Hydro for Markdale

(Continued from page one.) in all the Municipalities that, the amount of head, the flow of would be attached to the Eugenia water and the storage capacity. ot 65 acres power system, would pay his or The volume of flow varies from well timits share in the total cost. But, month to month, but is fairly conremember that this is all paid in stant from year to year. The Hythe monthly bills and that the dro engineers obtained 'statistics rates are fixed so that they will as to stream flow at Eugenia provide for this capital cost being from 1910 to 1914 before atareil balance retired in twenty years. Not only tempting to work out any this, but the rates must provide estimates on its efficiency. The this, but the rates must provide estimates on its emicros. The And whereas it is desirable to persons interested in and desirous for a sum to be set aside each same thing is being done at issue the said debentures at one of opposing the passing of this year in each Municipality, suffice the present time with regard to time and to make the principal of By-Law. ent in twenty years to completely Hayward's: Falls power, Hydro the said debt re-payable in yearly The Clerk's Office at the said Vilwithin that Municipality. If the ly readings of the stream flow and rates quoted in any Municipality this will have to be continued are not high enough to do this, over a period of time before it can then those rates would be raised, he definitely known what the pow-On the contrary if the revenue, er would be capable of doing if after deducting expenses, provides properly developed. From our a surplus, those rates would be re- knowledge of it and from what we duced. Hydro rates are cheaper can glean from the Hydro staff it should prove an indispensable adcause of two very good teasons. Junct of Eugenia when the latter power becomes taxed to its capaci-Tenders - tomiers will be receiv- tion and maintenance of the Hy- ty. Taking into consideration the div the undersigned up to Satdro power plant, which serves a number of Municipalities which have passed and are about to pass Hydro By-Laws and the passed by the Council of the Municipal Carporation of the said plant of its own or to have one plant of its own or to have plant of its own or to have plant of its own or to have plant of its second place, Hydro service is run Haywards and other local power accepted. J. (at cost. The Hydro Commission sources are working in combina-07° and engineers are simply the tion to serve a multitude of con-

consumers for the reason already Village of Markdale

given, that the surpluses of in come over expenditures are return-BY-LAW NO. 265. ed-to the consumers as reduction in rates. It matters not a jot to the Hydro Commission whether or not Markdale join the group of Eugenia Power Municipalities.
Each municipality that is added
to the number is just an addition to the number. One Municipality commission of Ontario. more that is all. But it does matter to the consumers and to the ratepayers of that Municipali ty and to the consumers of the

Municipalities which have already cast in their lot with Hydro on the same system. Each Municipality and each consumer and each fight added to the System up to the amount capable of being served means a smaller proportionate cost both for power and maintenance. It also matters to the Municipality as to whether or not t joins the group at the inception of the System. With Hydro By-laws carried in Markdale on August 30th, work on the rebuilding of the local distribution service would be commenced at once. Hydro gangs are now working hard on the Municipal distributions, in nearly towns. This work is done it cost and it does not require a very great stretch of the imagination to realize that it would be cheaper to have Markdale's Sys-

tem built while these men are in the district, rather than to have them brought later from a distant part of the province. The question has been raised as to what would be done with the present system. The owners having no franchise and no contracts, the problem becomes quite simplified. A valuaion has already been made of the ocal distribution service. As has been pointed out, the Hydro Commission figures that twenty years s, the life of a plant of this kind, for in the building of new plants it provides for replacing, them at the end of that period. The pres-

ent distribution system, with the exception of some extensions made in recent years, has, or will have this nutumn, seen nineteen of its Which is recognized as Canada's twenty years alloted period of serleading school of Business and vice. One would imagine that the Shorthand. Our own 3 storey building. Staff of Specialists 35 present valuation on that basis would mean about one twentieth years continuously under our presof its original cost. There is very ent Principal. We place our little of it that would be of use, according to the standard requirepositions. nents of Hydro engineers. In arriving at a conclusion as to what

would be a fair price to pay for it, the valuators have not been guided altoge her by a consideration of its physical efficiency but have made a most generous allowance hesides. Possibly they have allowed the owners an item for maintenance cost or more probably for the prospective loss of revenue. At any rate their suggestion is that the town should pay for it on a valuation of 65 per cent. of cost. This would really mean a bonus of

well over \$1000.00 to the present owners, over and above actual value, based on Hydro esti-mates of depreciation. We take granted that under the existing rates, the present owners have, in the nineteen years, been fairly well repaid for capital cost on the distribution plant besides the profit on operation to which

they have been quite properly entitled. There may be some complaints as to overvaluation, but the Hydro valuators have only followed the rule they have adopted in dealing generously in such cases. As regards the generating end of the plant, it will be some time before the Commission will be in a

position to determine on its actual worth as a power factor. The value of a waterpower depends on

gents and experts of the various sumers in the towns and on the

To take the vote of the ratepayers of the Village of Markdale en-

advisable to submit to the rate on the date of the issue thereof, ply of electric power from the Hy-Ontario.
Therefore the council of the cor-

oration of the village of Mark- terest payable during each of dale enacts as iollows: 1. That the following question be submitted to the ratepayers of Year Interest the municipal corporation of the illage of Markdale entitled to

ote on Money By-laws. Are you in favor of obtaining rom the Hydro-Electric Power Commission Of Ontario a supply of Electric Power.

2. That the votes of the said ratepayers shall be taken on this question at the following time and place by the following deputy deturning officer and poll clerk hereinafter mentioned, that is to say: at The Public Library in the Village of Markdale

the poll to open at 9 o'clock a.m. and close at 5 o'clock p.m. Jas. E. Matson, Returning Officer; J. G. McDuff, Poll Clerk.

3. A true copy of this by-law shall be published in the following

newspaper on the days hereinafter mentioned, that is to say, in the larkdale Standard, on August 12, Aug. 19 and Aug. 26th, 1915, and 25 a copy of this By-Law shall be 26 posted at the Public Library, Post 27 Office, Reeve's Office, and Clerk's 28 Office, in the Village of Markdale 29

4. On 23rd day of August at the 30 clerk's office in the Village of Markdale at 10 o'clock a.m. the reeve will in writing signed by him appoint two persons to attend the final summing up of the votes by the clerk of this corporation and one person to attend each polling place on behalf of the persons inberested in and desirous of the answering of the said question in he affirmative and a like number of persons interested in and desirous of answering the said question

in the negative respectively. 5. The 31st day of August, at lerk of this corporation of the otes given in the diffirmative and
