

**"WHY WOMEN CANNOT SLEEP."**

The highly organized, finely strong nervous system of women subjects them to terrors of nervous apprehension which no man can ever appreciate.

The peace of mind, the mental poise add calmness under difficulties, which are necessary for happy womanhood; are only possible when the sensitive organism is in a perfectly healthy condition. If there be any derangement in this respect, remedy in the world so completely restores womanly health as the wonderful "Fever Prescription" invented by Dr. R. V. Pierce.

Chatham, Ont.—A few years ago I suffered a general break-down and got very weak then. I was in an awful state. I was very much disengaged and at times thought I would lose my mind. I knew of Dr. Pierce's medicine and I got immediate relief, and completely cured me in a very short time. My sister used it with good results also. She was in a very delicate condition. I got her to take it and two bottles cured her completely.

"I take great pleasure in recommending Dr. Pierce's medicines; they are all that is recommended of them."—Mrs. MARGARET BAYANT, 87 Park Ave., Chatham, Ont.
