

ANURIC! THE NEWEST DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains are stifled, which so frequently and persistently accompany the disease rapidly disappear. Go to your nearest drug store and simply ask for a 50-cent package of "Anuric" manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble send him a sample of your water and describe symptoms. Doctor Pierce's chemist examining it, then Dr. Pierce will report to you without fee or charge. Note:—French scientists affirm that "Anuric" is thirty-seven times more active than lithin in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using "one box" or more in extreme cases—as "Anuric" thanks to Doctor Pierce's achievement, is by far the most perfect kidney and bladder corrector obtainable. Dr. Pierce's Pellets are the original "Little Liver Pills" and the only Pellets for a laxative—three for a cathartic.

Our village had a close call from fire one day last week. NOT ENOUGH CHILDREN ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This shows up in so many pale faces, lean bodies, frequent colds, and lack of ambition. For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It food elements to enrich their blood. It changes weakness to strength, it makes them sturdy and strong and active. Scott & Bowne, Toronto, Ont.

Fined \$300 00

Convicted on a charge of selling liquor in Owen Sound, Chas. Ellis Sr., has his choice of two alternatives, a \$300 fine and costs, or a jail course of three months. Mrs. Spilker helping the good work along. She had been a sort of corresponding secretary for Ellis and had written the orders for the whisky, although at first she denied all knowledge of the transactions, and tried to maintain a piously dignified throughout the investigation. The liquor was shipped under fictitious names and delivery of goods made to Ellis, who has been banding with Mrs. Spilker for some time, on First Ave. East, south of the market bridge. Mr. Ellis, according to being that he has his tip only to take a general view, and put to specialize in a few things.

Great Living Flag at the Exhibition.

One of the features of the Federation of Empire pageant at the Canadian National Exhibition this year will be a living flag, 65x100 feet, which will be unfurled at a moment when it will seem to put a great loyal seal on "Federation" just prophetically proclaimed from the House of Parliament. Several of the Colonies and Overseas Dominions, which will be represented in the Federation procession have sent greetings to Dr. Orr and best wishes for the success of the Exhibition, together with official flags to be carried at the head of the contingent representing them.

When Pigs Were Cheap

In your grandfather's day—ask him about it—you could buy a dressed hog for three dollars, a nice big pig. And a live pig would cost you no more. Everything in those bygone days

was cheap—that is, the price of which he is particularly interested. Clothes, boots, shoes, read. So much for the instruction in beefsteak, eggs, butter, number, cure of the Exhibition. farm labor, domestic servants—also a variety of amusement they all cost a good deal less than is almost everywhere. And they do to-day. It has cost less to live and be born—and less to be raised—years ago than to-day. And it cost much less to go to the country weeks ago than it does to-day. But the dollar rate has yielded to the pressure of necessity. We must do now what we ought to have done years ago. The price of The Standard is 1.50. The tremendously increased cost of paper, ink, supplies, and the more than doubled cost of printing have made it impossible to think. Since July 1st, the price of The Standard has been \$1.50. Good Reader: If you were in our shoes and to-morrow you were publishing, you would wonder we didn't make the rate. We trust you will give us a new rate with a smile. Not 50 cents a year will stop my paper.

The Exhibition.

In the main, the success of the Canadian National Exhibition is due to business ability and honesty. The success is more than the worth of the exhibit. It is not an exaggeration to say that nowhere in the world is so much to be seen for so little of admission. The exhibits are used, not to make profits or to tend, but to improve the Exhibition year after year. The illustration of the arts of war. The only legitimate complaint that can be made is that there is too much to see and the only remedy is to see it as often as possible. The exhibits, help the visitor to realize the vast resources of the Empire. The materials for the exhibition, the visitor's only regret being that he has time only to take a general view, and put to specialize in a few things.
