

NO WINTER REST ON SOMME FRONT

Allies' Offensive to Continue
Whenever Weather at all Favorable.

A despatch from London says: During the course of an interview with the Associated Press correspondent on Thursday, Major-General P. B. Maurice, chief director of military operations at the War Office, was asked what he thought of Field Marshal von Hindenburg's statement that the Entente allies could not break through the western front in thirty days. General Maurice replied: "Our recent offensive was not designed to break through. Its purpose was to relieve the pressure on Verdun and kill as many Germans as possible. I will not undertake to say whether it will take thirty years to get the Germans out of France, but the allied strength is constantly growing and the German strength constantly declining. The effect of the allied offensive is accumulative. When the weather permits its resumption the results will be greater than ever. Torrential rains in the past week have prevented actions of any great

"It is no doubt true that the Germans in recent fights have been short of ammunition. During the winter, with its short days, limiting the use of artillery, they will be compelled to replenish their stores but, despite the bad weather, we have no intention of letting up on them. Our offensive will continue throughout the winter when conditions are at all favorable."

"From documents recently found on prisoners there is no question but that there is a great deterioration in the enemy's morale and material, although they have been able to maintain the number of their divisions. This has been accomplished by withdrawing regiments from old divisions to form new ones. You see, in defence warfare, eight or nine battalions form an effective division, whereas eleven or twelve are required for offensive work. On the defensive, a smaller number of battalions can hold a greater amount of line. This is possible through the use of machine guns, whereas on the offensive the men can be individually aimed with

"I am confident the actual new organizations of the Germans are not more than 14 divisions. Others were formed by liquidation by withdrawing regiments from old divisions."

4,820 VESSELS SUNK
SINCE WAR BEGAN.
Loss of Entente Allies About 75 Per Cent. and neutrals 18 Per Cent.

A despatch from New York says: "The British and eight hundred French ships, with an aggregate gross tonnage of approximately 3,825,881, have been sunk by the Entente forces during the 21 months of war ending November 1, according to figures contained in daily despatches and mail telegrams, and published here on Friday by the Journal of Commerce."

The losses during October were larger than for any one of the preceding months, according to the statistics, amounting to 127 vessels of a total of 115,616 gross tons. The October rate of destruction was considerably in excess of the monthly average throughout the war period. Norway, the largest number of ships, 56, according to the statistics, but their gross tonnage was only 5,723, as compared with Great Britain's total of 117,540 gross tons, of 33 vessels destroyed.

A table showing the total shipping loss since the war began, estimates use of the Entente allies at about 75 per cent., and those of neutrals at only 18 per cent., with Teutonic less than 7 per cent.

HONOR JULIAN HEROES
of Inspiring Courage and
Wonderful Coolness.

Many stories of inspiring courage, wonderful coolness, and unfailing resource are related by Sir John Frood and his commanders in describing the Jutland battle for promotion and honor, following are examples:

A petty officer whose leg was away insisted on remaining at post, and tried to get his gun action again. A lieutenant, aged fifty-six, although himself severely burned, helped men from the battery to the distributing station.

Both children and grown-ups help themselves to this delicious food as often as they like. It contains the entire nutriment of wheat and barley, digests quickly, and is wonderfully energizing.

Every table should have its daily ration of Grape-Nuts.

THE GAYEST FIGHT EVER KNOWN

THE BRITISH GUARDS IN A GREAT BATTLE.

It Can Only Be Cured by Thoroughly Enriching the Blood Supply.

For the Coldstreams Made An Immortal Charge Against Great Odds.

Not so long ago rheumatism was looked upon as a pain in the muscles or joints brought on by exposure to dampness or bad weather. Now doctors know that it is rooted in the blood, and while exposure may start the pain, nothing but the removal of the poisonous acid from the blood will cure the trouble. It is a waste of both time and money to try to cure rheumatism with liniments, poultices or anything that only goes skin deep. Rubbing lotions into the skin may give temporary relief, but it actually helps to circulate the poisonous acid more freely and thus in the end increases the trouble, and, perhaps leaves the sufferer permanently crippled.

The one cure, the only cure, for rheumatism is to drive the acid which causes the trouble out of the blood.

To do this no other remedy can equal Dr. Williams Pink Pills, which actually make new blood, sweeps out the poisonous acid, loosens the stiffened, aching joints, and brings good health and comfort. Here is the proof. Mr. Joseph Crouse, of Nivelin, N.S., says: "For several years I was severely afflicted with rheumatism. The trouble seemed to locate in all the joints in my body, and my suffering at times was most intense, and the disease greatly interfered with my activity. I doctor'd hard for a long time, but the trouble was obstinate and did not yield to the doctors' treatment. One day a friend told me of some cures of rheumatism by the use of Dr. Williams Pink Pills and strongly advised me to try them. I did so and to my great surprise eight boxes completely cured me of the trouble, and I was as supple, active and free from pain as ever I had been in my life. Better still, I had never felt a symptom of the trouble since."

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Doctor Tells How To Strengthen Eyesight 50 per cent in One Week's Time In Many Instances.

A Free Prescription You Can Have Filled and Use at Home.

LOST YOUR VISION OR OTHER EYESIGHT? If so, you will hardly believe that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have been cured through the principle of this wonderful, free prescription. Our man who is the author of this prescription claims that it is most effective.

Here is the prescription! Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water. Take this daily, and it will bring back your eyesight to full strength. Many who have lost their eyesight have been restored through the use of this prescription.

Note: Another prominent Physician has submitted this same prescription. It is believed that through the use of glasses, many now need not wear them.
