FLAMMARIO'S WRITES OF LIFE

Astronomer Gives Fragments of His Projected Biography.

Camille Flammarion, the famous and popular astronomer, from his little flat overlooking the Paris Observatory, has given to the press a few pages from his projected biography.

There is a good deal of fraud committed in connection with these phenomena, he says, and must be taken as established. One must beware of so-called mediums.

There was, as it were, a reflex of Hugo's literary talent, although it was independent of his own will. More wonderful still was this: One day Charles Hugo was sitting in a circle with a party who had their hands on a table.

PARIS DISCOVERS TREASURES

Precious Canvases Stared Away Many Years Ago.

While inspecting the various storehouses belonging to the city of Paris a few days ago a committee of municipal councillors visited the houses situated at Anteuil, and the thousands of heterogeneous objects stored there, forgotten and covered with the dust of ages.

One of the councillors more curious than the others brushed the thick coating of dust from a large canvas, and his surprise was great on finding hidden beneath the grimy signs of a painting of fine quality. The discovery has led to a serious search and the subsequent finding of curious canvases.

It is now found that the city has been the unwitting owner of several masterpieces for a period impossible to define. Among these pictures are "Sainte Isabelle de France," painted by the master, Philippe de Champaigne (1602-1674), a sketch of which is in the Louvre; a painting which is at present attributed to Titoreto, and one believed to be the Rubens.

Further searches will be made, and it is expected they will bring to light more valuable works for the city for many years. It has the habit of systematically storing away all sorts of objects, and forgetting them.

TUMOR IN THE STOMACH

Completely Removed When She Took "Fruit-a-Lives"

NEWBURY, Ont., April 14, 1913. "Some years ago, I was sick in bed and thought I was going to die. I had a growth in my stomach, which the doctor said was a tumor, and they said that the only thing to do was to go to the hospital and have the tumor cut out. I dreaded an operation although both doctors said it was the only cure. I said I would die before being operated on.

At this time, my mother-in-law sent me some "Fruit-a-Lives" and induced me to try them as she had heard of another woman who had been cured of a similar growth in the stomach by taking "Fruit-a-Lives."

To please my mother, I began to take "Fruit-a-Lives" and the happy result that they cured me. I have not been to see a doctor since and my health is first class.

I recommend "Fruit-a-Lives" every time I get a chance and I will be glad to have you publish this letter as another woman may now be suffering from the same trouble and my mother-in-law will be glad to hear of it. MRS. J. McDONALD, 25 Loc a box 6, P. O. 250, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-Lives Limited, Ottawa.
