

ITALIANS OCCUPY THE ENTIRE DOBERDO PLATEAU

The Austrians Have Been Driven Back Beyond the Line of the Vallone River.

A despatch from London says the principal gains have been made by the Austrians in the mountain east of the lower Isonza line. Fighting is being waged in the Piava region, the Austrians claiming that they have now reached the line of the Vallone River, advancing since the fall of Gorizia, about four miles on a front of 20 miles. The entire Doberto plateau is now in their possession, according to official despatches from Rome, as well as the towns of Tullana, Marto, and San Marco. The number of Austrians taken prisoner is reported to have been increased by several thousand.

The Italians are now approaching the strong defensive line established by the Austrians in the mountain east of Gorizia, and a resumption of the desperate battles for high peaks is expected to mark the new phase of the offensive.

Vienna reports the repulse of Italian attacks east of Gorizia, as well as the Doumites, but Rome admits that

INCOME EQUALS BRITISH BURDEN

Chancellor of Exchequer McKenna Reveals Financial Strength of Empire.

A despatch from London says: Reginald McKenna, Chancellor of the Exchequer, was subjected to criticism in the House of Commons on Thursday on the ground of over-reliance upon Treasury bills, his critics arguing that the large amount of such bills outstanding constituted a danger, and that the Government ought to have issued another war loan.

In the course of his reply the Chancellor claimed that Great Britain was able to borrow abroad at much lower terms than any other belligerent power. He estimated the nation's total indebtedness at the end of the present financial year to be £3,440,000,000.

From that amount, said the Chancellor, the nation was entitled to deduct £200,000,000 loaned to Allies and Dominions. He declared that the sum left being a burden it could well sustain, as it was practically balanced by the national income. He declared that Great Britain was in the position of a man whose income was £5,000,000 and whose debts amounted to £5,000,000, which was not an alarming position.

FRENCH TROOPS NOW STRADDLE MAUREPAS-HEM HIGHROAD

British Gain Additional Ground North of Bazentin le Petit and North-West of Pozieres.

A despatch from London says: The French and British continue their steady work of extending and consolidating their positions in the German second line and preparing for a powerful thrust at the third. There has been a let up for an hour on the western front now in week, the allies hereafter that they must keep the Germans busily engaged to prevent the withdrawal of men to other fronts where the offensives of the other Elbe front powers are sweeping back the Germans and Austrians.

On other days this week, the British and French concerned themselves principally with attacks beyond Pozieres and in the district of Hem wood. Some particularly brilliant actions occurred on the French front, resulting according to the official report of the French War Office on Friday, in the further advance of the French between the Somme and Maurepas. The ridge for which Gen. Poel's troops have been fighting for more than a week is now completely in their hands, the sun having been reached in a dashing charge this afternoon.

The French now straddle the Maurepas highroad and hold the dominant position in this sector. Night fighting enabled the British to gain some additional ground north of Bazentin le Petit and north-west of Pozieres, where the apex of the British wedge is now approaching the German position in this sector. Friday night's gains principally in the direction of the other Elbe front powers are sweeping back the Germans and Austrians.

On the Verdun front, the British continued for another day, broken up by small raiding actions, in which the French gained minor successes on both banks of the Meuse. The very combat continues with the British and another German aeroplane has been shot down by a member of the British American Flying Corps.

Two more British aeroplanes have been lost as a result of their operations behind the German lines.

NEW BRITISH LOAN FOR \$200,000,000

Will be Floated in the United States About a Month Hence.

A despatch from New York says: Several prominent financial interests in this and other large cities, it was learned on Wednesday from authoritative sources, have been approached by J. P. Morgan and Company, financial agents of the British Government, regarding a new loan to that Government of between \$150,000,000 and \$200,000,000.

The negotiations thus far have not been in the form of general terms, but simply as feelers as to how a loan of this sort would be taken in the near future. The credit, it was learned, probably will take a similar form to the French loan recently floated by the same institution. Nothing definite could be learned regarding the terms. Wall Street does not look for an announcement for at least another month.

It is generally expected that the new loan will be secured by American stocks and bonds which the British Government have been mobilizing through the borrowing process.

According to information available at present, an American corporation owned American securities, the corporation will issue its own debentures will be formed to hold the British against the collateral, as in the case of the recent French loan.

TEUTON TROOPS IN FULL RETREAT

Russians Smashing Through on Wide Front to the Galician Capital.

London, Aug. 13.—The semicircle formed by the Russian army chain in Galicia from the region south of Brody to the area south of Stanislaw has been drawn in average of 10 miles closer to Lemberg during the last 24 hours. Swiftly routing up the armies of the Austrian throno left in the direction of the Galician capital, the main goal of Gen. Brusiloff's drive in the south, the Muscovite forces drove the Teuton defenders from the greater part of their positions on the four great streams which formed the main natural obstacles on the road to Lemberg from the south-east—the Sereth, Strypa, Koryupka and Zlota Lipa.

Though fighting desperate and rearguard actions, the Austro-German troops are rapidly retreating on the whole front from the head waters of the Sereth down to the eastern and southern approaches of Halicz, the withdrawal having become necessary with the fall of Stanislaw last Thursday.

As a result of yesterday's and today's fighting the two southern "gates" of Lemberg, Halicz and Buzany are now in the range of the Russian artillery and their fall is near.

Four important "gates" fell to the Russians during the last 24 hours. The possession of each serves to tighten their grip on Lemberg. They are: Ezerka (Jezewka), between the Strypa and Sereth rivers, 63 miles south-east of Lemberg; Potajce (Podhajce), on the Koropka, 30 miles to the north-east of Stanislaw, and only 15 miles south of Buzany; and Podkajce, a trunk railroad runs north-west through Buzany directly to Lemberg, which is 41 miles away as the crow flies. Halicz, north of the Zlota Lipa, ten miles north of Halicz, and the Dniester, 10 miles to the south-east of Halicz.

Thus Halicz is being encircled and the Teuton lines there have become untenable.

PROPHESIED FALL OF PRUSSIAN HOUSE

English Lady Foretold Time When the Hohenzollern Dynasty Would End.

A despatch from London says: Some decades ago, when the Kaiser Wilhelm was a youth, he was on a visit to his grandmother, Queen Victoria, and while walking in the grounds of a certain Royal residence, the princess, the Hohenzollern dynasty, was one who greatly astonished her friends. Shortly after the prince had made this boast, his lady, pointing to the ornamental lake by the banks of which they were standing, said: "When they cut hay from the bottom of this lake the Hohenzollern dynasty comes to an end." For certain reasons the lake has been drained since that time, and this year grass has been grown plentifully and hay has been cut.

KILLING OF BABES

Ten Zeppelins Raid the English and Scotch Coast.

A despatch from London says: From seven to ten Zeppelins were in the air on Wednesday night in the east coast of England and southeastern Scotland, according to an official statement in the afternoon. About 100 bombs were dropped, and 23 casualties were caused. The commanders of the airships seemed in doubt as to their whereabouts, as they frequently shut off the engines and hovered in the air for minutes at a time.

The raid which visited Scotland over a sparsely populated district and its bombs were dropped in fields and on hillside. Another raid dropped twenty-six bombs in the open ground between two villages. One man, two women and three children were killed in a north-eastern town. Five men, six women and six boys were injured.

Correspondents in the districts visited by the Zeppelins telegraphed that the airships flew at a great height. They were subjected to very heavy fire from anti-aircraft guns, which compelled them to make a hasty retreat. One airship dropped some of its bombs into the sea. At all recent visits, many of the bombs fell on open ground or in the water, as the airships were making off.

ITALIANS GIVE ENEMY NO REST

Push Barther Across Carso and East of Goritz.

A despatch from London says: The Italians are giving the shattered Austrian armies no rest. They have pushed farther across the Carso Plateau, have extended their gains to the hills east of Goritz, and not content with this, are also carrying on a heavy and successful offensive around Tolmino. This new drive has certainly reached the suburbs of the city, which is the key of the Upper Isonzo, and according to unofficial reports they have seized the entire town. The official statements made no mention of the fighting here, nor of that in the Dolomites where heavy attacks are being made, though Austria claims repulses for the Italians in these sectors. It is recalled that the successful attack on Goritz has been under way for three days before the official statements told of the capture of Trieste is appreciably nearer.

AUSTRIAN PRISONERS A BEGGARS BRIGADE

Property Damaged in West Virginia Cloudburst Very Heavy.

A despatch from Charleston, W. Va., says: Investigations conducted ever since daybreak, in the face of such obstacles as prostrated telegraph and telephone lines, vanished or impassable roads, bridges and streams, prove that the storm which swept the mining and lumber regions of Coal River and its tributaries on Wednesday took a toll of more than 100 lives, caused property damage of approximately \$2,000,000 and made between 8,000 and 10,000 homeless. The flood extended over an area of nearly 400 square miles, and reached its greatest destructiveness in the valleys of Paint and Cabin Creeks, which are lined with coal mines. The mines are flooded and otherwise injured to such an extent that it may be weeks before they can again be operated.

STANISLAU CAPTURED IN THE RUSSIAN SWEEP

Great Railway Centre in Galicia Taken by General Lechitsky's Army.

A despatch from London says: Stanislaw, next to Lemberg the most important railway city in Galicia, has fallen to the Russians.

Gen. Lechitsky's army, which has been hammering at the city's gates for more than a week, taking one fortified barrier after another, captured the city on Thursday, in a swift dash across the River Carpatha. The city's fall was officially announced by Petrograd on Friday, and is admitted by the Austrian War Office in its statement says: "We have evacuated Stanislaw without a fight."

The garrison and the army which had been defending the city's eastern approaches escaped. Fleeing northward, they did not always accomplish.

GOVERNMENT MAY CONFISCATE ALL GERMAN-OWNED PROPERTY

This Action Is to Ensure Retaliation for the Execution of Capt. Charles Fryatt.

HAIG'S AND FOCH'S TROOPS MAKE IMPORTANT ADVANCE

British Push Forward on Mile Front—French Move Eastward 1,000 Yards on Four-Mile Front.

London, Aug. 13.—Indications that a new general attack by the British in the westward Bapaume is near came in the news today that they had gained 300 or 400 yards on a front of nearly a mile north-west of Pozieres and that heavy fighting was going on all along the line. The Allies again were the heroes of the advance.

The British advance followed a brilliant success by the French on Saturday night, when Gen. Foch's troops penetrated the German third line of trenches on a front of three and three-quarter miles and to a depth of nearly two-thirds of a mile from Hardecourt to Biscourt. The French forced their way in the village of Maurepas and took a thousand Germans prisoner and captured thirty machine guns.

Heavy German counter-attacks against both French and British followed last night. One terrific drive against

GOVERNMENT HELP TO FIRE SUFFERERS

Federal Authorities Contribute \$100,000 to Relief Associations.

A despatch from Ottawa says: A message has been received by the Government from the president of the Northern Ontario Fire Relief Association expressing his thanks at the generous contribution of \$100,000 to the fire sufferers, and asking the Government to nominate a member of the board which is to supervise the distribution of the relief. This the Government does not think necessary, as it is confident the money will be wisely expended.
