Your Oven Gains by Our Oven Test

Your oven becomes a certain producer of more bread and better bread.

We can promise that. For from each shipment of wheat delivered at our mills we take a ten pound sample. We grind it into flour. We bake the flour into bread.

If this bread is high in quality and large in quantity, we use the shipment. Otherwise we sell it.

The new rural mail delivery route (No. 4) between Dundalk, Shrigley and McIntyre started Tuesday, the courier being Thos. Hall, formerly of Hopeville. Malcolm McIntyre, who has had this route under the old system for a great many years, was a faithful and obliging servant of the Postal Department. He suffered a stroke of paralysis last spring and only recently was able to take his old route again with the assistance of his young any other occupation he loses his Government job by being under-bid on the new contract. He has not got rich in the Government employ but has merely made a living. A large number who know the circumstances sympathize with Mr. McIntyre. Frank Morlock is undoubtedly an unfortunate boy. A few months ago he broke a bone in his wrist while cranking his father's auto and on Friday he had the misfortune to have the accident repeated. This time it was caused by playing football at the High School when another boy jostled him and he was knocked over. The second fracture is on the bone adjoining the former break.
