The Knife the Only Cure. It might be said that they are worse than useless, for the reason that a victim of cancer is apt to waste his time on drugs, and so permit the cancer to grow larger and more malignant until a cure by surgery is impossible. The most trustworthy statistics do not show that cancer is increasing with great rapidity. They indicate that the percentage of it is fairly constant. The fact that medicine and surgery have made great strides in recent years explains why more people live to what might be called the cancer age, and this is why more people are found to have cancer

The Ministry of Railways has is sued an order that women wearing such unprotected hat pins shall not be permitted to ride on the Austrian State railways until they have removed the perilous pin. The management of the Vienna municipal tramways has gone even further in directing tramear conductors to compel such offenders to leave the car immediately. If they refuse, the conductors will call in the police to remove them by force.
