Excavators in Jerusalem Uncovey Its Foundations.

News of the finding of the foundations of the Tower of Siloam have been received. This was the tower concerning which Jesus is quoted in Luke xiii., 4, as saying: "Those leighteen upon whom the tower in Siloam fell and slew, think ye that they were sinners above all men

message, have discovered a long, well-cut Greek inscription, which speaks of the presbyters and fathers with Simonides, laying the foundation of the synagogue, the baths and caravansary. Those baths and the foundations of the synagogue are exposed. They have found the base of a circular tower which may well be that of the Towor of Silcam; spoken of by Christ. They have found also a conduit leading from the spring. That seen by Schinck in the nineties, wrongly thought to have been the oldest, is now shown to be above the spring.'

A man at a wedding the other day was telling everybody; in a very loud voice, that a good wife was capable of turning this gloomy earth into a joyous heaven. "A good wife can make a veritable angel of a man," he declared. "You're quite right there," one of the mar-ried men exclaimed; "mine came near to making one of me with he

National Drug and Chem-Ical Co. of Canada, Limited. PEET HEAVIER WHEN ASLEEP Head is Lighter and Feet Much Heavier on Awakening.

You often hear a person complain of his head feeling "heavy" after a ong sleep. As a matter of fact, his head is considerably lighter and his legs and feet just that much heavier when he gets up than when he goes to bed.

Experiments have shown that a man goes to sleep on a bed su pended exactly at middle point his weight his head begins to ti slowly up and his feet go down. This is due to the fact that when we The moment the brain wakes to life Another of the curious facts

brought to light by the scientists time be safely in the land of Nod It seems hard or impossible to

decide what part of the brain really does sleep. Our sense of time, for instance, is stronger when we sleep than when we are awake. Experiments conducted some years ago on a number of men and women between the ages of twenty and thirty showed that 60 per cent. of them were able to wake up in the cided upon the night before. As some one has aptly expressed it the resolve seems to wind up some thing in the subconscious brain, and when the hour has arrived this something gives in some mysterious Observations of Italian Army Doc- way the alarm and the eyelida open. Another curious fact about

HEAD, NECK AND

n Little Blotches. Scratching Caused It to Spread. Hands Had to Be Tied. Cried Day and Night. Cuticura Soap and Ointment Cured.

Enniskillen, N. B. - "The trouble started when my baby was four months old. Her read, neck and shoulders were a mass of ores. They broke out at first in little plotches, only watery, which the child scratched and caused to spread and form mass of sores. . Her hands had to be tied to keep her from scratching the sores. The eczema caused her to itch and burn and to be cross and peevish. She was disfigured for the time she had it. She cried day and light from the irritation. Neighbors said she would never be cured.

"She was given some medicine to take awardly but without success. Then a riend told me to try Cuticura Soap and Dintment which I did. I washed the child vith Cuticura Soap, dried well, then applied the Cuticura Ointment every day and in a week's time the burning sensation left, the child scratched no more, and when sh was eleven months old she was completely cured.\* (Signed) Mrs. John J. McCann, Nov. 27, 1912.

Although the Cutleura Soap and Ointment are most successful in the treatment of affections of the skin, scalp, hair and hands, use in the tollet, bath and nursery they promote and maintain the health of the skin and hair from infancy to age. DEAF AND DUMB CLUB.

London Has One of Nearly Two Hundred Members.

One of the most unique clubs in the world is the National Deaf Club of London. Nearly 20 members are enrolled, and they can dine and wine and play cards and billiards at the clubhouse whenever they desire. Women are admitted, and it is said that at the present time they form about a third of the member-

There are a talkative waiters employed by this club, says The Chicago Tribane. There are no. electric bells, no large print notices. to observe silence in this or Ithat room. Bell's being unnecessary, signs are resorted to. Thus, when one presses the bell of the hall door a red light appears over the door way and brings an attendant at once. A similar arrangement notifics the waiter when his services are required..

Those fortunate persons who can speak and hear and who have been privileged to watch a game of billiands at this clubhouse declare that t is more than a relief to see a con test where neither party voices his grievances as he goes along. There ire no criticisms of the table, the balls or the cue. Everything is peaceful and quiet.

There are some remarkable men pelonging to the National Deaf Club. One, for example, is head of an important railway firm in Symrua and has under his control hundreds of men of all nationalities. Another member has travelled over the world a record number of times, always accompanied, and,

though he has been in many civilized lands, has always been able to look after himself. Then there are various professions. One actually teaches music; another is a nurse. There is an annual banquet for deaf and dumb persons, which is usually presided over by some emneut mute.

The Baby's Birthday.

Among the innumerable superstiions, about babies is the old caw bout the day of birth: Monday's child is fair of face: Tuesday's child is full of grace; Wednesday's child is some and sad Thursday's child is merry and glad; Friday's child is loving and giving Saturday's child must work for
