. They were the most degraded and immoral aggregation that ever came through this country. The county and provincial authorities should look after them and see that they do not become a nuisance to the country. From the names painted on some of the wagons they evidently hail from Toronto.

MEAFORD

Councillor Long and his band of assistants cleaned out the tank on the hill in Meaford. It was none too soon, for besides other "things" two fish were found swimming around in it quite contented.

Mr. Jas. Cleland has returned from his trip to the West, and looks well after the journey. He saw considerable of the country, and many people who formerly lived in Meaford. He thinks the country all right, if the people do not go too fast. It may take some time for things to level up, then the country is sure to go ahead. He did well in his own business on the trip.

Fires destroyed the home and contents belonging to Mr. William Cook about 8.30 last evening and rendered the family homeless. The fire started from the furnace chimney; it is supposed, and gained such headway that it was impossible to save the building. Some of the contents were removed but the greater part fell a prey to the flames. Considerable trouble was experienced by the firemen in getting sufficient water and pressure to be of any use. The water tank on the hill had been cleaned during the afternoon and was only being refilled at the time the fire broke out. We understand the loss is fully covered by insurance.

Ever since the establishment of factories in Meaford there has been

THE MARKDALE STANDARD.

Canada Will Dominate America

Declares Sir Charles Tupper

The Veteran Statesman Discusses Various Topics While Passing Through Montreal.—Says the Question of Defence is One in Which Both Parties Should Be in Accord.

Sir Charles Tupper, Bart., the surviving Father of Confederation, and ex-Prime Minister of Canada, passed through Montreal en route to England. Hale and hearty despite his 92 years, all who met him expressed their wonder at his keen memory of faces, his lucid view of affairs and his up-to-date information.

During his stay in Montreal he never left his private car, but was delighted to talk with those around him, showing himself not only to be teeming with rich men-

fifteen million negroes increasing rapidly.

Canada Ahead of United States.

"Then you take the soil. You would not have hundreds of thousands of Americans selling their farms and becoming citizens of Canada if the soil in that country was equal to that of Canada. It is because they can grow twice as much wheat on an acre in Canada as in the United States."

"Again, you take the question of coal. Canada has boundless fields of coal, both the Atlantic and the Pacific coasts, and we have hardly begun to discuss the coal of British Columbia, both in anthracite and bituminous qualities.

"One of the great factors of any country is its forest wealth. The United States are depleting their forests, while Canada has the most magnificent on the face of the globe. Under proper management, care and conservation, those forests will yield without any reduction.

"Take water power, which has now become one of the great factors of progress. They have no water power in the United States to compare with ours, and they are only too anxious to get ours. Take their fisheries. I remember that even with all their swordfish at the great international congress, they had to declare that our Atlantic fisheries were worth \$500,000,000 a year more than theirs. And that was leaving out the fisheries of the Pacific, those not under consideration.

"Take the relative immigration that is now coming into Canada. It is surpassing the United States. In fact, I know of no one quality that makes a country great in which Canada does not surpass the United States. If anyone can convince me to the contrary—I will not say that I will be glad to hear it—but I still recognize something that I do not now see. The most sanguine imagination cannot over-rate the progress of Canada."

A by-law prohibiting the sale of cigarettes has been passed at Niagara Falls.
