THE HALF-SPEED MAN AND WOMAN

What It Means When You Feel "All Out of Sorts."

You know what it means to feel "all out of sorts." Most people have felt this way at some time. Nerves out of order, irritable, languid, despondent. An aching head, a jagged pain, appetite bad and digestion weak. With some people this condition comes and goes; with others it is chronic; they can't shake it off. It interferes with business, steals recreation and robs life of all joy. These men and women are only able to live and work at half speed."

Half-speed people have lost that abounding natural vitality which enables others to go "full-speed-ahead" through life. Their energy and nerve power have evaporated — they cannot work long without breaking down. The trouble is nerve weakness and is caused by poor, watery blood. You can begin to improve your condition to-day by taking Dr. Williams' Pink Pills. They make rich, red blood once more, pulse through your veins, and your nerves thrill with fresh vigor. Here is convincing evidence that new strength and full health can be had through the use of Dr. Williams' Pink Pills. Mr. Newton Mayhew, North Tryon, P. E. I., says: "I am a farmer and naturally have to work hard. The result was I found myself very much run down. My blood became thin and watery, and my muscles flabby. I took doctors' treatment, but it did not help me and I grew worse until I could scarcely work at all. At last I found the medicine that was helping me. I continued the use of Dr. Williams' Pink Pills and before I found the medicine was in a short time I felt like a new man. I am now in my old health and strength and always recommend Pink Pills to all sufferers."

Dr. Williams' Pink Pills are sold by all medicine dealers, or will be sent by mail, at 50 cents a box or six boxes for $2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

NOTHING TO WORRY ABOUT

Diameter of the Universe Is Fixed at 6,956,680,000,000 Miles.

The mysteries of the universe have been discovered, according to a paper read at the National Academy from Prof. R. T. A. Innes, director of the Union Observatory, Johannesburg, South Africa. The announcement is regarded with interest by astronomers all over the world.

The professor, Prof. Innes asserts, has found within the space girdled by the Milky Way, and he figures that the most distant star in that mighty girdle is 540 light years from the earth. Incidentally, the planetary system of which the earth is a member, is now supposed by astronomers to be close to the centre of the area encircled by the Milky Way, and which, light travels 186,000 miles a second, or over five and one-half quadrillion miles a year, the diameter of the universe, Prof. Innes calculates, is 6,956,680,000,000 miles. This is the distance light would travel in 1,473 years. A ray of light takes 16 minutes and 36 seconds to travel the diameter of the earth's orbit.

The so-called "helium stars," Prof. Innes says, astronomers regard as the most distant of all stars from the earth. The helium stars are peculiar to the Milky Way.

Is there anything outside the universe? On this point Prof. Innes refuses to venture a positive opinion, but he says that the most powerful telescope can penetrate far into space, beyond the boundaries of the universe, revealing nothing. In particular cases, there is absolutely no trace of other universes of similarly constituted stellar systems.

He points out beyond the universe, for instance, in South Africa is very clear, but his telescope discovers in those far-away depths of space some of those vague clouds called nebulae," which some astronomers suppose to be star-systems in process of formation. Many of these nebulae are spiral-looking, and the conjecture is that they are whirling around and around, condensing themselves into solid globes, on which life may later appear.

The number of stars, according to Prof. Innes, is limited, falling far short of the number of people on the earth. He estimates the mass of the universe as equal to 441,000 times the mass of the sun. That is to say, the combined mass of all the globes, big and little, in the universe is as heavy as 441,000 suns. Of stars 100 times as massive as the sun there are 300; of stars 10 times as massive as the sun there are 5,000; of stars equal in mass to the sun there are 200,000, and of stars smaller than the sun there are 16,000,000, 1,000,000 of which are one-tenth the mass of the sun, 5,000,000 are one one-hundredth of the sun's mass, and 10,000,000 are one one-thousandth of the sun's mass. There are, besides, small stars in scattered clusters equal in the aggregate to 1,000 times the sun's mass.

It is probable that a majority of the stars, he adds, have a greater surface brilliancy than the sun. Thus, as in the solar system, nearly all the mass is contained in a few bodies, the large majority contributing but slightly to the total. The stars are well mixed up as to sizes, small stars occurring where there are large ones, and large stars being found where small stars are numerous.

Prof. Innes' other conclusions are that there is no serious absorption of light in space, that it is improved that the sun and stars radiate into empty space, and that the existence of "dark" suns is quite without demonstration, not one being certainly known.

A Glad Consent.

"Do you consent to my marriage to Sam, father?"

"Yes, my daughter," said old Jacobs, "but I gan not let you leaf me. You are mine only child, and you and Samuel must lif ride here wid de old folks. You can haf that second storey front room for twenty dollars a week."

ILLS OF CHILDHOOD.

Every mother should be able to recognize the symptoms of the little ailments that attack her children. She should also be in a position to treat them promptly. To do this she should keep a supply of Baby's Own Tablets in the house at all times. The Tablets never fail to be of help to little ones. Mothers who are anxious for the welfare of her little ones will receive free for the asking a valuable little book on the care of infants and young children, concerning the Tablets. Mrs. G. L. Bonham, St. George, Ont., says: "I can recommend Baby's Own Tablets as a safe and sure medicine for little ones. I have raised four babies with their aid and would not be without them." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

FORESTS AND RAINFALL.

Rocky Mountain Forests Increase Rainfall of the Prairies.

It is commonly thought that the moisture which forms clouds and falls as rain is almost entirely due to evaporation from the ocean, but scientific investigations show that seven-ninths of the rain which falls over land areas is supplied by evaporation over such areas, the ocean supplying only two-ninths of such precipitation. Dr Raphael Zon, one of the foremost investigators in America, states that "the forest evaporates more water than any vegetable cover and much more than free water surfaces." In fact, it has been estimated by Dr. Fernow, of the University of Toronto Faculty of Forestry, that 75 per cent. of the rain-fall over forested areas is returned to the atmosphere as 'watery vapor,' which does much to increase the amount of moisture carried by air currents passing over such forests, says a Forestry Branch Bulletin.

In Canada, the prevailing winds blow from the west and the provinces of Alberta and Saskatchewan are largely dependent for their rain-fall on air-currents which come over the Rocky Mountains. It is a well-known fact that winds passing over high mountains become cooled to such an extent that they lose most of their moisture, which falls in the form of rain, and hence the land areas for many miles to the leeward of such mountains receive so little rain-fall that they are often arid. But if the leeward slopes of these mountains are covered with forests, as is the case in the Rocky Mountains, these forests will evaporate and render again available a large amount of the rainfall over these mountains, which might otherwise pass off through underground channels, and by reloading with moisture the winds blowing over the prairies, such forests make possible a much greater rainfall than might otherwise occur. Should the east slope of the Rocky Mountains become denuded of tree-growth, it is likely that much larger areas in Alberta and Saskatchewan would be arid than is now the case.

This is but one of the many reasons why the Dominion Government are preserving the forests on the east slope of the Rockies by the creation of a forest reserve now nearly 21,000 square miles in extent.

Income tax is levied in India on all incomes of $165 and upwards, and then only one man in 700 comes within its scope.

Toasted to a Golden Brown!

Sounds "smacking good," doesn't it?

That's

Post Toasties

Tender, thin bits of the best parts of Indian Corn, perfectly cooked at the factory, and ready to eat direct from the package — fresh, crisp and clean.

There's a delicate sweetness about "Toasties" that make them the favorite flaked cereal at thousands of breakfast tables daily.

Expected Death From Day to Day

Another Case Where Life Was Saved and Health Restored by Nerviline.

We have all read and heard of the agonies of sciatica, but only those who have been tortured by this dread malady can fully appreciate what it must mean to be cured after years of suffering.

It is because he feels it his solemn duty to tell to the world his faith in Nerviline that Victor P. Hires makes the following declaration. "For three years I was in the Royal Mail service, and in all kinds of weather had to meet the night trains. Dampness, cold, and exposure brought on sciatica that affected my left side. Sometimes an attack would come on that made me powerless to work. I was so nearly a complete cripple that I had to give up my job. I was in despair, completely cast down, because the money I had spent on trying to get well was wasted. I was speaking to my chemist one day, and he recommended 'Nerviline.' I had this good liniment rubbed on several times a day, and got relief. I continued this treatment four months and was cured. I have used all kinds of liniments, and can truthfully say that Nerviline is far stronger, more penetrating and infinitely better than anything else for relieving pain. I urge everyone with lumbago, neuralgia, rheumatism, or sciatica, to use Nerviline. I know it will cure them."

Get Nerviline to-day, large family size, 50c; trial size, 25c; all dealers or The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

French Sayings.

Devotion is the last love of women.—Saint-Evremond.

Love, that sometimes corrupts pure bodies, often purifies corrupt hearts.—Latena.

Women like brave men exceedingly, but audacious men still more.—Lemesles.

The whisper of a beautiful woman can be heard farther than the loudest call of duty.—Anonymous.

It's better to love to-day than to-morrow. To a pleasure postponed is a pleasure lost.—A. Ricard.

There are beautiful flowers that are scentless, and beautiful women that are unlovable.—Houelle.

We meet in society many attractive women whom we would fear to make our wives.—D'Harleville.

The heart of a woman never grows old; when it has ceased to love, it has ceased to live.—Rochepedre.

Lovers have in their language an infinite number of words in which each syllable is a caress.—Rochepedre.

Before promising a woman to love only her, one should have seen them all, or should see only her.—A. Dupuy.

We need the friendship of a man in great trials; of a woman in the affairs of every-day life.—A. L. Thomas.

Sneaky.

Lawyer—He's a sneaky sort of man, you say. What do you mean by that?

Witness—Well, sor, he's the sort of man that'll never look ye straight in the face until yer back's turned.

Offensive Breath Caused Usually By Catarrh

A Simple Remedy Discovered That Cures Without Drugs.

The American people suffer more from Catarrh than from any other disease. It undermines more constitutions and creates more sickness than all other diseases combined. It is, therefore, very dangerous.

You can't successfully treat Catarrh by internal dosing—you must in some way send a purifying, healing agent through the breathing organs, so that the germs can be reached. This you do every time you inhale Catarrhozone. It's rich essences and healing balsams are breathed all through the nose, throat and lungs, and effectively destroy every trace of Catarrh. This is a proven fact.

I endorse Catarrhozone because I know of six bad cases of Catarrh, including my own, that it has cured. It is a sensible remedy because it is capable of going where the disease is. I believe it cures quicker than other remedies because it gets sooner to the source of the disease than anything else I know of. I had headaches, bad breath, and much stomach trouble associated with my Catarrh, but they have disappeared since using Catarrhozone, which keeps me free from colds, headaches, catarrh and all winter ills." OTTO E. KRAMER, Belleville, Ont.

Catarrhozone is needed in every home. Large size lasts 2 months, price $1.00; small size, 50c; trial size, 25c. At all storekeepers and druggists or The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

"I hear that the Allens are separated," said Mrs. Arnold to her husband. "Yes," replied Mr. Arnold; "and after the separation he sent her a legal document, giving her control of their child." "Oh, James," said the wife, with a sigh, "I wish we could get a document that would give us control of our children."

Minard's Liniment Co., Limited.

Gentlemen,—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal.

I would not start on a voyage without it, if it cost a dollar a bottle.

CAPT. F. E. DESJARDIN, Schr. "Storke," St. Andre, Kamouraska.

Ignorance at the right time is better than knowledge at the wrong time.

LIQUID SULPHUR is a disinfectant.

UP-TO-DATE BATTLESHIP.

H.M.S. Queen Elizabeth Is the First Oil-Burning Warship.

H.M.S. Queen Elizabeth, the supership of the British navy, is the largest British battleship ever launched. Her design embodies some striking new features which make her the most up-to-date warship in the world.

She will, for example, be the first vessel to be armed to fight aircraft (a battery of specially designed guns are given her for this purpose) and to be protected against them as well, for in action all her crew will be under cover of a central battery, which gives overhead protection from dropping bombs, as well as side protection against gunfire.

Again, she will be the first ship to mount the new 15 inch guns, of which she is to carry four pairs. The offensive power of this weapon is enormous.

Her torpedoes, fired from four tubes, will be of the latest twenty-one inch pattern. Heated air propels them, and they have a long effective range, with double the speed of the older weapons. For speed and accuracy, in fact, there is no torpedo in existence like them.

She will burn oil fuel only, being the first battleship in the world to do this. It is anticipated that oil alone will enable her to maintain a steady twenty-eight knots per hour without any of the falling off and spurting up again that occurs in coal-burning ships.

ARE HARD TIMES COMING?

Yes, for the man that wears tight boots, but his corns are relieved quickly by Putnam's Corn Extractor. No pain, and certain cure. That's Putnam's. Use no other. 25c. at all dealers.

What She Said.

A gentleman who had been in the city only three days, but who had been paying attention to a prominent belle, wanted to propose, but was afraid he would be thought too hasty. He delicately approached the subject as follows:—"If I were to speak to you of marriage after having only made your acquaintance three days ago what would you say to it?" "Well, I should say never put off till to-morrow that which you should have done the day before yesterday."

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue *from below* is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Why is a merry fellow like a bad shot? Because he's the boy to keep the game alive.

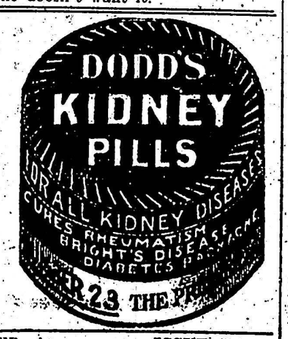
Motherly Instinct.

Matron—Baby is crying, Mary. I expect he wants his bottle.

Mary—I just give it to 'im, mum.

Matron—Did you? Then I expect he doesn't want it.



MIXED METAPHORS.

Eminent British Statesmen and Politicians Make Them.

In the palmy days of spread-eagle oratory, when language was far more flowery and figurative than it is now, it took a cool head behind a vehement manner to steer a safe course among similes and metaphors. Absurdities were frequent, and laughter marred many a peroration; yet, carried along by the speaker's earnestness and fire in delivery, the most wildly ridiculous metaphors often passed unnoticed. At a memorial meeting in honor of one of the most famous of American orators—Wendell Phillips—a magniloquent speaker referred to the spirits of the great departed, which, on leaving this earth, "wend each its way, swifter than a winged eagle, loftier than a soaring falcon—sweeping across the mighty spaces of the heavens as a glorious comet sweep, rushing ever onward, forward and upward, to its goal in Abraham's bosom!"

Oratory of that type—even without the mixed metaphor—is a rare survival from the fashion of an earlier time. Eloquence is more restrained and less ornate nowadays. Yet even in the simpler style of our own time, public speakers of experience, as well as blunderers and beginners, occasionally slip up on their metaphors. Any schoolboy could correct the errors that some wide-awake English reporter has noted in the recent speeches of eminent British statesmen and politicians.

"We are told," said Mr. Walter Long, in a debate on an education bill, "that by such legislation the very heart of the country has been shaken to its uttermost foundations."

Mr. St. John Brodrick, in the House of Commons, talking of the mobilization of troops, declared that "among the many jarring notes heard in this House on military affairs, this subject at least must be regarded as an oasis."

Mr. Asquith, the premier, did better. He said that "redistribution is a thorny subject, which requires delicate handling or it will tread on some people's toes"; and it was Lord Curzon of Keddleston, former Viceroy of India, who declared optimistically:

"Though we are not out of the wood, we have a good ship."

Pointed Paragraphs.

Nearly every man is true to his first love—himself.

An optimist is a man who lays up a little sunshine for a rainy day.

Some women are self-made, but most of them are remodeled by dressmakers.

It is better for a girl to be given in marriage than it is for a man to be sold.

Many a timid girl courts death by making love to a rich old codger who has one foot already in the grave.

It's difficult for a newly married man to generate much enthusiasm over his bride's beautiful hair after he has seen her pile it on the bureau for the night.

LIQUID SULPHUR cures rough skin.

Bloohumper—"After all beauty is only skin deep." Spatts—"In many cases it is not so deep as that. It is often laid on the skin's surface."

Minard's Liniment Cures Diphtheria.

Getting a Verdict.

We could have settled our difficulties by tossing a coin. Instead we spent a lot of money in going to law."

"Well?"

"I understand the jury settled the matter by tossing a coin."

Fooling Baby.

Mrs. Jones—"Why are you setting the alarm for 2.30? You surely don't want to get up at that time?"

Jones—"No; I'd like to go to sleep at that time. When the baby hears that he may think it's time for him to turn in."

LIQUID SULPHUR cures itching piles.

PRESERVE BABY'S SKIN

With CUTICURA SOAP

Assisted when necessary by Cuticura Ointment. They keep the skin and scalp clean and clear, sweet and healthy, besides soothing irritations which often prevent sleep and if neglected become chronic disfigurements.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 32-page booklet on the care and treatment of the skin and scalp, sent post-free. Address Potter Drug & Chem. Corp., Dept. 3K, Boston, U. S. A.

By The Stems.

Henry was very proud of the new kittens and went for them to show them to visitors. His mother heard him coming along the hall and alarmed at the noise of the procession, called out: "Don't hurt the kittens, Henry."

"No, mother," came the reassuring answer. "I'm carrying them very carefully by the stems."

Not Responsible.

"Ellen, I'm tired of your neglect and carelessness. Just look at all that dust lying about on the furniture. It's six weeks old at the very least."

"Then, it's no fault of mine. You know very well, ma'am, that I've been with you only four weeks."

Minard's Liniment Cures Colds, &c.

Friend—"Were you smitten by your wife before you married her?" Pennhecker—"Yes, but not half as much as I have been since."

USE LIQUID SULPHUR IN YOUR BATH.

The eventless time is the happy time, but we do not realize that till we have had the exciting experiences which break us.
