OCTOBER

Riverview Tuesday forenoon, resulting in the death of an old resident in the person of Mr. Robert Nixon. The accident happened between 8 and 9 o'clock. Mr. Nixon was engaged drawing in grain, and was taking off the load with slings in the barn. He was in some way knocked off the rear of the wagon by a bundle on the slings, lighting on the barn door on his neck and shoulders with great force. When John McIntosh, who was working with him, reached him, he found that he was completely paralyzed from the neck down. Dr. Smith, who was at once summoned from Shelburne, found that his back had been broken high up between the shoulders. The injured man succumbed to his injuries about 9:30 p.m. He was conscious until nearly the last but had no control of any of his muscles. Deceased was in his 69th year. He is survived by a son and two daughters—J. E. Nixon, Lou-

Mr. and Mrs. Wm. Nelson, of Prescott, Arizona, are guests of Dr. and Mrs. McWilliam here this week. Mr. Nelson was one of the pioneer merchants in Dundalk and enjoyed the life in the early days. It is over thirty years since he was here last and he sees many changes and wonderful improvements in that time.

Mr. J. W. Blakiston, a former Principal of Dundalk Public school, but now teaching in Stratford, was in town the fore part of this week and many old friends enjoyed a hearty hand-shake and friendly greeting from Billy. Found Peat Deposit.—This last week a Government engineer has been camped in the swamps of Messrs. Geo. Staples and Jos. Firth on the 3rd con., Glenelg, with a view of discovering peat for fuel purposes. A deposit of good quality has been found, we learn but the acreage is small and scarcely will warrant further steps towards its use. The engineer left Friday.

Shoulder Torn.—While working at the spindle carver at the furniture factory on Tuesday Geo. Dann was rolling up his shirt sleeves, and backed up unaware against the machine, getting his arm and shoulder lacerated. Quite a number of stitches were required, but we are informed the wound is not serious, though he will be laid up for some time.—Review.

On Saturday evening last, while Mrs. and Mrs. James Tucker and daughter, of Egremont, were driving to town in a buggy, the horse took sudden "fright" at a gypsy camp alongside the road about a mile out of town. The horse became unmanageable, upset the buggy and pitched the occupants out on the hard road, inflicting serious injuries to Mrs. Tucker, whose leg was badly bruised and required medical attendance. Miss Tucker's knee was injured to some extent, but not seriously, and Mr. Tucker, who fared better than the others, escaped with slight injury to one of his arms.

The horse continued his race till stopped at the entrance to the town, this side of the C.P.R. bridge. The buggy and harness were badly used up, and other means had to be procured for the return trip. This is a case where, we think, the township council could be held responsible for allowing such an outfit to camp near a public highway.
