Kumfort Overshoes

Rubbers and Overstockings in One.

Easy to put on and take off. Fits well. Keeps your feet warm. All sizes for men, women and children.

Buy them and you will never get cold feet again.

Canadian Rubber & Shoe Co. Limited, Toronto.

THE MORMON PRESIDENT.

Edwin J. Wood Controls the Life of 7,000 People in Canada.

One of the most popular men in Southern Alberta is Edwin J. Wood, president of the Mormon Church in Canada. While Mr. Wood is greatly attached to his church, he is nevertheless broad enough to believe in tolerance to all denominations holding religious worship in the confines of the large stretch of country which the Mormon people have taken over to themselves.

It is now 26 years since Mormon settlements of Southern Alberta began. In that year Charles Ora Card, after whom Cardston, the Temple City of Alberta, came with a dozen Mormons and settled along the St. Mary's River in Southern Alberta. This was the nucleus of the 7,000 Mormons to be found in Canada to-day.

President Wood has entire control of this Mormon population insofar as their relation to the church is concerned, and relation to the Mormon Church means business, social and religious affiliation. Everything the Mormon does is controlled by the church. His business

CANADA HAS LOTS OF MONEY

Government Has \$98,500,000 Stored Away in the Vaults.

A despatch from Ottawa says: A book of gilded figures has made its annual appearance as the "Public Accounts" report. The book tells how many dollars there were in the Dominion treasury at the close of the fiscal year. It tells how many dollars were made by the mint, how much Finance Minister White borrowed, and how much was spent. Among other interesting items in the book is the issue of Dominion notes. The total issue for the year was \$39,749,000, which is seven millions less than the year before. A good deal of cleaning up was done, over thirty-three millions being retired and destroyed, or more than twice as much as the year previous.

The largest bill printed for general circulation is \$1,000. The demand for them was much reduced, two million dollars worth having been issued in 1912 and only a million dollars last year. The coin-factory had a busy year, stamping King George on silver and bronze the value of about a million and a half dollars. Gold coin was made to about the same amount.

In spite of hard times there is a good deal of money around Canada, even if not much of it is loose. At the close of the year there were bills out to the value of over a hundred and twelve million dollars.

In gold the Government had locked up ninety-eight and a half millions. It is of some interest to observe that of this 93 millions are in Canadian coin, and only a little over four and a half millions in British.

Though Canada kept American gold, it sent back American silver to the face value of six millions and spent 43 thousand dollars to do it.

FORTY-FOURTH ANNUAL STATEMENT

The Royal Bank of Canada

LIABILITIES	
Notes of the Bank in circulation	\$13,176,634 89
Deposits bearing interest, including interest accrued to date	\$101,900,790 87

Written Off Bank Premises Account	250,000 00
Balance of Profit and Loss carried forward	1,015,119 58

Doings in Europe.

Germany Warned of French Peril.

Formerly German ambassador to London, Lord Curzon, in a speech at the House of Commons, today, warned the House that Germany was in a position to maintain its power in Europe, and that it was a matter of time before it would be able to do so. He said that Germany was in a position to maintain its power in Europe, and that it was a matter of time before it would be able to do so.

A Woman Aged 120 Years.

Madame Stange, a "young girl" of the village of Darmstadt, Germany, is reported to be 120 years old. She is said to be in good health and is still able to do her own work.

Quebec's New License Law.

Close Bars on Dominion and Labor Days—No C.O.D. Deliveries.

A despatch from Quebec says: Further details of the bill to amend the liquor license law indicate that the Government will go to greater lengths than at first stated. The proposals include: The bars shall remain closed on Dominion and Labor Days, and there shall be no delivery of liquor after closing hours, that is, stores after eleven o'clock p.m. week days and seven o'clock Saturdays will be prohibited from delivering orders even if they were placed before closing hours. Another clause provides that liquor shall not be sold C.O.D. This will, to some extent, eliminate telephone orders. Another striking clause prohibits statements in advertisements published in periodicals of any kind which claim that the liquor advertised is "beneficial to health or mind." The same applies to illustrations.

The Government has not in the course of its temperance programme forgotten to look towards the transfer of club licenses that twenty per cent. of the transfer price shall go to the Government and another clause provides that license holders operating open bars shall pay 5 per cent. more than those operating under the European style of tabs. This is to encourage the elimination of the bar. The Government also defines what liquor is by stating that "anything with more than two and a half per cent. of spirits shall be classed as liquor."

Luck in Store for Policemen.

The President of France has had his microscope drawn up for him by no less than the Astronomical Society of France. Caproni is in the ascendant, which does not mean, however, that the president and his cabinet are in a position to do anything.

Diplomatic Drama.

Involving a diplomatic crisis in the case of all intervention or sale of alcoholic liquor is forbidden by law. It is some time since the law has been in operation, and no one has complained about it except the foreign consuls, who do not see why they should be prevented from indulging in a moderate amount of alcohol.

Look at the tongue, mother!

If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhoea, full of colic, give a teaspoonful of "California Syrup of Figs," and in a few hours all the food, constipated waste, undigested food, and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

President E. J. Wood.

is better known by the president than by his bankers. His goods are the church's if the church wishes to use them. Over matters of this kind Mr. Wood has direct jurisdiction.

When the church undertook to purchase the old Cochrane ranch in Southern Alberta, it was Mr. Wood who did the business for his organization. Some 65,000 acres were involved in the deal, and the Canadian president has had the selling of this tract in small parcels to Mormon people from Utah and other Mormon colonies.

Edwin J. Wood is also the stockman of the church. When the large tract of land was purchased a number of cattle went with it. The herd has now increased to several thousand, and those this man has under control. He sells to whom he pleases: No one in Canada asks where the money goes. No good Mormon dare doubt the integrity of a President Wood.

The responsibility of finding material for a \$300,000 temple is now engaging the attention of Mr. Wood. The new structure is to be at Cardston in Southern Alberta, and it will be the first on British soil. Marble will be secured; arrangements made for hauling material, workmen employed, and a thousand other things to engage his attention.

A Mormon president does not receive any salary. President Wood is supposed to do all his gratis. He is a man of considerable wealth, amassed probably before his appointment to the presidency, and can afford to give the time.

It has been said that his wives number more than one. This has been disproved on several occasions. Mr. Wood, however, believes in the principle of polygamy, although he advises his people to refrain from the practice because of the law of the land forbids it.

TWO YEARS' IMPRISONMENT.

Ottawa Hackman Sentenced for White Slavery.

A despatch from Ottawa says: Napoleon Proulx, a local hackman, has the doubtful distinction of being the first victim of the white slave act in this city. On Thursday the Deputy Magistrate sentenced Proulx to two years in prison for information supplied by Inspector McLaughlin, Chief of the Morality Squad.

THICK GLOSSY HAIR

FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a permanent and itching of the scalp; the hair roots flake, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Kioval's Danderine from any drug store and just try it.

THIRTY THOUSAND IDIOTS.

Horde of Feeble-Minded Need Care in the State of New York.

A despatch from Albany, N.Y., says: There are thirty thousand idiots and feeble-minded persons in the State of New York who should be cared for in public institutions, but accommodations for only 4,000 are provided. This is the statement of the Board of Charities. Recommendation is made that more institutions be added and that the construction work on those now being built be expedited.

PATNETIC BEREAVEMENT.

Six Weeks Before Farmer Could Bury His Wife.

A despatch from Kenora, Ont., says: Frank Cutler, a farmer at Falcon Island, forty-five miles from here, on the Lake of the Woods, arrived here on Thursday with the body of his wife, who had died during child-birth on the 5th of November. Owing to the freeze-up of the lake then he was unable to come to town, not having a power boat, and until the ice had formed he could not travel. Besides the infant six or eight young children are left, and during his absence are being cared for by a neighbor.

SOUR, ACID STOMACHS, GASES OR INDIGESTION

Each "Pape's Diapensa" digests 3000 grains food, ending all stomach misery in five minutes.

Time! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eruptions of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapensa is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach remedy in the whole world and besides it is a tonic and a stimulant to the stomach. It is a trouble forever for the stomach.

Pape's Diapensa is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach remedy in the whole world and besides it is a tonic and a stimulant to the stomach. It is a trouble forever for the stomach.

TWO MEN DROWNED.

Broke Through Ice While Going for Supplies.

A despatch from Kingston says: Pushing a trap boat across thin ice on the Rideau Canal near Cusheon, eight miles from Kingston, cost the lives of Sunday-afternoon of two men, George Anderson, aged 45, and Russell Weir, aged 21, son of John Weir, both living at Cusheon. Charles Gray, aged 45, also of Cusheon, had a very narrow escape. The three men were pushing the boat across the canal from Cusheon with some supplies when the accident occurred.

CONDUCTOR LOSTS HAND.

Out-Hand Run Over.

A despatch from Belleville says: Mr. Mason Smith, a G.T.R. freight conductor of this city, had the misfortune to lose his left hand at the wrist by an accident at Napanee on Thursday morning. He attempted to board a moving car by seizing the side bar, which pulled out of the wood and his hand fell on the track; before he could move the wheel had run over it. He was given treatment at Napanee and later brought to Belleville Hospital. The hand had to be amputated.

A federal fruit commission is to be appointed shortly by the Department of Agriculture. The prices of meat and poultry, it is stated, are 100 per cent. more than during the decade 1900-10.

GREAT FIRE AT NAVY YARD.

Portsmouth Yard Is Considerably Damaged.

A despatch from Portsmouth, England, says: A fire involving damage variously estimated at from \$1,250,000 to \$2,500,000 devastated the famous dockyard there on Saturday night, and resulted in the loss of two lives and the destruction of the century-old semaphore tower, which in the pre-telegraph days was the great signalling station between the fleet and the Admiralty. An examination of the ruins on Sunday disclosed the fact that two of the three signalmen who had remained in the tower to summon help when the fire broke out were burned to death. The third managed to make his escape through the smoke and flames to an adjoining roof and there fell unconscious. He was subsequently rescued.

BETTER TRAIN SERVICE.

Connection With Steamers of Halifax Will Be Improved.

A despatch from Halifax, N.S., says: The Halifax Board of Trade has received a telegram from M. M. Bosworth, vice-president of the C.P.R., stating that the Intercolonial authorities have taken steps to remove the dissatisfaction that his company has had in connection with the train facilities at Halifax on the arrival of the Empress steamers.

C.N.R. TRAIN DITCHED.

Three Coaches and All Hand Gear Destroyed.

A despatch from Lorette, Manitoba, says: The C.N.R. train from Duluth and York Millard was derailed here on Sunday and five coaches and a baggage and dining car overturned in the ditch. The wreckage caught fire, but the two hundred passengers escaped through windows, sprang and jumped, and piled up in a pile of flames. A relief train from Winnipeg arrived here on Sunday night with the passengers. A bro-

10 CENT "CIGARETTES"

IF BILLIONS OR COSTIVE

For Sick Headaches, Stomach Troubles, Stuffed Bowels, and Constipation.

Personal Hygiene is the key to health. A healthy body is a happy body. The work of the alimentary canal is a most important one. It makes a severe strain on the man who works in a hot studio, who perhaps sits at once and catches cold. This and the influenza called for by the influenza virus, render it impossible for a man to do his work. It is usually drifted to the most serious sort of work in the life of a man.

COUNTERFEITERS ARRESTED

Inspector Parkinson, of Secret Service, Makes Round-Up Near Joliette, Quebec.

A despatch from Montreal says: After a search lasting several months, in which time he traversed the Dominion from coast to coast, Inspector Parkinson of the Canadian Secret Service, has located a counterfeiters' den, from which he thinks a flood of bogus \$10 and \$100 United States bills have been issued. The plant was located near Joliette, Que. Complaints about the bogus bills were received by the Canadian treasury department at Ottawa from Toronto, Ottawa, Hamilton and most of the other big cities in Canada. Montreal appearing to be the dis-

The Duties and Responsibilities of a Football Player.

Who Deal With Diamonds.

Would you like to try with a diamond? Then you should know that the diamond-cutting costs \$200; the diamond itself costs \$100; and the diamond cutter costs \$100. The diamond cutter is a man who has spent his life in the diamond business. He has learned the art of cutting diamonds from his father, who learned it from his grandfather, who learned it from his great-grandfather. The diamond cutter is a man who has spent his life in the diamond business. He has learned the art of cutting diamonds from his father, who learned it from his grandfather, who learned it from his great-grandfather.

The Vanishing Stone.

An Indian rajah had sent to the firm to be cut and polished a ring for his bride. The value of the stone was \$50,000. The stone duly arrived at the head of the firm, having been brought out to exhibit to the government of the firm. The head of the firm then told the rajah to start work on the stone, but the stone would not be cut. The rajah was very angry and he sent the stone back to the firm. The firm was very angry and they sent the stone back to the rajah. The rajah was very angry and he sent the stone back to the firm. The firm was very angry and they sent the stone back to the rajah. The rajah was very angry and he sent the stone back to the firm. The firm was very angry and they sent the stone back to the rajah.

NIKADO'S UNIQUE OIL.

Claimed To Be Over 100 Years Old.

A curious, lump, said to be a thousand years old, was found in the ruins of an ancient city. The lump was found in a hole in the wall of a building. The lump was found in a hole in the wall of a building. The lump was found in a hole in the wall of a building. The lump was found in a hole in the wall of a building.
