ALMOST EVERY ONE NEEDS A TONIC

Longer More Dainty.

Almost everyone — man, woman and child — needs a tonic at some time. It is often said that a man is lazy because he takes little or no interest in his work; but the truth is he is not well. He needs a tonic. The same is true of a woman who does not hustle over her home work, but only feels fit to be in bed. She is not merely tired, but ill. A dull pain in the head or back, poor appetite, loss of strength with low spirits and loss of interest in life show that you need a tonic to brace up the nerves and give you a new lease of life. The proof is that when the right tonic is taken all the trouble quickly disappears. The one tonic — the only tonic — for weak and ailing men, women and children is Dr. Williams' Pink Pills, which speedily bring back abundant health, strength and energy. They have done this in thousands and thousands of cases as has been proved by the following: Mr. Ed. A. Owen, Burdett Alta, says: "About two years ago my health was in a wretched condition. My whole system seemed to be run down and the doctor seemed puzzled at my condition. I had no appetite, exertion would leave me breathless, and I was troubled much with dizziness. All the medicines I took did me no good, and I was steadily growing weaker. My mother urged me to try Dr. Williams' Pink Pills, and before I had taken them very long I began to feel like a new man, and continuing their use, I was restored to complete health. I now recommend them to all run down in health as they are the best medicine I know of."

NEW INDUSTRY FOR ENGLAND.

Liverpool Bids For the German Toy Trade.

Writing of Liverpool's efforts to capture the German toy trade, a correspondent of the London Times says:

"Liverpool is primarily a distributing centre, but it has always banked after solid industries. The Education Committee are making some notable experiments which may lead to important developments. The committee are believers in the theory of the 'thinking hand,' and they are accordingly giving facilities to girls just leaving school to learn toy-making and the power-machine work required in the ready-made clothing trade. Other English towns are making a bid for the German toy trade, but Liverpool is building particularly firm foundation. Furniture-makers, whose trade has fallen off are turning their attention to wooden tops and are ready to absorb young workers with some training to recommend them. Some of the toys which the children already turned out are of admirable design, topical and humorous, but not grotesque or ugly. Russian models, probably the soundest at the present time in all forms of art, have largely drawn upon, and a typical set of toys is a row of nine-pins designed to represent Death's Head Hussars and German Infantry with spitted helmets, with the hussar fist as the centre pin. The needle industry is scarcely on its legs yet, but one of these days 'Made in Liverpool' may be the hallmark of the toyshop. Our grandchildren will then pity a generation which had German trees foisted upon it in Noah's Ark."
