Keep up the Food Supply and Help Make Victory Sure

OUR soldiers must be fed; the people at home must be fed. And—in spite of Germany's murderous campaign to cut off the Allies' Food supply, by sinking every ship on the High Seas—an ample and unflinching flow of food to England and France must be maintained.

This is National Service—
Not to the Farmer only—
But to YOU—to everybody—
This appeal is directed

WE must unite as a Nation to SERVE—to SAVE and to PRODUCE. Men, women and children; the young, the middle aged and the old—all can help in the Nation's Army of Production.

EVERY pound of FOOD raised, helps reduce the cost of living and adds to the Food Supply for Overseas.

PLANT a garden, small or large. Utilize your own back yard. Utilize the vacant lots. Make them productive.

WOMEN of towns and cities, no better for more important than for their energies than in cultivating a vegetable garden.

Be patriotic in act as well as in thought.

Use every means available—
Overlook nothing.
