That New Industry

It is announced in this issue that Mr. Thorn Teeter has leased the "historic old mill," meaning the Markdale Power House. Well and good. We wish him success. If the first two sentences in his announcement had been left out we would feel inclined to let it go at that, but a reputable newspaper does not like to have the veracity of its editorials doubted. In last week's article on "A New Industry" we did not say that the "Historic Old Mill" was down and out, or up and in. We did not say that it would not be operated in future as a chopping mill or a planing mill, or any other kind of mill, furthermore, the mill can hardly be termed historic, and certainly not old. To be exact, it was built only sixteen years ago, and Mr. Plewes has been out of the milling business for fifteen years. Also, to state the truth, Mr. Ford's time expires on the 30th November, not on the 27th. We did say that it "is questionable when repair expense and depreciation is considered, whether or not the municipality is a gainer or loser in leasing the surplus water power from year to year," and we are still of the same mind. A majority of the council expressed themselves of the same opinion at a meeting held two days previous to the publication of our article on "A New Industry." A majority of the members of the waterworks commission were present at the same meeting, and went so far as to ask for and to receive an application for the pumping job with free house rent as the consideration. On the strength of this we might have been justified in announcing that an old industry was to be moved up town. On the strength of Mr. Teeter's announcement we take it that some of the members of the waterworks commission had got some new light on the subject and changed their minds. They certainly have a perfect right to do so. Mr. Teeter says that "truth is sometimes stranger than fiction" to which we say Amen and Amen. Surely it is always stronger, sometimes stranger and often rarer. We have apparently two choppers in sight and rumors of a third. The more the merrier. Markdale has acquired the name of being one of the best live stock markets. Why not make for teseli a name for grinding the chop that feeds the hogs that lift the mortgage that lies on the farm, that keeps the family, that lives in the house that Jack built.

Tuberculosis Sunday.

Through the efforts of the National Sanitarium Association, with the co-operation of the clergy of all Denominations and the Department of Education, Sunday, November 26, and Monday November 27th next, have been set apart as Tuberculosis Sunday and Tuberculosis Day in the schools.

Literature on the subject has been distributed to Ministers and Teachers throughout the province, and the widest possible publicity is urged—that all pray join in stamping out this dread disease.

Bible Society Meeting

The Bible Society executive did a commendable act in having the annual meeting held in the Armouries taking the place of the several evening services last Sunday night. 'Twas an inspiring spectacle, all the local Clergy on the platform and the spacious auditorium well filled with a mixed audience. Rev. Mr. Wallace presided, while Rev's. Hosford and Conn took part in the service, Rev. Mr. Gibson, the Society's Field Secretary, delivered an instructive and appropriate address which was listened to with rapt attention. The offering taken amounted to over $80.00

Tower Erected.

Six employees of the Government are erecting a tower, or rather a pair of towers, on Mr. Dr. Jackson's property. The towers, as far as we are able to learn, are being erected for the purpose of altitude measurement, etc. The land, upon which the tower is being built, was leased from Mr. Jackson some six years ago. The lease runs for a period of ten years from the time of the erection of the tower. The tower is constructed of spruce, and from the base to the platform on the top, will measure some eighty feet. Another tower, for the purpose of holding the necessary implements, will be built within the main tower. According to our informant, there will be a series of towers throughout the country, from 14 to 20 miles apart. The tower at Mr. Jackson's will be the last built this year. It is expected that it will be completed about the end of the week.—Chatsworth News.

Hon. J. S. Duff Dies Suddenly.

Hon. Jas. S. Duff, Minister of Agriculture for Ontario, died suddenly at the home of a friend at Alliston on Friday last. Heart failure was the cause of death, he having suffered from that ailment for some time. About two weeks ago, he received news of the death in France of a son, Pte. G. Clark Duff, which is thought to have hastened his end.

The late Minister of Agriculture was a general favorite with his constituents in West Simcoe, which he had represented in the Legislature for the past eighteen years. The "People's Jimmy," as he was known, will be missed there, his whole-hearted genial smile and handshake endearing him to his constituents. The late Mr. Duff was born at Cookstown in 1856 being educated at the local School and Collingwood Collegiate Institute. He was prominent in municipal affairs before entering Parliament. He succeeded Hon. Nelson Montieth as Minister of Agriculture in October 1908. He was a thorough Britisher and also one of the most prominent figures in the Orange Order.

CARD OF THANKS.

During a year of misfortunes, such as the present has been, is the time to test the quality of one's neighbors and we must say ours are of the best. During the removal of our barn from Temple Hill, we received all the help possible; then after getting my leg broken on Oct. 30th the very many acts of kindness and expressions of sympathy from the ladies as well as men, makes us feel it our duty to take this means of thanking one and all who so willingly helped us in the erection of the new barn, and also for the sympathy bestowed upon us.

Mr. and Mrs. T. I. Fawcett.

Still On The Job.

According to an item re "a new industry" in last week's issue of this paper the public are told that the historic "old mill," which for a quarter of a century was most successfully operated by Portmaster Plewes, was down and out. Truth is sometimes stranger than fiction. The old Plewes mill will continue business at the old stand with the same machinery and equipment heretofore employed for chopping, etc., but under new management.

Thorn Teeter has purchased the equipment in the mill and leased the mill from "The Waterworks Commission" and will take over the property Nov. 27th, when Mr. Ford's lease expires. It is a well-known fact that Thorn Teeter has lived near Markdale all his life and for the past five years has, under Mr. Ford, been in charge of the powerhouse, pumping plant and chopping mill and has conducted both branches of the business in a manner eminently satisfactory to the public. Thorn has experienced a test of five years in the business he has now taken over and the public know that he is most obliging, attentive and can be relied upon to do the right thing every time.

Grey County Patriotic Fund.

Representatives of Grey Patriotic Organizations met at Saugeen Junction on Friday last to consider the best method of raising Grey County's proportion of the Patriotic Fund for 1917. The meeting was enthusiastic. It was found that of the $80,000 required about $50,000 had already been subscribed by free will offering, chiefly by Owen Sound citizens. [illegible] amount $30,000 to [illegible] provided it was unanimously agreed to ask the County Council to levy an additional one mill on the dollar to next year's rates, which would be ample for this requirement.

The representatives from the various branches were:—

Markdale—Messrs. R. J. Ball, M. P. P. and M. J. Mater.

Flesherton—Dr. Jamieson, M.P.P. and A. Carson, J. D. Telford, W. Taylor.

Markdale—C. W. Rutledge, J. W. Boyd, J. E. Matson.

Meaford—William Gardiner.
