

Talk Up Your Town.

If you live in a town you should believe in it. If you don't believe in your town you should move out of it. Like other places it has advantages and disadvantages. It is not, and modestly should not, present you from making the fact known to the world. The opportunity presents itself at home or abroad, whether pursuing pleasure or engaged in business, do not neglect to give those with whom you come in contact to understand that you live in a town, populated by enterprising, progressive, progressive people and one that is advancing instead of retrograding.

If you can truthfully speak in commendation of the ability of your professional men, the square dealing methods of your mechanics, the excellence of your mechanics, the superiority of your churches, schools and public institutions, and the industry, energy and sobriety of your citizens, generally, let nothing prevent you from exercising that privilege. You should learn to believe, if you do not already, that we have all these and in addition, the best located town, the finest country surrounding it, with the most fertile farms filled by the most intelligent and energetic people to be found in Canada.

If there are any drawbacks it will not be necessary to mention them. The people and newspapers of the competing towns will relieve you of that task by attending to that part of it themselves.

Strangers seeking a location are always influenced in favor of those whose citizens are enthusiastic in their praise. No city or town can expect to attain prominence over its rivals unless its inhabitants appreciate the excellence and virtues of each other and will collectively spread abroad their faith in the present prosperity and future greatness of their own locality. Talk is cheap commodity, but when rightly utilized it can be made effective in many directions and this is one of them.

Germany's Nightmare.

A German professor in Canada has declared that the sympathies of the German people in the sufferings and dangers brought upon them by their ruling classes, "by an oligarchie, issuing military government." Furthermore, he says that the defeat of the German army would benefit the German people. It would restore their fellowship among the western nations.

"A liberal, free, democratic Germany will start on a new era of prosperity, of peace and of peace with England and France."

"Germany's defeat will mean the establishment of a German republic and the annihilation of the German people. It would restore their fellowship among the western nations."

Buy More Than We Produce

An exchange that has been figuring on the hard times has come to the conclusion that they are caused by the fact that most people buy more than they produce. It says: "We let our timber rot and buy fencing; we throw away our ashes and buy soap; we give away our hives and buy honey; we raise dogs and buy hogs; we let manure go to waste and buy guano; we grow weeds and buy vegetables and brooms; we catch 5 cent fish with a \$5 rod and lastly we send our boys out with a \$40 gun and a \$10 dog to hunt for 10 cent birds."

The Standard has secured samples of black leaf check books, together with authority to take orders at same rates as if sent direct to Manufacturer. Any quantity from fifty books up. No business should be without these check books. The cost is wonderfully small.

The baseball tournament, and garden party which was held by our baseball club on Friday afternoon last was a hummer financially and otherwise. The first baseball match which was pulled off was between our burg's speedy nine and Thornbury, resulting in a win for the local squad. The score being 8-2 in their favor. Wm. Harris refereed the game, and general satisfaction. Batteries, Whately, Sweeney and Leach, Leslie and Boler. The second game was between Blantyre and Ravensburg, who played a fine game to camp and applied a good big coat of kalamining, the score being 7-0 in Ravensburg's favor. Whately, of Thornbury, refereed this game. Batteries, Pinch and Hagg, Patterson and Storey. The third game, last but not least, was between Kimberley and Ravensburg, who played a fine game, neither team scoring a run. It was easily the fastest game of ball that ever was played in our burg. A bunch of soreheads from Blantyre tried to make it unpleasant for Referee Harris during this game, but didn't succeed very well. Batteries, Pinch and Wagg, Leslie and Boler. After the game the crowd repaired to Mr. John Plewes' orchard, where a sumptuous repast was partaken of, prepared by the young ladies of our burg.
