THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a 25 cent bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

Credit Sale

Mrs. Catharine Downey, Prop.

B. H. Walden, Auctioneer.

S. G. Teachers Meet

(Continued from Page 1)

and dishonesty and political chicane, must be inculcated and the schools must be the channel through which will flow this quickened love of home and country. Christianity must take its rightful place as the foundation of statecraft and everything national if we are to escape the awful blood-lust that has changed peaceful Germany into an armed camp. These, and many other points were emphasized with relentless logic, yet in such sincere and artless simplicity that the audience hung upon the fair speaker's words. It was noted that even the knitters forgot their knitting.

Miss Mildred Leeson, in a compact, well-written essay on "The School and The Community," emphasized the duty of the teacher to know the homes and surroundings of her pupils, to take an active interest in the social events of the section, and so make the school a social centre for all that is best in the life of the community.

Principal Allan of the Durham high school briefly pointed out the desirability of greater accuracy in teaching arithmetic, taking his illustrations mainly from percentage problems. If teachers followed his advice, their pupils would find First Form arithmetic much easier when they reached the high school.

Miss Catharine Gillespie read a short, but practical paper on talent and "Self-Criticism" in relation to teacher and pupils. It was when the teachers learned to note their own short-comings in teaching, discipline, tact, sympathy, etc., that they were well started on the road to the highest efficiency. As the pupils also learned to notice their own errors and correct their own mistakes, they were being educated in the real sense. The evil habit of many teachers in helping pupils to answer all questions and correct all imperfect work, was scored as tending to produce parasites, and not independent thinkers.

Dr. Dandeno, inspector of elementary agriculture, gave two very instructive addresses, one on "Diseases and Sanitation," and the other on "School Gardens for Public and Separate Schools. Both were highly practical and were well received. It would be impossible to do the addresses justice in a report of this kind, but it would be well if the Dr. could be induced to give his address on "Diseases and Sanitation" to the city fathers of our towns, villages and townships, and his address on school gardens to the rural school boards.

Inspector H. H. Burgess of Owen Sound contributed a most interesting paper on some phases of modern education. What should be the heart-thought of every teacher—the full, rounded development of our growing future citizens—was set forth clearly and remedies in known defects suggested. It was regrettable that there was so little time for the full discussion of this valuable paper.

The evening session was also a most enjoyable one. Local talent supplied excellent vocal and instrumental music. Miss Hulse, of Orangeville, gave some well rendered violin selections; Miss Kathleen Ball of the high school gave a spirited reading entitled "Brian Rose," followed by a patriotic selection which brought down the house; the local clergymen gave capital, short addresses, and Rev. S. M. Whaley, B.A., of Durham gave a thoughtful, educational address which was particularly well received. One competent citizen declared it was the best educational address he had heard in Dundalk.

A strong committee, with Mr. J. A. McGee of Hanover as convenor was appointed to carry on, according to the Regulations, the work of the Strathcona Trust as to physical culture, etc.

The teachers voted unanimously as last year, one day's pay, based on a 200-day year, to the Red Cross Society.

Votes of thanks to the citizens of Dundalk for their genial hospitality to the visiting teachers and for the generous words of welcome of Reeve Colgan, Dr. Martin and Mr. Metherell, representing the council, the high and public school boards, respectively; to Rev. Mr. Whaley and the local Institute, were cordially passed.

Mr. S. F. Hunter, principal of the Markdale public school, was appointed president for 1916-7, and Mr. John A. Graham, of Durham, was appointed secretary, in place of Mr. Allan, who resigned amid general regret, because he thought the office should be held by a public school man.

The session closed with the National Anthem.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, liver and bowels.

Look at the tongue, mother! If coated your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't eat, can't sleep, acts naturally, or is feverish, stomach sour, breath bad; has colic, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Have You Defective Eye Sight ? ? ?

Half the Eye troubles come from overwork and neglect. Thousands suffer from Eye Strain, without knowing the fact that most cases of impaired vision, headache, nervousness, are due directly or indirectly to Eye Strain.

FIFTEEN YEARS of successful Eyesight fitting enable me to positively remove Eye Strain by perfectly fitted glasses. If Eye Strain is not your trouble, it will cost you nothing to know. If so, do not neglect to have your sight carefully tested and at a very moderate cost at
