Utility Keynote of C.N.E. Prize List.

Greater Encouragement to Breeders of the Useful Types of Live Stock.

A glance over the Premium List for 1916, just issued by the Canadian National Exhibition, shows a marked tendency throughout to give encouragement to utility breeds and types and with this object in view the Dominion Government has again contributed $5,000 to the prize list. The Exhibition has added another $1,000 and the Hereford Society a similar amount. A full classification has again been given to all grades and for the first time reserve ribbons will be given in all classes of live stock.

Among the new classes in the horse section are two for aged Standard Bred stallions in harness, one for trotters and one for pacers.

In the Poultry section the breeding pens, added for the first time last year, will be repeated and liberal treatment is again assured the utility breeds.

Several changes are noted in the Fruit Section including the addition of two extra classes for apples and pears in 10 box lots and a 4x24 display of Canadian fruit. For the latter prizes amounting to $100 will be given.

The Honey men will again have a chance for competition. They retired about two years ago, but have again asked for representation.

The butter-making competitions will be repeated. Among the changes in the Dairy section is a class for standard creamery packages of 56 pounds in place of the obsolete "not less than 50 lbs." classification.

The Live Stock buildings, barns, stables and pens have all been disinfected and approved by the Department of Agriculture at Ottawa and exhibitors need fear no evil results from the recent occupancy by the Military forces.

NOTICE

SUFFERED FROM BACKACHE RHEUMATISM, DROPSY.

Dear Mr. Editor—I wish to tell you of a recent experience I had when suffering from backache, weak back, rheumatism, dropsy, and congestion of the kidneys. I tried a new medicine called "Anuric," which has recently been discovered by Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, N. Y., you have no doubt heard for years. This medicine acted upon me in a wonderful manner. I never have taken any medicine so helpful in such quick time. I do wish anyone in need of such a remedy would give it a trial.

(Signed) G. H. HERR.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "ANURIC," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL and SURGICAL INSTITUTE, in Buffalo, N.Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out of bed half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the "Anuric," cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery as it has for the past half century for his "Golden Medical Discovery," which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.

Introduction of Slavery.

The dull boy in the class unexpectedly distinguished himself in a recent history examination. The question ran, "How and when was slavery introduced into America?" To this he replied:—

"No women had gone over to the early Virginia colony. The planters wanted wives to help with the work. In 1619 the London company sent over a shipload of girls. The planters gladly married them, and slavery was introduced into America."

THE WESTERN FAIR.

September 8th to 16th

The Poultry Exhibit at the Western Fair London, Ontario, in September next promises to be a very large one as usual. Poultry Breeders have come to the conclusion that a win at London's Exhibition means considerable to them. The prize list is a very liberal one and the cups and trophies offered by the Exhibition Association in addition to the cash prizes makes it very attractive from an Exhibitors standpoint. Prospects are very bright this year for the whole Exhibition. A very large amount of space is already allotted and applications are coming in daily. A real live programme of attractions will be given twice daily before the Grand Stand. Prize lists, entry forms and all information regarding the Exhibition will be given on application to the Secretary, A. M. Hunt, London, Ont.
