Guelp not only has wife-beaters, but husband-beaters as well. There is a tale that has just come to light about a young fellow who has just been married about one and a half years, and lives in St. Patrick's ward. One night this week he went out and came home so drunk that he was almost helpless. His wife must have known that he was coming, for she met him at the door with some kind of rod (wood or iron) and laid it on. He now presents a pathetic and battered head, and he would like to know if a man is given the "cat" for wife beating, will a woman get it for the same offence?

Mr. Mills, a student of Huron College, had charge of the services in Christ Church on Sunday last, and will officiate again next Sunday.

We have learned that the men referred to last week as collecting for Mission School in Armentia have since got into the "toils" at Owen Sound; that they were not Armenians, but Persians, and in some places called themselves Assyrians. They were sick chaps at any rate.

Mrs. James Hill, of the suburbs, met with a painful accident while going down cellar one day last week. She missed her footing near the head of the stairs and fell heavily down the steps, breaking her ankle as well as being otherwise severely bruised and shaken up.

Stanley Routhier and Norque Young motored over to Chesley last Sunday in the latter's fine car. Stanley has resigned his position in the Merchants Bank and will go fire ranging in New Ontario this summer. His time will be largely employed canoeing and killing black flies.—Chesley Enterprise.

The Hydro electric surveying party has been in town and vicinity this week. They came from Hanover through Normanby striking a line three and a half miles west of Acton. They entered Mount Forest in the neighborhood of the foundry; put in their stakes along Elgin street and crossed the Saugen near the woolen mill.—Mt. Forest Confederate.

Next Fall 50 South American farmers, who are to tour the North American Continent, will visit the great Industrial Fair at Toronto. These object lessons will likely prove valuable to the tourists and no doubt many a firm will endeavor to catch their eye and borrow their ear.
