The Empire's Call to Ontario: "ECONOMIZE"

Lloyd George

The existence of the British Empire depends upon the outcome of the War. All our resources must be thrown into the scale.

The Empire's call is for men, munitions, food, clothing, and, above all things, MONEY. We are being called upon to give our millions to carry on the war. Sir Geo. E. Foster has stated that the Dominion Government might even ask for a Domestic Loan of \$300,000,000. It is only a few weeks ago that Canadians subscribed over \$100,000,000 to a War Loan.

These facts bring right home to us that this is, as Premier Asquith stated, "A War of Money as well as Men."

Sir Robert Borden, Sir Thomas White, Finance Minister, and other prominent men have emphasized the necessity of economy.

Conserve our wealth. Cut down expenses. This is what we must do.

Lord Kitchener

Something to Think About

Did you ever seriously think about the millions of dollars expended annually for alcoholic beverages in the Province of Ontario?

was \$103,049,129. Assuming that Ontario, whose population is one-third of the Dominion, consumes one-third of the alcoholic beverages, her share amounts to \$34,349,709.68. Let us say \$33,000,000.

As nearly as can be estimated from figures, based on Dominion Government returns, the consumption of alcoholic beverages in the Dominion in 1914

In other words, Ontario's Annual Consumption of Alcoholic Beverages represents the cost of—

- 1st. Rifles, Machine Guns and Field Guns for an army of 690,528 men on active service for a period of 12 months.
2nd: Or Accoutrements, Camp Equipment, Harness and Saddlery, Transport Vehicles, Signaling and Telephone Equipment, Tools and Miscellaneous Requirements for 1,269,231 men at the front.
3rd. Or one year's Clothing and Necessaries for 830,000 men.
4th. Or Rations, Subsistence or Money Allowances for 226,027 "boys" on active service for one year.
5th. Or the Canadian Government's Separation Allowance for 117,773 dependents for the entire year of 1918.

The foregoing figures are based on the war estimates of the Department of Militia and Defence for 1916-17, as published on December 31st, 1915, in The Toronto Globe.

Eliminate This Expenditure

Admiral Jellicoe

"The men who have really joined the Cause are doing their utmost to prepare themselves for active service with the least possible delay. This result can only be achieved if by hard work and strict sobriety they keep themselves thoroughly fit and healthy."

Baron French

"There is no doubt that the work which the Royal Army Temperance Association carries on makes men infinitely better soldiers and better men. If every infantry, cavalry, mounted, and tank regiment, every battalion, squadron, company, and platoon, were so equipped, the value of their fighting would be greatly increased."

The Citizens' Committee of One Hundred believes that as a war-time measure, if for no other reason, this colossal expenditure for alcoholic beverages in Ontario should be eliminated. The Committee also has every confidence that the Provincial Government will move in this important matter as rapidly as public opinion will support them.

It numbers men of both political parties—men who welcome this chance to work for prohibition now that it has been taken out of politics—earnest men who are working together for the common good.

The function of the Citizens' Committee of One Hundred is to organize, crystallize and give expression to the present state of public opinion on the question of prohibition. The Committee believes that it can demonstrate to the Government that Ontario is overwhelmingly in favor of prohibition. The people will shortly be given the opportunity of signing a petition for presentation to the Government.

The public, and this includes those living in DRY municipalities, are urged to join hands with the Committee and insure the success of the movement. Doing so will show that you appreciate the benefits of prohibition in your own municipality and add great strength to the Committee's campaign.

The Citizens' Committee of One Hundred is the executive head of this big new prohibition movement. It represents the whole Province.

If you live in a Local Option municipality your signature to the petition is just as urgently wanted as it would be if you were under license. Province-wide prohibition would not only confer a benefit on people living where Local Option does not prevail, but would also help to enforce the law in Local Option municipalities.

EUGENIA

(Special to The Standard.) Wedding bells are ringing. The roads and streets have been very icy the past week. Several have gone for "an ice slide." The annual meeting of the Presbyterian Congregation will be held on Friday afternoon in the church. Mrs. J. Evans left Monday morning for Owen Sound hospital to undergo an operation. A number from here attended church, at Rock Mills, Sunday

Signs of the Times

England: The sale of liquor has been curtailed to five and one-half hours per day. Why? France: The French Government has prohibited the manufacture of alcoholic drinks to any person supplying any such liquor to soldiers. Why? Russia: The most outstanding example in the world's history of the restriction of the liquor traffic is Russia. Our ally has enacted absolute prohibition. Results: moral, economic and political. Why and how have they given way to temperance and sobriety? Germany: On February 15th the General Conference of the League of Nations decided that any alcoholic beverage serving alcoholic drinks to any soldier would be sentenced to one year's imprisonment, and his business closed up. Why? United States: Seven more States voted "dry" on December 30th for State-wide prohibition of the manufacture and sale of liquor. Why? Canada: Prince Edward Island is dry. Nova Scotia is all under prohibition except the city of Halifax. New Brunswick has prohibition in ten out of fifteen counties and in two of its three cities. Quebec has 800 dry municipalities and only 257 wet. Manitoba will vote on prohibition this year. Saskatchewan—Every bar was closed on June 30th last. Alberta—Prohibited for prohibition in July 31st last by 5226 votes, as against 37,500. British Columbia: The Government is pledged to take a plebiscite. Ontario: 80 municipalities are now dry and there are licenses in only 274. This counts as dry the municipalities which voted dry on January 3rd. During the past few years only a single municipality in Ontario has gone back from prohibition to license. Local prohibition has proved an immense success. You are urged to join with the Committee of One Hundred in the demand for a change to province-wide prohibition of the traffic.
