

AID TO THE MOTHERLAND AIR RAID PLANNED GERMAN AIRMEN SIEGE WARFARE IN POLAND

Dairymen Can Render Valuable Assistance By Increasing Output

A despatch from Peterboro says: "It was a 'call to duty' to the farmers to rally to the Empire and the administration of the special grant to agriculture, made to the members of the Eastern Ontario Dairymen's Association. Within six weeks all Canada will ring the appeal which has been fitted into the phrase, 'Patriotism and production.' Within a week, according to Mr. James, having posters from ocean to ocean will bring home to the Canadian farmer the responsibility, the duty, the privilege he has in the maintenance of life in the Empire. It will be a call not less important than the call to arms. It is projected by the Dominion Government, working in co-operation with the provinces. The first appeal—the poster—will be followed by conferences in all the counties of the Dominion, when farmers will be impressed with the necessity of doing their part in helping Canada and the Empire in the present crisis. Mr. James started the appeal to eastern Ontario's most prominent dairymen.

Said Food as Well as Men.
The first appeal was for recruits, said Mr. James, and posters were up all over the country. "Recruits wanted"; now there will be another poster: "Patriotism and production." We are developing something in Canada we never thought we had, and we are waking up for the first time to the fact that the Canadians are a people. But I don't want to send another message. "Send up not only men, but food. The farmer will be as busy as the soldier."

LAST OF JANUARY FLY OVER CALAIS

Count Zeppelin in Command in Person a Fleet of Ten Dirigibles

A despatch from London says: "The Amsterdam correspondent of the Daily Express" reiterates the much predicted story of an attack by a fleet of Zeppelins and aeroplanes on England, and says that preparations are nearly complete for carrying out the project. Ten first-class Zeppelins will constitute the attacking fleet, which will be under the personal command of Count Zeppelin. Hundreds of professional and amateur airmen have volunteered to take part in the attack. A large number of aeroplanes, hydro-aeroplanes, destroyers, torpedo boats and submarines will accompany the big airships. The orders will be to cripple the main British fleet and attack London. It is hoped that the expedition will be ready to start in the last days of January.

DOCTORS MAKE NEW FACES

Wonderful Work Accomplished by French Surgeons.
A despatch from Havre, says: The French army medical corps have set apart three eminent surgeons, Messrs. Fillion, Morestin and Seblan, to make "aesthetic repairs" and remove deformations from the faces of those wounded in the war. If a man loses his nose or any part of his face, or a disfigurement is caused by a wound, the face will be repaired by skin grafting, and the latest discoveries in surgical science will be used to remedy the deformity. Several cases have already been successfully undertaken by the three surgeons. A young corporal who had part of his face taken away by a shell was given a new nose, left jaw and cheek. In cases where teeth have been lost it is said that successful efforts have been made by transplanting others according to a method discovered by a Russian dentist.

TO BUY HORSES DIRECT

Militia Dept. Decides to Deal Only With Farmers or Owners.
A despatch from Ottawa, says: Speculators, horse dealers, etc., who are endeavoring to make a profit by purchasing horses from farmers and re-selling them at higher figures to the Government for military purposes are notified by the Militia Department that horses will be purchased only direct from the farmer or owner. Dealers are to be barred by the Government agents in charge of the purchases. The aim of the Government is to have the maximum amount of money reach the farmer, while at the same time insuring fair purchase prices for the Government.

ROMANIA TO STRIKE WITHOUT ITALY

TURKS SLAUGHTER CHRISTIANS

A despatch from Athens says: The Greek cruiser Helle arrived at Durazzo recently for the purpose of protecting the Greeks there in case of the insurgent capture of the town. The position of the Greeks in Turkey is daily becoming more precarious. Murders of Christians throughout Asia Minor are of constant occurrence. The latest outrage occurred at Karagiouli, near Manissa, where three notables, including two archbishops, were arrested. Greek Consuls are everywhere subjected to bitter persecution. Greco-Turkish relations are rapidly becoming excessively strained. Messages from the Italian frontier say that in Italy all public meetings and demonstrations in favor of Italy's intervention in the war have been forbidden at the Italian Consulates in Switzerland.

A despatch from Berlin says: The German army authorities have issued a general order prohibiting in future, troops in the field from fraternizing with forces of the enemy, as they did at several points in the western theatre of war at Christmas. To such an extent was this fraternizing carried out that at one place where the Germans and British played football Christmas Day they agreed to suspend hostilities for two days more.

VON HINDENBURG ATTEMPTS TO GET NEARER TO WARSAW BY SAPPING

The ill-fated village on the Bzura that was the scene of the recent engagements where von Hindenburg brought his abrupt stop. The Russian position returned to the east bank of the Bzura, and in a fierce bayonet encounter drove out the enemy and regained all the positions previously lost. Five quick firing guns and a number of German prisoners were the Russian trophies of the adventure.

East Prussia, the Russian statement says, is now in the hands of the eastern war in view of the remaining investments of the German troops in the near vicinity of the Bzura. It thus appears that the field operation of great magnitude, is quickly being converted into a warfare almost identical with that which for so many weeks has been proceeding on the Aisne and the Yser in the western war theatre. There has been, however, no brisk combat in the Warsaw region recently. The statement records that the Germans captured some 10,000 prisoners in the Russian trenches near Sochaczew.

FRENCH PEASANTS STARVING

Many Deaths Have Already Occurred From the Lack of Food.
A despatch from London says: Herbert C. Hoover, Chairman of the American Commission for Relief in Belgium, returned to London on Wednesday from a tour of inspection of the work being done for the Commission in Belgium. In a statement issued Mr. Hoover said: "An appalling situation has been presented to the Commission with regard to the French peasantry in the valley of the Meuse, just south of the Belgian frontier, where there are 10,000 persons absolutely without food. Our investigation showed that a large number of deaths already had occurred there from starvation. Despite the shortage of the ration in Belgium, our Belgian colleagues are afraid that we must share the last crust with the people. We therefore are sending food out of our limited Belgian stores."
