THE WESTERN FAIR
September 28th to 1st, 1936 London, Ontario.
One of the changes that will be noticed by visitors to the Exhibition in September will be the new Process Building, which has been erected since last year's Exhibition. It is expected that this building will be a hive of industry during the exhibition week. Some of our largest manufacturers have already taken space and arrangements are being made with others, so that this building will certainly be an attractive one with machinery in motion, showing different kinds of goods in course of manufacturing. If any firms require space in this or any other building, application should be made to the Secretary at once, as a large amount of space has already been allotted. This is a very important matter to exhibitors as late applicants have to take what is left. All applications for space and all other information regarding the Exhibition should be addressed to the Secretary, A. M. Hunt, London, Ontario.

WHAT CATARRH IS
It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body, and local treatments in the form of snuffs and vapors do little, if any good.
To correct catarrh you should treat its cause by enriching your blood with the medicinal food in Scott's Emulsion which is a medicinal food and a building tonic, free from any harmful drugs. Try it.

EMPIRE MECHANICAL MILKER
"It has put an end to a lot of hard work and solved milking problem"
That is the way Mr. Donald Brown of Bloomfield, Ont., sums up his experience with the
EMPIRE MECHANICAL MILKER
Mr. Brown writes:
"Having purchased one of your Empire Mechanical Milkers, I feel that I can strongly recommend both its efficiency of milking and its ease of operation. The cows take to it well and prefer it to hand milking. Never had any symptoms of teat or udder trouble. I can milk twenty cows with one double unit quite easily in an hour. I hope to increase my units this year, when I will be milking from 35 to 40 cows."
"It has put an end to a lot of hard work and solved the milking problem well."
The EMPIRE Mechanical Milker is helping hundreds of dairymen to make more money. Why should you not be one of them? The first step is to mail this coupon.
