**MUST WASTE SHELLS.**  
Accounts For Heavy Expenditure of Ammunition.  
Lieut.-Col. Boissonnet, of the French Army, explains in Temps some of the many reasons of the necessary factors of war.  
The French "75" is a weapon of marvellous precision, but even so, a new gun and the shells in poor condition, after a great number of shots from a distance of 3,000 yards, the shells will be found fallen within a radius of about twenty-four meters. The gunner, therefore, has to regulate his fire so that the object aimed at is in the centre of this more or less "covered strip," a aeroplane reconnaissance, requires a considerable expenditure of ammunition, and when it is remembered that the trench itself is not more than a yard or so wide, it becomes possible, when the artillery will have not the fixed target of the trench line but the mobile ranks of skirmishers as its objective.

Against moving infantry, unless in advancing in close formation, regulated fire is a matter of some difficulty. Infantry which finds itself between the first shell which has burst behind them and the short shell which has burst in front of them do not wait the avalanche which is to follow, but rush rapidly forward beyond the first short shell, where they fling themselves to the ground under what cover they can find. The artillerymen know that they are somewhere in the neighborhood, and to begin again the tir de retraite would only be a loss of time, so that the only thing for the artillery to do is to shorten its range by 100 yards and sweep with shrapnel the whole of the zone where they imagine the enemy's infantry to be.

#### WOMEN AT WORK.

Kingsley's line, "For men must work and women must weep," contains only a half truth. In the countries now at war the women are so busy doing most of the work that they have little time for weeping. Even in England, where the drain on the male population has been less severe than in France or Germany, many industries that formerly employed men are now exclusively finding places for women. For example, women are now employed for the first time in the seafaring and other clerical departments of the railways and the banks. The number of women who drive motor cars has increased tremendously. The Association for Women's Employment is training women to be shop assistants in the grocery business. As the shop assistants' Union has sent fully a third of its members to the front, there are many vacancies of the kind to be filled. A firm at Rugby is engaging girls to make electric light bulbs, a task hitherto followed exclusively by men. Instances might be multiplied of occupations in which since the beginning of the war the bars have been let down for women.

Yet even with all the industries which have been filled, there are many women, widowed by the war, who are provided for; the effort is now being made to start enterprises that shall give these unfortunate persons employment. Toy-making, which had been a most exclusively German industry, is being encouraged in England as an occupation especially suited to women. The Woman's Emergency Corps has turned the Chapel of the Animals into a factory where young girls learn to make wooden toys, soon become skillful enough to get three dollars a week. In Scotland, artificial flower-making has been promoted, and suitable workrooms and teachers have been provided. The theatrical world of that industry, Glasgow, is employing hundreds of women as trainee conductors.

Everywhere in the United Kingdom women are busy and active, and have never been before.

The candidate for a young man's hand makes a lot of campaign promises during courtship.

"More people travel first class."

"Second class in the United Kingdom."

**Fashion Hints**

**A COMPLETE WRECK**

From the After Effects of Pneumonia Followed by Diphtheria.

Frequently the after effects of illness are more serious than the original trouble. This was the case with Mrs. James B. Moir, Mutanask, Mrs. Moir says: "Some years ago, while we were still living in Nova Scotia, I was taken down with a severe attack of pneumonia. I had sufficiently recovered to be around, but had not been able to go out when I was attacked with diphtheria. In my weakened state it took a terrible hold on me, and neither my friends nor neighbors thought I would recover. I did, however, pull through, but was, a physical wreck. The muscles of my throat were paralyzed, so that even a cup of water would flow back through my nostrils unless they were held closed. My voice was almost inaudible, and my eyes so badly affected that I feared I was going to lose my eyesight. I could only walk with assistance, and it looked as though I would be a helpless cripple. Medicine was used but did not help me. Then a neighbor advised Dr. Williams' Pink Pills. I began taking them, but had the utmost difficulty in swallowing them owing to the condition of my throat. However, after a couple of boxes had been used I found it easier to take them, which was a sign they were helping me, and I felt greatly relieved. I do not know how many boxes I took, but I continued their use until I was as well as ever, much to the surprise of all who knew me, as all thought I could not get better. Since then I have several times taken the Pills when run down, and have always been greatly benefited by them."

For the after effects of fevers and all wasting diseases there is no medicine can equal Dr. Williams' Pink Pills. They enrich the blood, build up the nerves, restore the appetite and bring back complete health and strength. Sold at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

#### The First of ALL "Home Remedies"

VASELINE, in its many forms, with its numerous uses, is the foundation of the family medicine chest.

#### Vaseline

Trademark

It keeps the skin smooth and sound. Invaluable in the nursery for burns, cuts, insect bites, etc. Absolutely pure and safe.

GOOD SUBSTITUTES. Instead of "Vaseline" in original packages bearing the name CHESEBROUGH MANUFACTURING CO., Consolidated, for sale at Chemists and General Stores. Illustrated booklet free on request.

CHESEBROUGH MFG. CO. (Consolidated) 1880 CHABOT AVE., MONTREAL

**WIT AND WISDOM.**

Good luck and bad habits are seldom even on speaking terms. The man who does things can afford to let his wife do the talking. A peck of trouble is one thing that is mighty seldom short weight. To him, who does everything in its proper time one day is worth three.

There is no greater misfortune than not to be able to bear misfortune. Some people cast their bread upon the waters, expecting it to come back toasted.

"Is he rich?" "I don't think so, but he must be." "Why?" "I heard him say the other night that he lets his wife have all the money she wants."

Flatbush—"When I came out of church on Sunday I found my horse fast asleep in the shed." Bensonhurst—"Why, he couldn't hear the sermon from there, could he?"

Proving It—"I gave you arrears yesterday to be good, and to-day you are just as bad as can be." Willie—"Yes; I'm trying to show that you got your money's worth yesterday."

"I was often so feeble I could not work. My sleep was broken and unrefreshing. I had headaches and cramps in the muscles."

I suffered from Rheumatism and Backache and was always tired and nervous.

"Mick—"Oh hear as how Murphy joined the army. How is he lookin' it?" Pat—"Lookin' it! Share, he was never so well off in all his life. He's got two socks the same now."

Dunkley—"You can't find a man anywhere who enjoys a good joke better than I do!" Friend—"That's so. I have heard you tell the same joke forty times, and laugh at it every time."

"Remember, Bangs, we are depending on you to cry lustily in the third act. Do you think it'll do his part?" Actor-Father—"He ought to. He's been rehearsing every night for months."

A church was to be renovated, and the carpenter was showing the vicar round. "There seems to be a lot of dry rot in these pews," said the vicar. "That's nothing," said the carpenter, "to what there is in the pulpit."

"What is the child howling for now?" asked its father from the depths of his easy-chair. "He wants his own way," snapped the mother. And with this mind on the latest news the father replied, "Well, if it's his why don't you let him have it?"

#### MOTHERS OF LITTLE ONES

No mother of young children should be without a box of Baby's Own Tablets. The Tablets are mother's best friend and are as good as a doctor in the house. Concerning them Mrs. F. Wurges, Ingersoll, Ont., writes: "I have used Baby's Own Tablets for the past eight years and would not be without them. I can highly recommend them to all others of young children." The Tablets are sold by medicine dealers or by mail at 25 cents a box to The Dr. Williams' Medicine Co., Brockville, Ont.

#### MANY HEROIC DEEDS:

St. Catharine Major Tells of Bravery of Canadians at Langemarck.

Major Belsol, 4th Battalion, wounded at Langemarck, writing home from hospital, states: "I saw many deeds performed by my own men which in an ordinary campaign would have won the Victoria Cross for them, such as binding up wounded comrades and carrying them to shelter under hot fire."

He corrects an account in "Eye Witness" statement that the Battalion wavering, and that Col. Birchall had to recall it. "Nobody wavering," writes Major Belsol, "from start to finish," and after the first few hundred yards no officer or N.C.O. had any influence on the action, except in his immediate vicinity. Col. Birchall died as he lived, a gallant English gentleman, after stating that he was proud to lead such men.

A letter from Pte. Donaldson, of the same regiment, to relatives, tells of the death of Pte. Crawford, which has not yet been listed in the casualties. Donaldson, Crawford and Pte. Hargreaves, of Merriton, were cutting through a hedge when all three were hit. Hargreaves was shot through both hips while binding up Donaldson's wounds, and in this condition crawled to assist Crawford, whom he found beyond the aid. Then Donaldson and Hargreaves crawled along the ground, through a hail of bullets, 350 yards to shelter.

Good Training.

"Yes," said the manager, "we want a man for our information bureau, but he must be a man who can answer all sorts of questions and not lose his head."

"That's me exactly," said the applicant with enthusiasm. "I'm the father of eight children."

Never Went Away.

Neighbor's Little Girl: "When did you get back, Mrs. Brown?"

Did you have a good time?"

Neighbor: "Why, I haven't been away, my dear."

"Haven't you heard mother say you and Mr. Brown had been at loggerheads for a week."

**First Long Step Towards Recovery**

**IS TO FIND YOUR SYMPTOMS ARE OF KIDNEY DISEASE.**

Kent County Lady Did This—Then She Used Dodd's Kidney Pills and Was Cured.

Upper Bouctouche, Kent Co., N.B., May 31st (Special)—Miss Genevieve Bastarache, an estimable lady living near here, is telling her friends of the benefit she has received from Dodd's Kidney Pills. "I am indeed happy to be able to state that I have been cured of Kidney Disease by Dodd's Kidney Pills," Miss Bastarache says in an interview.

"I was often so feeble I could not work. My sleep was broken and unrefreshing. I had headaches and cramps in the muscles."

I suffered from Rheumatism and Backache and was always tired and nervous.

"I was in this miserable condition when I decided to try Dodd's Kidney Pills, and I had not taken two boxes till I felt better, and He's got two socks the same now."

Dunkley—"You can't find a man anywhere who enjoys a good joke better than I do!" Friend—"That's so. I have heard you tell the same joke forty times, and laugh at it every time."

"Remember, Bangs, we are depending on you to cry lustily in the third act. Do you think it'll do his part?" Actor-Father—"He ought to. He's been rehearsing every night for months."

**YOUR SKIN NEEDS FOOD.**

Is your skin parched and dry? Are there signs of approaching wrinkles? Are you getting worried about the possible loss of your youthful beauty? Cleopatra didn't worry about those things. You needn't if Usit is applied.

Cleopatra and the noted beauties of the East knew perfectly well that the skin requires food just as does the rest of the body. They fed their skin with a preparation of Oriental oils, the secret of which has been so jealously guarded by succeeding generations that it has only recently come to light.

Now, too, find a valuable blend. An excellent application to the face not only feeds the skin and keeps it in the healthiest condition, but it leaves the face much easier to shave. Experience alone proves how much easier.

Usit is the trade mark name by which this preparation is known and sold, by all druggists, wholesale and retail. Usit Mfg. Co., Ltd., 476 Roncesvalles Ave., Toronto, Ont.

#### RUNNING THE BLOCKADE.

Captain Kidd's booty was a trifl compared with that which awaits the sea-rover who shall regularly pierce the British blockade and reach German ports.

During the Civil War the most profitable game anybody played was that of blockade running. It was so difficult to get cotton out of the South that price in Liverpool rose to 20 times the normal figure. Hence a ship that carried guns and various munitions to the South and took home a load of cotton killed two prize birds with one stone.

English shipowners carried on a great trade. The ship R. E. Lee, built by the British at a cost of \$160,000, very soon bore away \$2,000,000 in gold.

Another ship made eight trips from Bermuda to Wilmington, North Carolina, and earned a profit of 700 per cent on the cost of the vessel. A third boat made 22 trips and earned still more.

**Avoid Using Kerosene.**

There is probably no one who has not build fires who has not at some time yielded to the temptation to hurry things up a bit by pouring kerosene into the stove, although everyone is probably aware of what a dangerous practice this is. Even though there is no flame in the stove, the kerosene may ignite the surrounding materials and set fire to the fire-builder and his surroundings.

A simple way to meet the difficulty is to keep a valuable splint. An excellent application to the face not only feeds the skin and keeps it in the healthiest condition, but it leaves the face much easier to shave.</
