In the litigation at Owen Sound for damages to the injured soldiers in the rink accident, we understand a settlement has been made with the soldiers, but we have not learned the character of it. A movement is on now for the annual Dominion Day sports here and an effort will be made to have a good programme. Mr. R. W. Shaw and family, accompanied by Mr. Gardner, motored from Lions Head and visited over the week-end at Mr. W. H. Thurston's. Dr. Mandy's moving picture show of war scenes presented in the Town Hall on Tuesday evening of last week under the auspices of the U. and D. here this week at the Lower School and Junior Matric exams, and Mr. H. S. White is presiding at the senior High School exams at Preville. She is able to move about some with the aid of crutches. Mrs. G. Mitchell has been ill with erysipelas for a few days, but is now improving. Hon. and Mrs. I. Lucas visited the latter's parents, Mr. and Mrs. M. K. Richardson, on Sunday. Mr. Ben Hislop, of Thornbury, made a short visit to Dr. Ottewell's last week. Mr. A. By a letter we received on Monday we regret to learn of the fatal condition of Mr. Archie Boyd of Toronto, formerly of this place. Last winter Mr. Boyd had the misfortune to break his thigh bone, which together with rheumatism, has left him in a very crippled condition. What Is Uric Acid?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the fact it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its abundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Auric," which will throw out and completely eradicate this uric acid from the system. "Auric" has proved to be 37 times more potent than lithia, and consequently you need no longer fear the use of this "Auric" for a surgical, lithiatic, diuretic, or a cathartic. It is a safe, pleasant, and completely reliable remedy for the ill-effects of uric acid. Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Fortie" prescription for the ill-effects of women having a splendid reputation for the past fifty years. Doctor Pierce's Pills are unequalled as a Liver Pill. One tiny Sugar-coated Pellet a Dose. Cure Sick-Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

IN MEMORIAM In loving memory of Alexander Duncan, killed in Action on the 5th, 1916, by his sister, Sarah. Far off in Belgium, where he lies, Our darling, so young and true, He nobly died for his country, And he fills a hero's grave. O mark the place where he lies, Till the resurrection day, He's peacefully sleeping there, And bravely he did weep. But is that balm to our sorrow, Does it soothe the bitter pain, That stethes in our souls, And mingles life seem vain? Does it restore the tender heart, Of the heart now cold and dead, Does it cheer the hearts that break, The awful void does it fill? Oh! Who will answer, ye angels, For the dear souls that have spent, When God calls on him to appear, On whom shall His wrath be sent? He ordereth not the slaying of innocent lives, O Lord, He seeketh not for the death of the guilty, But the good of all mankind, He crieth with desolation, And beth with charity, That such we are all brethren, And a way we should find to go. Oh! who our tears are falling, Our sorrow be dried, and our grief prolonged, We know we've eyes on our faces, To help the world that's wronged. Well hope and pray for a better world, When war and strife shall be no more, And the Prince of Peace shall reign on earth, And sin shall be no more, Tho' our sky is cloudy, In such terrible calamity, We know, the sun will shine, Will the rose of love bloom, And we're sure that day is near, For the one who ever lives, Has given His Holy spirit to us, Which, who will dare to give.
