P. J. THOMPSON MARKDALE, ONTARIO. CLOTHING, GENTS FURNISHINGS

Notice of Sale

Executors' Sale of Farm Property
The Executors of the estate of the late William Neely, deceased, offer for sale the following property:—
1.—The West half of Lot Number Twenty-one (21) in the 9th concession of the Township of Euphrasia, 100 acres more or less. On the farm are a frame house, Frame barn, good running stream of water; about 60 acres cleared, 9 or 10 acres of hardwood.
2.—The south half of lot Number twenty-three (23) in the 6th concession, Township of Euphrasia, 100 acres more or less. On the farm are a good frame house and Kitchen, Frame Barn, Plenty of good water, two running streams, about 60 acres cleared, balance hardwood and swamp.
3.—Lot Number Twenty (20) in the 8th concession Township of Euphrasia, 200 acres more or less. On the farm are a bank barn, Log house, good well and a running stream, about 100 acres cleared, balance hardwood, pine, cedar and swamp.
For terms and further particulars apply to J. F. Loughheed, Esq., R. R. No. 2, Meaford; J. A. Boyd, Esq., R. R. No. 4, Fairmount; C. G. Albery, Barrister, Meaford; or to Lucas, Raney & Henry; Barristers, Etc., Markdale, 13

Light on the Subject.

(Continued from page 1.)
a private firm or the Hydro commission. He will make notes on inspection and write a letter stating what changes will be required to be made. Wiring for additional lights and switches will necessitate application for permit as in the case of new installations, unless such work would cost under two dollars. Such changes as may be necessary to bring existing installations up to the standard are demanded by the inspector backed by the authority of the Provincial Government and with the sole object of making all electric wiring as safe as possible. Now you must not imagine that because the word "changes" has been mentioned that your house or store will need to be torn up or torn down in consequence. As has been said, it is just a case of safety first.
Exposed or open wiring is not contrary to regulations. Main fuse cut-outs and switches immediately inside the building or near where the service wires enter are essential. These are to be enclosed in metallic service boxes. Circuits limited to 660 watts, the absence of fuses in rosettes and special regulations as to bringing the

wires into buildings, these things comprise the bulk of the changes that will be necessary in practically all installations in Markdale. The inspector was in town last week and made a general survey. He will return as soon as we have an electrician on the job who is familiar with the requirements of the regulations. We expect such a man this week as there are several jobs being held back pending his arrival.
It is the intention of the municipal light committee to get four men going on this work at the very earliest possible moment so that we may be ready for Hydro power when it is ready for us.
We will in this way undertake for consumers both new installations and changes on their premises, buying supplies at first cost from the Hydro Commission and charging to consumers the bare cost of material and labor.
To those who contemplate making additions to their present service I would suggest their consulting with the inspector when he calls on them as to the arrangement and location of their proposed additional lights and switches. Mr. Croydon is quite an approachable man and although it is not his business to direct people as to how they would be best served, yet he is ready and willing to offer

valuable suggestions providing they don't impose too much on his time. But please do not inform him as to who gave you this tip.
L. G. Campbell
Chairman Light Com.
Since writing the article "Light on the Subject," the chairman of the light com. has received the following letter from the inspector, which puts the seal of authority on some of the points brought out in the article mentioned.
Palmerston, Oct. 2, 1915.
Dear Sir,—
I have been surprised that some of the town people have the impression that extravagant changes have to be made on the inside wiring. I feel it is my duty to try to remove any such wrong impression.
The Rules and Regulations are being enforced for the protection of life and property, and after being applied to any installations, the owner or tenant using same, will have in his possession a certificate vouching for the same being free from any possible fire hazard.
Before this certificate can be obtained, however, any defects on the wire must be remedied to

comply with the Rules and Regulations. Such rules do not however, call for any waste of wire, material or labor or the expenditure of five cents more than is absolutely necessary for the protection of life and property.
As the Hydro Electric does no house wiring, the citizens of Markdale would do well to get in touch with competent wiremen at an early date, as it is only a short time now until the Hydro will be connecting, and you will have a twenty-four hour service.
It is necessary that a Permit be taken out for each job before wiring or alteration is commenced. This Permit is issued by the Inspector, and will be required to be posted in a conspicuous place, preferably on the veranda post or door casing and remain there until wiring is completed and passed. No present wiring will be inspected in accordance with the precautions taken by the Hydro Electric Commission.
Yours truly,
William Henry Croxden
District Inspector.

FLESHERTON

(Special to The Standard.)
East Grey Fair held here on Tuesday and Wednesday of last week, though not in every respect up to some former years, met with a fair measure of success and the Directorate will have a balance on hand after meeting all obligations. The weather was ideal for the occasion, but on account of the delayed harvest by wet weather, farmers took advantage of the fine days to save the remnant of their harvests, and the attendance at the fair was thereby interfered with. With the exception of a few lines the exhibit in the hall was good. On the field the show of horses was not up to former years, but there was a good exhibit in cattle, sheep, and swine. A new feature was the exhibit of Autos by Collingwood and Markdale firms. Mr. W. H. Thurston made a nice exhibit of Gramofones and entertained with pleasing music. In the farmer's speeding contest, D. NeTavish won 1st., Leslie Chard 2nd, and Fred Mathewson 3rd. A baseball match between Ceylon and Rock Mills, was won by the former 9-7. During Wednesday forenoon, splendid recruiting addresses were given by Hon. T. S. Sproule and Lieut. Mercer of Markdale. H. H. Miller, ex M. P. of Hanover, and Capt. Brownlee, and Lieut. Pollock, of Owen Sound, Mr. Cameron M. P. of Owen Sound, presided. The Killies Band from Owen Sound entertained with inspiring and pleasing music. As a result of the recruiting leagues' visit seven recruits enlisted and passed the examination as follows: Thos Chard, Fred Bellamy, Thos. Hams Alf Holmes, Ernest Morgan, Ernie Smith and Johnson Poward. A few others who offered, failed to pass the examination. The Fair Concert was very successful. A highly pleasing programme was given by the four talented entertainers engaged for the night. They were Mr. Kenny, comic, Miss Craig, elocutionist, Miss Bushnell, violinist and Miss Wallace, pianist. Mr. Geo. Mitchell presided. The receipts at the grounds were \$132 and at the concert \$120.
After two weeks illness Mr. John Teeter, who had been for 35 years a resident of Argenesia, died at his late home on the east back line on Monday, Sept. 27th, aged 71 years. The largely attended funeral took place on Friday at Meaford Road Cemetery, the service being held at the house, conducted by Rev. Mr. Phalen, of Markdale. Mr. Teeter was twice married and is survived by his second wife, daughter of Mr. and Mrs. Jacob Holley, of Markdale, together with their children, Frank at the Irish Lake, Lons, Ranson and Cecil at home. The surviving members of his first family are Wm. and Wesley, of Shelburne, Thornton, of Markdale, Martin, of Flesherton, Mrs. A. McCullough, of Edmonton, Price, at Wainwright, Alta., and Fred at home.
The High and Public Schools had their field day on the Agricultural grounds on Friday afternoon last, when a programme of about thirty events was successfully run off after the march to the grounds, by the students of both schools in full strength. The sports were heartily entered into and enjoyed by all. The championships were won by Donald McVicar for the boys and Addie Gaudin for the girls.

Wheat Chop \$1.50 per cwt. in buyer's bags.

JOHN W. FORD

Successful anniversary services were held in the Methodist church on Sunday, when large congregations listened with rapt attention to the able sermons and music furnished by Toronto, talent. Rev. I. R. Dean, a Toronto pastor, who on a former visit here made a deep impression, preached again in his usual manner and with earnestness and power. His morning theme was "The unspeakable Riches of Christ," and in the evening, "What it is to be a Christian." Both discourses were edifying and deeply impressive. The congregations enjoyed the concert in the music furnished by the Toronto quartette—Mr. R. Norris, his son and nephew, Mr. Laybelle, Norris, and Mr. Brody, Galtrey and Dr. R. H. Henderson. The singers possess fine voices, which blend in pleasing harmony, and their unaccompanied singing Gospel songs, three in the morning and four in the evening, were very highly appreciated. Mr. R. S. White, of this place, presided at the organ and her beautiful rendering selections were highly appreciated. Other than the usual offering, there was no appeal for finances, but rather that on this occasion, the 37th anniversary of the opening of the church, the deeper spiritual riches be sought and souls born again. Special services continue each evening this week at which the pastor will be assisted by Rev. Mr. Dean.
At the Presbyterian services on Sunday afternoon the Toronto quartette favored the congregation with two very effectively rendered numbers, which were as in the other church highly appreciated. Mr. Norris, Sr., and Dr. Henderson have sung in Deshbrun before with much acceptance and should they and their companions return all will receive a hearty welcome.
Mrs. Geo. Murphy had an amicable sale of her household goods on Saturday and is going to Toronto to reside with her daughter.
Mrs. Samuel Pedlar, Sr., has shipped her furniture to Toronto, where she with her daughter will take up housekeeping.
Mrs. Jamieson has received word that her son, Lance Corp. Jamieson is being invalided home from England and may arrive any day.
Mr. Harry Qlegg met with loss and inconvenience last week by his 27 lb. curbed well caving in. The well was dug 35 years ago.
Editor Macintyre, of Dundalk, gave us a pleasant hour one day last week. He accompanied Mr. Jas. Russell, whom we were also pleased to meet, and who gave us a short outing in his car.
Mr. Will Bentham, of Toronto, spent part of last week on a holiday here, taking in the Fair.
Mr. and Mrs. Wm. Sharp spent a few days last week with their daughter at Meaford and took in the Fair there.
Mrs. John Whitten, of Toronto, is visiting her brother, Mr. Alf. Harrison and other old friends.
Rev. J. R. Dean, of Toronto, is the guest of Mr. and Mrs. W. A. Armstrong.
Mrs. J. W. Armstrong's friends here sympathize with her in her present poor health, being very weak with heart trouble.
Mr. Will Summers, of Calgary (Standard Bank) is visiting friends in Flesherton and vicinity.
Rev. A. McVicar attended school last week and the opening of Knox College.
Mr. James left last week to enter on his theological course in Victoria University.
Dr. Henderson, little son, Ivan, and Mr. R. Norris were the guests of Mr. and Mrs. Blackburn over the weekend, and Mr. Rodfrey and Norris, Jr., were entertained by Dr. and Mrs. M. Mary. The party motored from the city, returning Monday.
Mr. Harmon Bentley and daughter motored from the city and

Markdale Public School

Following is the report of the Markdale Public School. The pupils were arranged as follows:—
R. Jackson, K. Firth, E. Firth, M. Wallace, A. English, A. Ivan, M. Armstrong, G. Boston, H. Henry, G. Whitten, C. Armstrong, A. Sullivan, R. March, C. Coleman, J. K.
J. Kerton, F. Post, G. G. Hooker, L. Towel, W. J. G. (equally), L. McKinnon, L. Peck, A. Edwards, A. Brodie, G. Brodie, M. Healey, O. Young, E. Kibbey, G. Tisdale, G. H. B. Smith.
