ST. JOHN AMBULANCE. First Aid Work of the Canadian Pacific Railway Centre.

A most successful year, notwithstanding the general depression. This is the pleasing statement contained in the sixth annual report of the Canadian Pacific Railway Centre of the St. John Ambulance Association.

In all the departments of the C.P.R. Centre of the Association, which spreads over the country, a greater zeal than ever was manifested for work and the support of the superintending officials of the C.P.R. is in no small way responsible for a good deal of the advancement made.

Under the auspices of the C.P.R. Centre instruction was given to the Borden Battery and Ammunition Column before leaving Montreal for the front.

An important feature of the work of the C.P.R. Centre was the bringing of a large number of the lady clerks of the C.P.R. into touch with the Red Cross Society, an organization to which they proved a valuable asset.

Three men were saved from drowning at Winnipeg by W. T. Davies, C.P.R. ambulance instructor, and William Newcombe, a C.P.R. constable.

Particulars were obtainable of 3,780 cases where first aid had been administered by members of the C.P.R. Centre. The cases were thus divided: Atlantic Centre, 9; Eastern Division, 130; Ontario Division, 136; western lines, 3,410.

Some of the Terrors and Humors of the Bomb. An Irish officer, writing from the British front in Flanders about bombs and bomb-throwing contrivances, says:

One morning twenty or more members of the general staff came round to our trench to witness a test of a new catapult arrangement for throwing bombs to the distance of two hundred and fifty yards.

Not such a great while ago, a learned Frenchman wrote a treatise to show how idiotic had increased since the introduction of the potato into Europe, and our own medical men in past times condemned it as a cause of palsy and other hideous diseases.

Women Sweep Streets. Because of the dearth of male labor owing to the war, the streets are being brushed and dusted by feminine hands in English towns.

A Tasty Summer "Snack" for the warm days when the appetite craves "something different" for luncheon, for picnics or any kind of outdoor excursion is Triscuit, the Shredded Whole Wheat Wafer.

It is made of the whole wheat steam-cooked, shredded and baked. Toast it in the oven to restore its crispness and spread over it butter, soft cheese or marmalade. Its snappy, tasty aroma is a delight to the palate, supplying the greatest amount of nutriment in smallest bulk. A deliciously wholesome toast. It is ready-cooked, easily carried, is strengthening and satisfying.

THE COST OF FIRES. Canada Pays Dearly for Indifference and Carelessness.

The Dominion Superintendent of Insurance has issued an abstract report of fire insurance business in Canada for 1915. The report gives an interesting insight into what Canada is paying as the price of her indifference and carelessness with fire.

In 1915 Canada had an approximate fire loss of \$15,500,000. Fire insurance companies paid out for fire losses \$14,030,298, or approximately \$1,500,000 less than the fire loss.

That much the greater portion of this loss may be avoided is shown by a report of the fire chief of Vancouver, B. C., for March, covering the causes of fires in the cases of the 36 alarms responded to by the fire department in that city, as follows:

Children playing with matches; 2; lamps thrown on stove; 1; chimney fires; 3; unlighted stoves; 1; electric heater left turned on; 1; smoke stove; 1; backfire in fireplace; 1; grate on stove; 1; defective chimney; 1; hot ashes; 2; spontaneous combustion; 1; gasolene explosion; 1; electrical origin; 2; overheated coal oil stove; 2; defective fire place; 1; overheated chimney; 1; smoking in bed, 1.
